Introductory Section

The Introductory Section contains the letter of transmittal, which provides an overview of the County of Fairfax's finances, economic prospects, and achievements. Also, included in this section is the Certificate of Achievement for Excellence in Financial Reporting awarded by the Government Finance Officers Association. It is the highest form of recognition in governmental financial reporting.

County of Fairfax, Virginia

To protect and enrich the quality of life for the people, neighborhoods and diverse communities of Fairfax County

November 15, 2011

Honorable Chairman, Members of the Board, and Residents of the County of Fairfax:

We are pleased to submit to you the Comprehensive Annual Financial Report of the County of Fairfax, Virginia (the County) for the fiscal year ended June 30, 2011, in accordance with the *Code of Virginia*. The financial statements included in this report conform to generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position and results of operations of the various funds and component units of the County. Extensive disclosures have been included to enable the reader to gain the maximum understanding of the County's financial affairs.

All the financial activities of the reporting entity are included within this report. As used here, the reporting entity comprises the primary government (County of Fairfax, as legally defined) and its component units. Under GASB pronouncements, component units are legally separate entities for which the primary government is financially accountable. The component units of the County include both blended component units and discretely presented component units. Blended component units, although legally separate entities, are in substance part of the primary government's operations and are included as part of the primary government. Accordingly, the Solid Waste Authority of Fairfax County, the Small District One, the Small District Five and the Mosaic Community Development Authority are reported as part of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, changes in financial position, and cash flows from those of the primary government. The Fairfax County Public Schools, the Fairfax County Redevelopment and Housing Authority, the Fairfax County Park Authority, and the Fairfax County Economic Development Authority are reported as discretely presented component units. For additional information regarding the basic financial statements and the County's financial position, please refer to Management's Discussion and Analysis.

GOVERNMENTAL STRUCTURE

The County is located in the northeastern corner of Virginia and encompasses an area of 407 square miles, including land and water. The County is part of the Washington, D.C. metropolitan area, which includes jurisdictions in Maryland, Northern Virginia, and the District of Columbia.

The County government is organized under the Urban County Executive form of government (as defined under Virginia law). The governing body of the County is the Board of Supervisors, which sets policy for the administration of the County. The Board of Supervisors comprises ten members: a chairman, elected at-large for a four-year term, and one member from each of nine districts, elected for a four-year term by the voters of the district in which each member resides. The Board of Supervisors appoints a County Executive to act as the administrative head of the County. The County Executive serves at the pleasure of the Board of Supervisors, carries out the policies established by the Board of Supervisors, directs business and administrative procedures, and recommends officers and personnel to be appointed by the Board of Supervisors.

www.fairfaxcounty.gov

Cities and counties in Virginia are discrete units of government that under Virginia law may not be overlapping districts. Fairfax County surrounds the City of Fairfax and is adjacent to the City of Falls Church and the City of Alexandria. Properties within these cities are not subject to taxation by Fairfax County, and the County generally is not required to provide governmental services to their residents. The County does, however, provide certain services to these cities' residents pursuant to intermunicipal agreements.

The incorporated towns of Clifton, Herndon, and Vienna are underlying units of government within the County. The ordinances and regulations of the County, with certain limitations prescribed by state law, are in effect. Properties in these towns are subject to County taxation, and the County provides certain services to their residents. These towns may incur general obligation bonded indebtedness without the approval of the County.

ECONOMIC CONDITION AND OUTLOOK

Local Economy

The Washington area economy is experiencing a stronger pattern of recovery than seen at the national level. This performance pattern is evident in the latest Case-Shiller home price index for the nation, which in August 2011 posted a 3.8 percent drop from a year earlier. In the same period, the Washington Metropolitan Area was one of only two markets in the nation to show a year-over-year gain.

The Northern Virginia area's labor market indicators remain among the strongest in the nation. While the nation's unemployment rate remains significantly elevated at 9.1 percent in August 2011 and the economy has struggled to add new jobs, the Northern Virginia area has experienced continuing job growth since March 2010. The Northern Virginia unemployment rate in August 2011 was 4.7 percent, down from a peak of 5.7 percent in January 2010.

Other economic indicators also show a stronger recovery in Fairfax. Consumer spending and the housing market are key to the economy's re-acceleration. In fiscal year 2011, sales tax receipts from retail sales in Fairfax County increased 3.5 percent, following two consecutive years of declines, and this positive trend is expected to continue in fiscal year 2012. The stabilization in the region's resale housing market has continued into 2011. Based on real estate data from the Metropolitan Regional Information System for September 2011, the average home sales price in Fairfax County is up by 9 percent over the same period last year. The average days on the market during 2011 are in-line with the time it took to sell a home in 2006 prior to the housing downturn.

Economic Development

Economic development promotes a vibrant and diversified economy and business community, which also increases the commercial tax base. Economic development activities of the County are carried out through the Fairfax County Economic Development Authority (EDA), whose commissioners are appointed by the Board of Supervisors. The EDA mission is, "To foster and promote the governmental, social, educational and environmental infrastructure that will make Fairfax County a world-class twenty-first century business center and the global capital of the knowledge industry." The EDA promotes Fairfax County as a preferred location for business start-up, relocation, and expansion; capital investment; and business travel and events. It works with new and existing businesses to help identify their facility and site needs and to assist in resolving County-related issues. In fiscal year 2011, the EDA worked with 145 companies that will add approximately 5,000 jobs to Fairfax County's primary economy. Well-known companies, such as Northrop Grumman, Volkswagen Group of America, and KPMG relocated or expanded in Fairfax County, along with dozens of other U.S., foreign-owned, and small and minority-owned businesses.

The total inventory of office space in the County was more than 113 million square feet at the end of calendar year 2010, making Fairfax County the largest suburban office market in the nation. It is also the largest office market in the Commonwealth of Virginia. Industrial/flex inventory in the County is estimated at 38.9 million

square feet. In 2010, the vacancy rates (including sublet space) for the office market and industrial/flex markets were 15.3% and 14.0%, respectively.

To promote Fairfax County as the place to locate for a United States presence, the EDA has offices in Bangalore, India; Tel Aviv, Israel; London, England; Frankfurt, Germany; and Seoul, South Korea. A strong foreign-owned business sector helps diversify the County's economy and enhance opportunities for trade. In 2010, the EDA assisted 43 foreign-owned businesses with their decision to locate or expand in Fairfax County. More than 360 foreign-owned firms are doing business in the County.

Employment

Approximately 34,000 payroll businesses, including corporate and regional headquarters, information technology firms, sales and marketing offices, and business services are located in Fairfax County. Local businesses create employment in such diverse areas as computer software development and systems integration; telecommunications; Internet-related services; wholesale and retail trade; defense and homeland security; and financial services. A very high proportion of local jobs are in high-wage, highly skilled technical, professional, scientific, and managerial service occupations.

