General Information

PBL World, scheduled for June 17-21 in lovely Napa, California, will bring together 500 educators who understand that Project Based Learning is a key strategy for creating an effective and engaging 21st century classroom that promotes students' ability to master the Common Core State Standards.

This is unlike any other institute or conference. Monday through Wednesday attendees will participate in BIE's classic PBL 101 workshop, which engages them in learning the principles for designing, assessing and managing standards-focused projects as well as using performance assessments to judge the rigorous work generated by 21st century learners. This year we are adding major strands to World: Instructional Coaching and Leadership.

On Thursday participants can sign up for advanced PBL 201 all-day workshops that feature such topics as PBL and Math, Creativity and Innovation, and Technology Integration. School and district teams can choose to enroll in one of our Coaching Intensives, where they will work with one of BIE's National Faculty to create customized plans for PBL implementation.

Friday, thanks to the generosity of the William & Flora Hewlett Foundation, registrants are invited to attend Deeper Learning Network workshops facilitated by our good friends at New Tech Network, High Tech High, Envision Schools, EdVisions, New Visions for Public Schools, The Asia Society, Big Picture Learning, and ConnectEd. For free!

Mornings will begin with engaging keynotes by education thought leaders. Late afternoons belong to the attendees, who may participate at no cost in a series of short after-sessions. Evenings, well, we are going to be in Napa.
