## **Tech Innovators Family Circle Café Twin (TIFC Café Twin) Fairfax VA DC Hub Community**

*An Affordable Protocol Demo to Strengthen Social Capital at Hometown USA Virtual Teaming focusing on educational music video games, tech development, and “eat and meet” Saturday buffet breakfast event planned linked to Café Twin Show taping once a month for distribution via top 5 public access non-commercial cable channels at Metro DC hub. SBIR or Crowd Funding Pre-Proposals Café Twin Multi-discipline key focus.*

## **Tech Innovators Family Circle Cafe Twin (TIFC Cafe Twin)**

Conversation: Cafe Twin Show on Community TV supports the community education mission, distributed by the 5 key non-commercial public access stations located in Fairfax Metro DC Hub as planned. The previous Cafe Twin Show plan.

This educational and regional music once a month half our TV show event must be philanthropy supported activity, continuing the philosophy and experience developed by Avi and John via Aviv's previous Community TV show, Our Family Origins and John's current TV show, Communicating Today Show.

Tech Innovators Family Circle (TIFC) event is monthly Saturday breakfast event geared to tech innovators located in Fairfax Metro DC hub, 9:30 AM-11:30 AM as per the success model developed by Avi for many years in his previous career in the financial

service industry and as a member of the technical association, [ieee.org](http://ieee.org) , developed the predecessor "success model" as a volunteer president of ieee.org metro dc chapter.

Now for TIFC Cafe Twin, the community TV show and TIFC monthly event are being combined to support the task of developing "social capital" and knowledge experience based on the "success model" in existence in America by Ben Franklin's Junto Club in Philadelphia.

*In order to execute TIFC Cafe Twin, Kick Starter submitted proposal is asking for \$10,000 for one year project with one Cafe Twin Show per month and the Space Hub Proposal is asking for \$6000 for one Special Event with 50 community shakers and movers invited to a buffet lunch linked to a Special Music & Educational Event at a convenient Community TV show in Fairfax, VA.*

But though both of this philanthropy based proposals are accepted by respected two crowdfunding source, the requirement for community support is not met.

Avi has started working on getting if possible by discussing with some of the 15 Chamber of Commerce existing in Fairfax and also this one technical association.

But this task needs some support also to enable for the Chambers and others to understand the value proposition of TIFC Cafe Twin to help strengthen knowledge economy infrastructure here in Fairfax County VA and our Washington DC tech hub as is logical and supported widely by those who understands the knowledge economy infrastructure building imperative. **Strangely VC & Financial Service community (IE BANKS!) Appear so far not to appreciate or understand the value and long term priority need of philanthropy based capacity building support structure such as is our TIFC protocol.**

Question: How do we solve this barrier we have faced for developing TIFC at Metro DC Hub? Background on TIFC Cafe Twin 01. Group: ♦ Tech Innovators Family Circle\_\_Fairfax VA Metro DC