Fairfax County companies annually appear on a number of prestigious regional and national "best of business" lists in an array of categories, reflecting the diversity and strength of Fairfax County's vibrant business community. The *Washington Business Journal* included twenty-four Fairfax County companies on its list of the 50 largest technology employers in the Washington area, and thirteen of the twenty-five largest telecommunication firms in the region are headquartered in Fairfax County. Twenty Fairfax County firms made the Deloitte & Touché Technology Fast 500 list. *Inc.* magazine's list of the 500 fastest growing companies in the United States includes twenty-six Fairfax companies. That is the most for any county, when compared to cities, is only behind New York. Only five states can claim a higher number.

The County hosts a large and lively mix of technology-driven enterprises that deliver a wide spectrum of high-end services and solutions to government, industry, and consumer markets worldwide. Over 6,700 technology establishments directly employ more than 144,000 people – one in four jobs countywide. Technology firms specialize in aerospace, biotech/biomedical, energy environment, engineering/R&D, enterprise software, systems integration, technology consulting, and telecommunications. More than twenty of these firms have corporate headquarters in Fairfax County.

The County has become a job magnet since 1990 as outsourced federal government work fuels the growth of private-sector companies, especially those that do work for the departments of Defense and Homeland Security. The County's proximity to Washington Dulles International Airport also has boosted economic development. While the County job market includes a number of large and well-known employers, it also has appeal for the entrepreneur. Ninety-seven percent of the companies are small businesses with fewer than 100 employees.

The graph on the following page shows unemployment rate information for the past five years with Fairfax County being consistently below the national and state averages for unemployment rates, primarily due to job growth in the areas of information technology, biotechnology and homeland security.

Demographic Information

Based upon U.S. Census Bureau data for 2010, the County's population was 1,081,726. In 1980, Fairfax County was the third most populous jurisdiction in the Washington, D.C. metropolitan area, as defined by the U.S. Census Bureau, with a population of 596,900. Since 1990, Fairfax County, has been the most populous jurisdiction in the metropolitan region. The population of Fairfax is anticipated to grow to 1.2 million people by the year 2025.

As illustrated below, the composition of the County's population is quite diverse. In 2010, approximately 38.1 percent of the population was 45 years of age or older, while about 26.3 percent of the population was under 19 years old. Over 45 percent of the County's population consisted of ethnic minorities, and more than 38 percent of all County residents speak a language other than English at home.

Source: U.S. Census Bureau, 2010 American Community Survey

As reported in the American Community Survey, Fairfax County had an annual median household income of \$103,010 in 2010, compared to \$60,674 in the Commonwealth of Virginia and \$50,046 in the United States.

Public Schools

Fairfax County Public Schools (FCPS), with a student population of 175,296 in June 2010, is the largest educational system in the Commonwealth of Virginia. The School Board is composed of nine magisterial (election) district representatives plus three at-large members; each member serves a four-year term. A student representative, selected for a one-year term, participates in discussions but does not vote. The operating costs of FCPS are funded primarily by payments from the General Fund of the County to FCPS; additional funds are provided by the federal government and the Commonwealth of Virginia. Capital funding for public school facilities is provided primarily by the sale of general obligation bonds by the County.

The mission of FCPS is to be a world-class school system, inspiring, enabling, and empowering students to meet high academic standards, lead ethical lives, and demonstrate responsible leadership. To those ends, FCPS focuses on excellence in the classroom, in the school, and in the management of its 196 schools and centers.

In the 2011 *U.S. News and World Report* ranking of America's Best High Schools, Thomas Jefferson High School for Science and Technology is ranked as the number one gold medal school in the nation. Langley High School was also named in the top 100 high schools while five additional FCPS schools achieved either silver or honorable mention status. Based on the 2011 Washington Post rankings, FCPS schools are in the top six percent of all American high schools as measured by their student participation in Advanced Placement or International Baccalaureate exams. Every eligible FCPS high school made the list.

Colleges and Universities

George Mason University (GMU) and Northern Virginia Community College (NVCC) are the two largest higher education institutions located in Fairfax County. For the 2010-2011 school year, GMU had an enrollment of over 32,500 students in 199 programs of study, including doctoral programs; NVCC enrollment exceeded 78,000 students offering over 160 associate degree or certificate programs of study on the six campuses in Northern Virginia.

Some of the other institutions of higher education located in Fairfax County include Averett University, DeVry University-the Keller Graduate School of Management, ITT Technical Institute, Marymount University, Strayer University, National-Louis University, and the University of Phoenix. The University of Virginia, and the Virginia Polytechnic Institute and State University, (the latter two located in the Northern Virginia Graduate Center) and the University of Virginia - Darden School of Business. American University, Catholic University, George Washington University, and Virginia Commonwealth University also operate programs in the County's secondary schools and on military installations within the County. These institutions aid business growth by providing workers and professionals with educations in a wide range of fields.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

Stability Driving Change

The downturn in the global economy beginning in 2007 presents challenges throughout the nation, and Fairfax County is no exception. Though economists determined the recession ended prior to July 2009, the effects continue to be felt. The local economy shows signs of recovery and stability, a strong foundation for the County government to continue to provide residents with the services and quality neighborhoods they demand and deserve.

Often, the response to economic challenges or a stagnant economy is to make efforts to maintain the status quo or to cut services until the economic situation changes. The initiatives and accomplishments that follow are a sample of efforts that have succeeded, or continue to progress despite challenging economic circumstances. They are representative of the creative efforts being made to advance the strategic goals which will put the County in a better position tomorrow.

Development Initiatives

A long-term plan is to redevelop Tysons Corner into a residential and commercial center. The plan was designed to take advantage of the four new Metro stations coming to Tysons in 2013. By 2050, Tysons will be transformed into a walkable, green urban center, home to up to 100,000 residents and 200,000 jobs. Currently the area employs over 100,000 people with only 17,000 residents creating significant amounts of traffic as people commute to and from work. Tysons is envisioned as Fairfax County's "downtown," or a 24-hour urban center where people live, work and play. Three-quarters of future growth will be within a half mile of the Metro stations. Many offices and homes will be a three-to six-minute walk from the stations, allowing people to get around on foot, bicycle, bus or subway. The Tysons Plan received the 2011 Daniel Burnham Award from the American Planning Association. This prestigious award for advancing the science and art of planning is granted to only one urban plan in the nation each year.

The County created the Mosaic Community Development Authority (CDA), to facilitate the economic development of a thirty-one acre area in the Merrifield District. The facilities to be constructed by the CDA include public roads, parks, a parking facility and other infrastructure improvements. These improvements will facilitate the creation of an urban downtown area for the surrounding area. The plans include approximately 500,000 square feet of retail space, 114 townhomes, a theatre, and a 150 room hotel, as well as two acres of park and open space.

Transportation Improvements

The County recognizes the importance of transportation for residents who work in and around the County, especially given the trend of rapid population growth and urbanization of the County. The 2010 American Community Survey estimated the average travel time to work as 32.5 minutes for residents of the County. Approximately seventy-two percent of the County's household population drives alone to work, while ten percent use carpools, nearly nine percent use public transportation and nearly four percent walk, ride a bicycle, or use other means, while five percent work at home.

Several major state-supported initiatives have been advancing to improve transportation in the County. Collectively referred to as "Mega-Projects," they include:

The Dulles Rail Project is a 23-plus mile extension of the Metrorail system in the Dulles corridor, passing through the Tysons Corner area to Washington Dulles International Airport and beyond, to neighboring Loudoun County. A two-phase approach has been proposed due to federal funding constraints. The \$64 billion estimated cost of Phase 1, which consists of rail through Tysons Corner to Wiehle Avenue in Reston, is to be partially funded -by the federal government (34 percent), with the remainder financed with Dulles Toll Road revenues (50 percent) and Fairfax County funds (16 percent). In February 2004, in response to a petition from landowners representing a majority of the commercial and industrial property along the Phase 1 rail lines, the Board approved the creation of a special tax district for commercial and industrial properties which will fund up to \$400 million of the County's share of Phase 1 costs. Phase 1 construction began in 2009, the target date for completion of Phase 1 is December 2013, and the entire project is scheduled to be completed in the 2016 to 2017 timeframe.

The Woodrow Wilson Bridge (WWB) Project includes improvements to a 7.5-mile corridor beginning in Maryland and connecting to Virginia by a bridge over the Potomac River. This \$2.4 billion multi-jurisdictional project consists of the replacement of the existing WWB and the upgrading of four interchanges to ease traffic congestion within the project area. Construction of the new bridge and the Route 1 interchange is complete, construction continues on the Telegraph Road interchange. The entire project is scheduled for completion in 2013.

The Capital Beltway High-Occupancy Toll (HOT) Lanes Project provides four additional HOT lanes. HOT lanes are tolled lanes that operate alongside existing highway lanes to provide users with a faster and more

reliable travel option. Buses, carpools (HOV-3), motorcycles and emergency vehicles will have free access to HOT lanes. Drivers of vehicles with fewer than three occupants can choose to pay to access the lanes. This project adds lanes to I-495 from Springfield to just north of the Dulles Toll Road. Construction along this 14-mile corridor includes widening, noise walls, stormwater management, and reconstruction of more than 50 bridges. The \$1.65 billion project is approximately 70% complete. The project is on schedule for completion in December 2012.

The Fairfax County Parkway Extension Project is a two-mile roadway to meet projected increases in future traffic demands including over 19,000 new employees coming to Fort Belvoir by September 2011 as a result of the Base Realignment and Closure action. This fully funded project has been divided into four phases, two were completed in September 2010 and a third phase was completed during 2011. The parkway is scheduled for completion in July 2012, at which time the Fairfax County Parkway will extend from Leesburg Pike (Route 7) to Interstate I-95.

Technology Initiatives

The County's technology strategy is agile, enabling response to new challenges and economic conditions, continuing to build upon investments that provide government efficiencies and meeting growth and associated service demands. The strategy includes workforce mobility, which enhances productivity, system interoperability, business intelligence, and green computing. All these support the County's overall goals and vision elements of maintaining safe and caring communities, building livable spaces, connecting people and places, maintaining healthy economies, practicing environmental stewardship, creating a culture of engagement, and exercising corporate stewardship.

In fiscal year 2010, Fairfax County government and school system embarked on a multi-year joint initiative to modernize the portfolio of enterprise systems that support financial management, human resources, budget, procurement and related administrative applications under a single, integrated platform. A major investment, the project known as the Fairfax County Unified System Project, provides an opportunity to transform and streamline administrative functions and related technology operations. The first milestone was reached in November 2011, with the completion of Phase Ia, the implementation of SAP finance and logistics modules.

The County's e-Government program is the centerpiece of its nationally recognized technology services portfolio promoting round-the-clock online information and services for residents. The e-Government program is a multichannel solution that includes the County's award winning website, interactive voice response system, mobile access solutions, emergency alerts via text messaging, customer relationship management initiatives, and broadcast cable television. The County has also embraced social media in its e-Government program, utilizing podcasts, RSS newsfeeds, moderated discussion sessions, Newswire, YouTube, Facebook and MySpace as e-Government tools to reach extended audiences.

Fairfax County boasts a successful technology infrastructure, utilizing a centralized architecture and is a leader in innovative use of technology. In 2011, for the sixth year over the past ten years, the Center for Digital Government ranked the County's performance among the top five counties with populations over 500,000. The Center ranked the County's website number one, recognizing its advances in digital solutions; communication with residents, government communities and business; e-services; and incorporation of social media capabilities. More information about County IT initiatives can be found in the annual IT Plan, www.fairfaxcounty.gov/DIT/ITplan.

Environmental Stewardship

The County recognizes the importance of sound environmental stewardship. This commitment to the environment is evidenced by the awards the County has received and its initiatives. In June 2004, the County adopted a 20-year environmental vision plan as a blueprint for environmental protections. Specifically, the plan addresses six core areas for protecting and enhancing the environment, including growth and land use; air quality and transportation; water quality; solid waste; parks, trails, and open space; and environmental stewardship.

In October 2009, Fairfax County was awarded an Energy Efficiency and Conservation Block Grant (EECBG) of \$9.6 million. The goals of the EECBG program, funded by the American Recovery and Reinvestment Act, include improving building and transportation energy efficiency and reducing both total energy use and fossil fuel emissions. To achieve the EECBG program goals, the County allocated these funds to projects in areas including information technology, capital improvements, transportation, and education and outreach.

One of the County's largest EECBG projects, completed in 2011, involved the consolidation and virtualization of County computer server equipment. The rapid growth in highly data-intensive service by Fairfax County government has led to dramatically expanded computing facilities and demand for electricity to power them. By using enterprise server hardware, virtualization, and new data center infrastructure management technology, the project will deliver improved computing performance while significantly reducing both power consumption and greenhouse gas emissions. These benefits are supplemented by avoided hardware and software costs, which are expected to save the County millions of dollars.

Several EECBG projects involve the installation of control software to automatically or remotely control lighting when a building or facility is not in use. Electronic lighting controls markedly reduce energy consumption, thereby producing corresponding energy savings and reductions in greenhouse gas emissions. Lighting control systems have been installed at more than 20 athletic fields and will be installed in three large government buildings and at numerous parks.

Several other EECBG projects involve the retrofitting of heating, ventilating, and air conditioning (HVAC) systems and/or energy management control systems in County community centers and schools. These projects afford significant energy savings potential because a commercial building's HVAC system is responsible for up to 40 percent of the building's total energy consumption. Each project will reduce the building's energy consumption for the duration of the equipment life, while improving system reliability and enhancing occupant comfort.

The EECBG award also funded transportation-related projects, including the expansion of the County's telework program and the purchase of electric and hybrid vehicles, and will fund an energy education and outreach program to assist County residents in identifying and implementing energy-saving home improvements.

Affordable Housing

In 2010, the Board of Supervisors endorsed a new affordable housing policy, known as the Housing Blueprint. The Blueprint represents a shift in emphasis for the County's affordable housing policies in response to the ongoing recession. Per the Board's direction, the Blueprint focuses on providing housing for those with the greatest need, including homeless families and individuals, persons with disabilities, and people with extremely low incomes. The Blueprint also emphasizes partnering with the County's nonprofit community to provide creative affordable housing solutions, the refocusing of existing resources, and fostering the development of workforce housing through land use policies and public/private partnerships. The Blueprint has four goals: to end homelessness in ten years, to provide affordable housing options to those with special needs, to reduce the waiting lists for affordable housing by one half in ten years, and to produce workforce housing sufficient to accommodate projected job growth.

Among the current Fairfax County initiatives critical to the success of the Housing Blueprint are the following:

Bridging Affordability Program: As part of the County's fiscal year 2011 and fiscal year 2012 budgets, the Board of Supervisors included revenues to fund the Bridging Affordability program. The Bridging Affordability program is designed to address the Housing Blueprint's homelessness and waiting list goals by funding non-profits for short- and long-term rental subsidies and capital for affordable housing acquisition. The first round of funding was awarded June 2011, to a collaborative of nine local non-profits, led by Northern Virginia Family Service (NVFS). The Bridging Affordability program will provide rental subsidies

to 72 homeless individuals and families and 303 households on the County's affordable housing waiting lists over the three-year contract with NVFS.

Workforce Housing Policy: Created by the Board of Supervisors in 2007, Fairfax County's Workforce Housing Policy is a proffer-based incentive system designed to encourage the voluntary development of new housing, affordable to a range of moderate-income workers in Fairfax County's high-rise/high density areas. The Comprehensive Plan provides for a density bonus of up to one unit for every workforce unit provided by a developer, with the expectation that at least 12 percent of units in new developments be affordable or workforce housing. As of June 2011, a total of 1,180 Workforce Dwelling Units had been committed by private developers in rezoning actions approved by the Board of Supervisors.

Affordable Housing Preservation: Preservation of affordable rental housing has long been a concern of the Board of Supervisors and the Fairfax County Redevelopment and Housing Authority (FCRHA). The stock of privately-owned subsidized units and non-subsidized rental housing with modest rents in the County has been declining as owners reposition their properties in the market. The centerpiece of the Board's Preservation initiative was the creation of the Penny for Affordable Housing Fund, which is the dedication of one penny of the real estate tax rate for affordable housing initiatives. From 2006 through 2011, the fund has provided \$104.9 million for the preservation and production of affordable housing in Fairfax County and the preservation of 2,436 units of affordable housing as of June 2011.

Affordable Dwelling Unit Program: In 1990, the Board of Supervisors adopted an Affordable Dwelling Unit (ADU) Ordinance as part of the Zoning Ordinance, which requires developers of certain housing developments to set aside up to 12.5 percent of new units as affordable housing (6.25 percent for multifamily rentals) in return for the grant of additional density. The FCRHA has the right to acquire one-third of the ADUs for sale and to lease up to one-third of the rental units. The remaining units are sold or rented to moderate income households. As of June 2011, a total of 2,379 units (1,057 rentals and 1,322 for-sale units) have been produced under the ADU program; the FCRHA has acquired 147 of the for-sale units, which are maintained as permanent affordable rental housing.

Quality Communities

The County's offerings of cultural programs and attractions contribute greatly to the quality of the community. The Steven F. Udvar-Hazy Center, a component of the Smithsonian National Air and Space Museum boasts 270 rare and historic aircraft and spacecraft on display indoors, including the Space Shuttle Enterprise, an SR 71 Blackbird, the Enola Gay, and a Concorde. In addition to the aircraft, the museum has a 164-foot tall observation tower from which visitors can observe airplanes on their final approach to Washington Dulles International Airport, a 479-seat IMAX theater, discovery stations, and flight simulation rides. Other wings are devoted to the care and preservation of the Museum's unparalleled collection of historic aircraft, spacecraft, artifacts, and archival materials.

Wolf Trap Farm Park for the Performing Arts, a cultural facility internationally renowned for the number and quality of its ballet, symphony, concert, and opera offerings and the only national park for the performing arts in the U. S., is located in the northern part of Fairfax County. The County also assists in supporting the Fairfax Symphony, an internationally recognized 94-member orchestra that provides a variety of musical programs and outreach services to County residents. Other well-known attractions in the County include Mount Vernon, the home of George Washington; Woodlawn Plantation, George Washington's wedding gift to his nephew; and Gunston Hall, home of George Mason, author of the Bill of Rights and Virginia's first constitution.

The County also prides itself on its parks and recreation facilities. The Fairfax County Park Authority manages 22,894 acres of park land, including 273 athletic fields, 9 golf courses, several lakes and historic sites, thus offering diverse recreational options. The County operates 8 regional libraries, 14 community libraries, and an access services center that provides unique services for residents with visual and physical disabilities. In fiscal year 2011, almost 13 million items were borrowed from the library's collection of nearly 3 million books, CDs, DVDs, magazines, and other items. Also in fiscal year 2011, over 5.4 million

visits were made to the branches and 4.5 million visits were made to the Library's Web site. The Library has computers for access to the Internet, the catalog, e-books, downloadable audio books and databases. The Library sponsors various programs: national and local author readings and book signings, music concerts, and a wide variety of other events for the diverse population of the County.

Shopping opportunities abound and continue to grow throughout the County. With more than 200 shopping centers and thousands of restaurants offering a variety of world cuisine, Fairfax County offers one of the best shopping and dining experiences on the East Coast. Tysons Corner, the "downtown" of Fairfax County, is home to several malls that feature such retailers as Macy's, Neiman Marcus, Nordstrom, Saks Fifth Avenue, and Bloomingdale's. Reston, an internationally-known planned community - the first post-war planned community in America - sparked a revival of the planned community concept. The Reston Town Center, now celebrating its twentieth anniversary, offers more than fifty retail shops and thirty restaurants. The recently opened Fairfax Corner is a mixed-use development that offers main street style shopping at both national chains and local boutiques. It features a state of the art movie theater and one of the best mixes of restaurants in the area.

FINANCIAL INFORMATION

Ten Principles of Sound Financial Management

The keystone of the County's maintenance of fiscal integrity and sound financial management is the continuing commitment of the County's Board of Supervisors. This commitment is evidenced by the Board's rigorous adherence to County-developed policies, collectively known as the Ten Principles of Sound Financial Management. These principles, the policy context in which financial decisions are considered and taken, relate primarily to the integration of capital planning, debt planning, cash management, and productivity as a means of ensuring prudent and responsible allocation of the County's resources.

The County maintains a self-managed investment program under the direction and oversight of an Investment Committee. The committee is composed of the Chief Financial Officer, the Director of the Department of Finance, the Director of the Department of Tax Administration, and certain employees within the Department of Finance. Guided by a formal investment policy, the committee monitors daily investment activity and evaluates investment strategies biweekly. The County's investment policies are thoroughly reviewed on a quarterly basis and subjected to annual peer review by the Association of Public Treasurers of the United States and Canada.

BUDGETARY AND ACCOUNTING CONTROLS

The Code of Virginia requires that the County adopt a balanced budget. The County maintains extensive budgetary controls at certain legal, managerial and administrative levels. The adopted Fiscal Planning Resolution places legal restrictions on expenditures at the agency or fund level. Managerial budgetary control is maintained and controlled at the fund, department, and character or project level. Any revisions that alter the total expenditures of any agency or fund must be approved by the Board of Supervisors.

The County's budget is adopted by May 1 for the coming fiscal year, which commences on July 1. The two budget reviews, the Carryover Review and the Third Quarter Review, serve as the primary mechanisms for revising appropriations. State law requires that a public hearing be held prior to the adoption of amendments to the current year budget when adjustments exceed \$500,000. In addition, any amendment of \$500,000 or more requires that the Board advertise a synopsis of the proposed changes.

Since 1999, the County has maintained a Revenue Stabilization Fund, included in the General Fund for reporting purposes, to provide a mechanism for maintaining a balanced budget without resorting to tax increases and expenditure reductions that aggravate the stresses imposed by the cyclical nature of the economy. The Board established the fund with the condition that it will not be used as a method of addressing the demand for new or expanded services but will be used solely as a financial tool in the event of an

economic downturn, and then only under strict parameters. The Revenue Stabilization Fund has a targeted balance of 3.0 percent of General Fund disbursements and is separate and distinct from the County's 2.0 percent Managed Reserve, which was established initially in fiscal year 1983. The aggregate of both reserves will not exceed 5.0 percent. As of June 30, 2011, the Revenue Stabilization Fund and Managed Reserve balances were \$104,741,751 and \$68,041,222, respectively.

The County's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the U.S. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived. The evaluation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the County also is responsible for maintaining an adequate internal control structure to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management, the internal audit staff of the County, and independent auditors.

As part of the County's single audit, tests are made of the County's internal control structure and of its compliance with applicable laws and regulations, including those related to major federal award programs. The testing of major federal award programs for the year ended June 30, 2011, disclosed no material internal control weaknesses or material violations of laws and regulations. The Single Audit Report is published under separate cover.

Debt Administration

Fairfax County borrows money by issuing general obligation bonds to finance major capital projects. Bond financing spreads the cost of land acquisition and building construction over a period of many years, rather than charging the full cost to current taxpayers. By law, general obligation bonds must be approved in advance by County voters in a referendum. The County continues to maintain its status as a top rated issuer of tax-exempt securities. The County has the highest credit ratings possible for a local government for its general obligation bonds: Aaa from Moody's Investors Service, Inc., AAA from Standard and Poor's Corporation, and AAA from Fitch Investor Service. The County has had an Aaa rating since October 1975, when it first received a rating from Moody's. Standard and Poor's Corporation first gave Fairfax County an AAA rating in October 1978, and Fairfax County has maintained that rating. The Fitch Investor Service rating was first received in the spring of 1997 and has been maintained since then.

Factors contributing to Fairfax County's high credit rating include recognized excellence in financial management, superior tax collection rates, low debt ratios, and high income levels. As of April 2011, only 8 of 50 states, 36 of 3,143 counties, and 36 of 19,429 cities in the U.S. had such high bond ratings from all three rating agencies. These high credit ratings enable Fairfax County to sell bonds at interest rates significantly lower than those of most municipalities, resulting in substantial savings for County taxpayers throughout the life of the bonds.

The details of bonds outstanding and bonds authorized-but-not-issued are shown in Note K to the financial statements. Tables 3.1 through 3.5 of the Statistical Section provide detailed historical information regarding the debt position and debt service requirements of the County.

OTHER INFORMATION

Independent Audit

The County's financial statements have been audited as required by the *Code of Virginia* and received an unqualified opinion by the accounting firm of KPMG LLP. In addition to meeting the requirements of the state statutes, the audit was designed to meet the requirements of the Federal Single Audit Act of 1984; the Single Audit Act Amendments of 1996; the U.S. Office of Management and Budget Circular No. A-133, Audits of States, Local Governments, and Non-Profit Organizations; and the Uniform Financial Reporting requirements for Virginia counties and municipalities as established by the Auditor of Public Accounts of the Commonwealth of Virginia. The report of the independent auditors on the basic financial statements can be found in the financial section of this annual report. The Single Audit Report, issued separately, contains the independent auditors' reports related specifically to the single audit.

Awards

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its Comprehensive Annual Financial Report (CAFR) for fiscal year 2010. To be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. The County has received a Certificate of Achievement since 1977. We believe that the current CAFR meets the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Distinguished Budget Presentation Award

The GFOA has presented the Award for Distinguished Budget Presentation to Fairfax County for its annual budget for each year since fiscal year 1987. To receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, operations guide, financial plan, and communications device.

Investment Policy Award

The Association of Public Treasurers of the United States and Canada has awarded the County certification for its investment policy, confirming that the County meets the high public investment standards set forth by the Association. This award has been received since 1999.

National Association of Clean Water Agencies Award

In fiscal year 2011, the County's Norman M. Cole, Jr. Pollution Control Plant received the Platinum Peak Performance Award from the National Association of Clean Water Agencies. The award recognizes plants that met 100 percent of federal standards for preventing pollution. The Norman M. Cole Jr. Plant has met this standard for more than 13 consecutive years. The plant's achievement helps protect the water quality of the County's streams and watersheds, and the Chesapeake Bay.

Annual National Association of Counties (NACo) Awards

The NACo Achievement Awards are national recognition of significant innovative programs and activities that improve the organization, management, or service of county governments. NACo recognized seven County programs and projects with 2011 Achievement Awards.

Pathways to Preschool: This program was developed to offer introduction to a preschool routine for 2-year-old developmentally delayed children using small group sessions conducted by recreational therapists and early intervention experts.

An American Future: Service Opportunities for Immigrant Youth: The Library sought young immigrants as interns to introduce a possible career path and a resource in their ethnic community. After a pilot, the Library used a grant to provide stipends to immigrant interns chosen from the school's English as a Second Language classes.

Creative Corner: Creative Corner is a therapeutic outlet for court-involved juveniles wherein they share their belief structure and feelings in constructive, academic-grounded writing exercises. Stories, poems and essays are submitted by alternative school students and published in a booklet sponsored by the Juvenile and Domestic Relations District Court. An annual celebration brings the teens together to celebrate their writings.

AEDcheck: AEDcheck was developed to provide a cost-reduction online system to capture detailed data related to the Automated External Defibrillator program (AED), to stay in compliance with the Americans with Disabilities Act, including access to photographic records, as required by the United States Department of Justice. Previously the County paid a vendor an annual subscriber fee for a program that provided only partial recordkeeping services.

Deer Management Program: In 2010 the Deer Management Program was infused with new energy and resources to further mitigate the environmental, public safety and public health impact of an overabundant white-tailed deer population. The results were a 678 percent increase over 2009 in harvest yield in public parks with about one-third of the budget allocated in previous years.

Housing Blueprint: To ensure that limited resources were properly aligned with the wide continuum of housing needs, a blueprint was developed that set down goals (end homelessness in 10 years; provide affordable housing options to those with special needs; reduce waiting lists for affordable housing by half in 10 years; produce workforce housing sufficient for projected job growth) with specific methods and resources to implement planning towards their realization.

Burke-West Springfield Senior Center Without Walls: By using a structured approach that emphasizes community assets to support the promotion and provision of programming and resources for older adults in the West Springfield and Burke communities, the Center Without Walls program partners private facilities, worship centers, community centers already in place with Neighborhood and Community Services programs and classes without having to build and maintain a brick-and-mortar structure, providing older adult recreation and therapeutic services.

ACKNOWLEDGMENTS

We express our sincere appreciation to all staff who contributed to this report, especially the members of the CAFR Project Team in the Financial Reporting and Financial Operations Divisions of the Department of Finance, who prepared and compiled this report. We commend them for their professionalism, hard work, and continued efforts to improve this report. In addition, we acknowledge the cooperation and assistance of each County department throughout the year in the efficient administration of the County's financial operations.

This CAFR reflects our commitment to the residents and businesses of Fairfax County, the Board of Supervisors, and all interested readers of this report to provide information in conformance with the highest standards of financial reporting.

The Financial Section includes the independent auditors' report, management's discussion and analysis, basic financial statements, including the accompanying notes, required supplementary information, and other supplementary information.

KPMG LLP
2001 M Street, NW
Washington, DC 20036-3389

Independent Auditors' Report

The Board of Supervisors
County of Fairfax, Virginia:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Fairfax, Virginia (the County), as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Fairfax County Redevelopment and Housing Authority (FCRHA), a discretely presented component unit of the County, which represents 7.61%, 4.65%, and 15.60%, respectively, of total assets, net assets, and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion on the County's aggregate discretely presented component units financial statements, insofar as it relates to the amounts included for the FCRHA, is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia (Specifications). Those standards and Specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Fairfax, Virginia, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in Note O to the basic financial statements, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, effective July 1, 2010.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2011 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying management's discussion and analysis on pages 3 through 16 and the required supplementary information and the notes to the required supplemental information on pages 103 through 109 are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, other supplementary information, and the statistical section, as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

KPMG LLP

Management's Discussion and Analysis

The Management's Discussion and Analysis subsection provides a narrative introduction to and overview and analysis of the basic financial statements. It includes a description of the government-wide and fund financial statements, as well as an analysis of the County of Fairfax's overall financial position and results of operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the County of Fairfax, Virginia's (the County) Comprehensive Annual Financial Report (CAFR) presents our discussion and analysis of the County's financial performance during the fiscal year that ended on June 30, 2011. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which is also contained in this CAFR.

FINANCIAL HIGHLIGHTS

Highlights for Government-wide Financial Statements

The government-wide financial statements report information about the County as a whole using the economic resources measurement focus and accrual basis of accounting, net of special items.

- The County's assets exceeded liabilities by \$1,376.3 million on a government-wide basis at June 30, 2011.
- For the fiscal year, taxes and other revenues of the County's governmental activities amounted to \$3,790.7 million. Expenses amounted to \$3,875.8 million.
- For the fiscal year, revenues of the County's business-type activities were \$167.5 million, and expenses were \$157.1 million.

Highlights for Fund Financial Statements

The fund financial statements provide detailed information about the County's most significant funds using the current financial resources measurement focus and modified accrual basis of accounting.

- The County's governmental funds reported an increase in fund balance of \$148.1 million for fiscal year 2011, as compared to an increase of \$220.2 million for fiscal year 2010.
- The County's General Fund reported a fund balance of \$376.4 million, a decrease of \$10.3 million, or 2.7 percent, from June 30, 2010.

General Financial Highlights

- In February 2011, the County issued \$190.1 million of Series 2011A General Obligation Public Improvement and Refunding Bonds. Of this total, \$171.4 million are being used to finance school, park, road, and other general County improvements, and \$18.7 million were used to current refund certain outstanding Series 2002A refunding bonds in order to save \$1.4 million of future debt service payments.
- In May 2011, the Economic Development Authority issued \$205.7 million of transportation district improvement revenue bonds (Silver Line Phase 1 Project) Series 2011 to finance a portion of the costs of the construction of the first phase of an extension of the Washington Metropolitan Area Transit Authority's mass transit system in Fairfax County.
- In May 2011, the Fairfax County Redevelopment and Housing Authority issued \$28.9 million of bond anticipation notes to current refund \$30.2 million of outstanding Series 2008A bond anticipation notes in order to save \$1.6 million in future debt service payments. The original note was issued to partially finance the purchase of a multi-family rental housing complex as part of the County's affordable housing initiative. The County is responsible, under the related documents and subject to appropriation, to pay the principal and interest on the note at maturity.

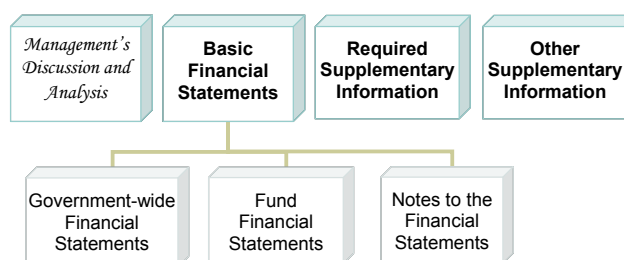

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of this annual report consists of four parts: (1) management's discussion and analysis (presented here), (2) basic financial statements, (3) required supplementary information, and (4) other supplementary information.

The County's basic financial statements consist of two kinds of statements, each with a different view of the County's finances. The government-wide financial statements provide both long- and short-term information about the County's overall financial status. The fund financial statements focus on major aspects of the County's operations, reporting those operations in more detail than the government-wide statements. The basic financial statements also include notes to explain information in the financial statements and provide more detailed data.

The statements and notes are followed by required supplementary information that contains the budgetary comparison schedule for the General Fund and trend data pertaining to the retirement systems. In addition to these required elements, the County includes other supplementary information with combining and individual fund statements to provide details about the governmental, internal service, and fiduciary funds; capital assets; and component units.

Components of the Financial Section

Government-wide Financial Statements

The government-wide financial statements report information about the County as a whole using accounting methods similar to those used by private-sector businesses. In addition, they report the County's net assets and how they have changed during the fiscal year.

The first government-wide statement—the statement of net assets—presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial health of the County is improving or deteriorating. Additionally, non-financial factors, such as a change in the County's property tax base or the condition of County facilities, should be considered to assess the overall health of the County.

The second statement—the statement of activities—presents information showing how the County's net assets changed during the fiscal year. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The government-wide financial statements are divided into three categories, as follows:

Governmental Activities – Most of the County's basic services are reported here, including public safety; public works; judicial administration; health and welfare services; community development; parks, recreation, and cultural programs; education; and general administration. These activities are financed primarily by property taxes, other local taxes, and federal and state grants. Included in the governmental activities are the governmental funds and internal service funds.

Business-type Activities – The County's only business-type activity, the Integrated Sewer System (Sewer System), is reported here.

Discretely Presented Component Units – The County includes four other entities in its annual financial report: Fairfax County Public Schools (Public Schools), Fairfax County Redevelopment and Housing Authority (FCRHA), Fairfax County Park Authority (Park Authority), and Fairfax County Economic Development Authority (EDA). Although legally separate, these component units are included because the County is financially accountable for them.

The County's governmental and business-type activities are collectively referred to as the primary government. Together, the primary government and its discretely presented component units are referred to as the reporting entity.

Fund Financial Statements

The fund financial statements provide detailed information about the County's most significant funds. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The County has the following three types of funds:

Governmental Funds – Most of the County's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances remaining at year-end that are available for spending. The governmental funds financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the governmental activities in the government-wide financial statements, additional information is provided to explain the relationship (or differences). The General Fund accounts for the main operating activities of the County and consequently, is the largest of the governmental funds. All other governmental funds, which include special revenue funds, debt service funds, and capital projects funds, are collectively referred to as nonmajor governmental funds.

Proprietary Funds – Proprietary funds, which consist of enterprise funds and internal service funds, are used to account for operations that are financed and operated in a manner similar to private business enterprises in which costs are recovered primarily through user charges. Proprietary fund financial statements, like the government-wide financial statements, provide both long- and short-term financial information. The County's only enterprise fund, the Sewer System, is reported as the County's business-type activity in the government-wide statements. The fund financial statements provide additional information, such as cash flows, for the Sewer System. The internal service funds are used to account for the provision of general liability, malpractice, and workers' compensation insurance, health benefits for employees and retirees, vehicle services, document services, and technology infrastructure support to County departments on a cost reimbursement basis.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's programs. The County's fiduciary funds consist of pension trust funds, an OPEB trust fund and agency funds. The pension trust funds are used to account for the assets held in trust by the County for the employees and beneficiaries of its defined benefit pension plans—the Employees' Retirement System, the Police Officers Retirement System, and the Uniformed Retirement System. The OPEB trust fund is used to account for the assets held in trust by the county for other post employment benefits. The agency funds are used to account for monies received, held, and disbursed on behalf of developers, welfare recipients, the Commonwealth of Virginia, the recipients of certain bond proceeds, and certain other local governments.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Statement of Net Assets

The following tables present a summary of the Statements of Net Assets for the reporting entity as of June 30, 2011 and 2010:

Summary of Net Assets As of June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010
Assets:						
Current and other assets	\$ 4,201.4	4,072.1	\$ 222.6	229.3	\$ 4,424.0	4,301.4

The Commonwealth of Virginia requires that counties, as well as their financially dependent component units, be financed under a single taxing structure. This results in counties issuing general obligation debt to finance capital assets, such as public schools, for their component units. The component units are then responsible to account for and maintain the assets purchased or constructed with the debt proceeds. While Governmental Accounting Standards Board (GASB) No. 14, *The Financial Reporting Entity*, requires that the primary government and its component units, which make up the total financial reporting entity, be accounted for separately on the face of the basic financial statements, the net assets of the total financial reporting entity best represent the entity's financial position. The reclassification column represents the matching of the primary government's outstanding debt to the component units' related capital assets from a financial reporting entity perspective.

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. For the reporting entity, assets exceeded liabilities by \$4,419.4 million at fiscal year end 2011, representing an increase of \$97.3 million from the net assets at June 30, 2010, as shown below.

As shown to the right, the largest portion of net assets is the investment in capital assets (e.g., land, buildings, infrastructure, and equipment, net of depreciation and amortization), less the outstanding debt that was used to acquire those assets. The restricted net assets portion represents resources that are subject to external restrictions on how they may be used. Net assets of the reporting entity are restricted for various uses, some of which include grant programs (\$51.8 million), community centers (\$19.9 million), sewer improvements (\$82.5 million), and housing (\$26.8 million). Unrestricted net assets represent the remaining amount of net assets that are neither related to capital assets nor restricted for specific uses.

**Composition of Net Assets
of the Reporting Entity**
As of June 30, 2011

Statement of Activities

The following table summarizes the changes in net assets for the primary government for the fiscal years ended June 30, 2011 and 2010:

Summary of Changes in Net Assets For the Fiscal Years Ended June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010

Ending net assets	\$ 479.0	556.8	\$ 897.3	870.1	\$ 1,376.3	1,426.9

* For business-type activities, interest on long-term debt is included in the functional expense category.

Governmental Activities

Revenues for the County's governmental activities were \$3,790.7 million for fiscal year 2011, representing an increase of \$2.7 million over fiscal year 2010. Sources of revenues for fiscal years 2011 and 2010 are comprised of the following items:

Governmental Activities - Revenues by Source

For the Fiscal Years Ended June 30, 2011 and 2010

Taxes constitute the largest source of County revenues, amounting to \$2,854.7 million for fiscal year 2011, an decrease of \$49.1 million over fiscal year 2010, primarily due to real property taxes. Real property taxes (\$2,028.4 million) represent 71.1 percent of total taxes and over half of all revenues combined. Unrestricted grants and contributions include \$211.3 million in revenues from the Commonwealth of Virginia to reimburse Fairfax County as part of the Personal Property Tax Relief Act (see Note C to the financial statements).

Governmental Activities - Expenses by Function

For the Fiscal Years Ended June 30, 2011 and 2010

Total cost of all of the County's governmental activities for fiscal year 2011 was \$3,875.8 million, representing an increase of \$149.7 million over fiscal year 2010. As the chart below indicates, education continues to be the County's largest program. Education expenses totaled about \$1.74 billion in fiscal year 2011, to support school operations and service debt for bond-funded projects to build new schools and renew older facilities. Public safety expenses represent the second largest expense, totaling \$618.8 million in fiscal year 2011. Public safety expenses increased \$14.6 million over fiscal year 2010 primarily due to personnel costs in the Police, Sheriff, Public Safety Communications, Circuit Court and Juvenile and Domestic Relations Court departments.

The table on the right depicts the total cost of each of the County's six largest programs—education, public safety, health and welfare, community development, public works, and general government administration—as well as the net cost of each program (total cost less fees generated by the programs and program-specific intergovernmental aid).

Net Cost of County's Governmental Activities For the Fiscal Years Ended June 30 (\$ in millions)				
Functions/Programs	Total Cost of Services		Net Cost of Services	
	2011	2010	2011	2010
Education	\$ 1,744.2	1,784.2	\$ 1,744.2	1,783.6
Public safety	618.8	604.2	493.8	493.0
Health and welfare	546.9	495.7	317.7	288.0
Community development	378.6	232.2	231.1	92.7
Public works	192.1	198.5	68.1	84.6
General government administration	139.0	148.8	107.9	(76.7)
Other	256.2	262.5	207.3	211.2
Total	\$ 3,875.8	3,726.1	\$ 3,170.1	2,876.4

Some of the cost of governmental activities was paid by those who directly benefited from the programs (\$395.7 million) and other governments and organizations that subsidized certain programs with grants and contributions (\$309.9 million). Of the \$3,170.1 million net cost of services, the amount that taxpayers paid for these programs through County taxes was \$2,854.7 million.

Business-type Activities

The Sewer System recovers its costs primarily through user service charges and availability fees. For fiscal year 2011, the Sewer System reported an increase in net assets of \$27.2 million. Total revenues of the Sewer System increased \$20.0 million over fiscal year 2010. This increase was primarily the result of increases in service charges, availability charges, and contributions from Developers.

Total expenses of the Sewer System for fiscal year 2011 were \$157.1 million, increasing by \$1.7 million over fiscal year 2010. This increase resulted primarily from increases in the cost for contractual services and personnel services.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. During 2011, the County implemented GASB Statement 54, which changed fund balance classifications. Previously classified as restricted and unrestricted, the fund balances are now reported by purpose within the classifications; nonspendable, restricted, committed, assigned, and unassigned.

As of June 30, 2011, the County's governmental funds had a combined fund balance of \$1,153.5 million, as compared to \$1,005.4 million at June 30, 2010. Of the fiscal year 2011 fund balance, \$34.4 million is assigned in the General Fund, indicating that it is not available for new spending because it has already been committed for items such as existing purchase orders, construction contracts and loan repayments. Approximately 35.9 percent (\$135.1million) of the total 2011 General fund balance is unassigned, representing resources not associated with a specified purpose. Of the total fund balance, by nature of the individual funds, 62.9 percent (\$725.4 million) has been restricted or committed to meet the program needs in

the special revenue, capital projects, and debt service funds. Nonspendable prepaid expenditures and long-term loans is comprised of 4.5 percent (\$52.0 million) of the total fund balance. The balance available in the managed reserve and revenue stabilization fund at June 30, 2011 is 172.6 million, \$172.3 million of the General Fund's committed fund balance of \$206.6 million is designated for these purposes based on Fiscal Year 2012 projections.

For the fiscal year ended June 30, 2011, fund balances for all governmental funds increased by \$148.1 million, compared to the \$218.7 million increase for fiscal year ended June 30, 2010. Total revenues and other financing sources were \$4,812.0 million, and total expenditures and other financing uses were \$4,671.2 million, resulting in the increase to the fund balances.

The General Fund is the main operating fund of the County. At the end of the current fiscal year, the unassigned fund balance was \$135.1 million, which represents approximately 4.7 percent of the General Fund's total expenditures. Revenues of \$3,324.8 million less expenditures of \$2,890.5 million and other financing uses (net) of \$444.6 million resulted in a net decrease in fund balance of \$10.3 million. Key factors for the decrease of the fund balance include the following:

- Personal Property and Business License tax revenues exceeded expectations as a result of improvement in the regional economy, reducing the amount of decrease projected by the budget.

The County's enterprise fund provides the same type of information found in the government-wide financial statements, as the basis of accounting is the same. Factors relating to the financial results of the Sewer System have been addressed in the discussion of the County's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The final amended budget appropriations, which include expenditures and transfers out, were more than the original budget amounts by \$93.9 million or 2.8 percent. This increase is due primarily to the carryover of prior year commitments. The final amended budget revenues and transfers exceeded the original budget by \$33.7 million or 1.0 percent, primarily due to concerns of a greater than anticipated decline in the over-all economy.

Actual revenues exceeded final budget amounts by \$51.9 million, while actual expenditures were \$69.0 million less than final budget amounts. Highlights of the comparison of final budget to actual figures for the fiscal year ended June 30, 2011, include the following:

- Actual tax revenues exceeded budgeted amounts by \$38.9 million primarily impacted by Personal Property and Bank Franchise taxes. The increase is primarily due to fewer exonerations and higher omitted assessments for personal property and bank mergers at a high level of bank reserves for the Bank Franchise tax.
- Intergovernmental revenues were \$5.6 million more than budgeted amounts primarily due to revenue associated with additional funding provided by the Commonwealth of Virginia for certain public assistance programs, predominantly the Child Care Assistance and Referral program, administrative funding for social services positions and a Federal funding for holding illegal immigrants in County jails.
- Revenues from the use of money and property were \$1.9 million less than budgeted amounts due to a decrease in Interest on Investments.
- Actual general government administration expenditures were \$6.6 million, or 6.6 percent, less than budgeted amounts as a result of managing position vacancies.
- Actual public safety expenditures were \$10.6 million, or 2.6 percent, less than budgeted amounts mainly due to savings associated with managing position vacancies, matching staffing levels to

workload requirements in a downturned economy, efforts to achieve savings in supplies, apparel, repairs and maintenance, telecommunications, and DVS charges.

- Actual health and welfare expenditures were \$12.6 million, or 4.3 percent, less than budgeted amounts due to the management of position vacancies, continued cost savings in Comprehensive Service Act (CSA) spending, and the maximization of Medicaid reimbursement.
- Nondepartmental expenditures were \$26.5 million, or 10.1 percent, less than budgeted amounts primarily due to an amount of funding set aside by the Board of Supervisors as part of the FY 2010 Carryover Review for anticipated fiscal year 2012 retirement cost increases and savings in group health insurance, Social Security (FICA), contributions to the Virginia Retirement System, and increased reimbursements from capital projects.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The County's investment in capital assets as of June 30, 2011, amounted to \$3.4 billion (net of accumulated depreciation and amortization), which represents an increase of \$129.1 million, or 3.9 percent, over last year. Capital assets as of June 30, 2011 and 2010, are summarized below:

Capital Assets As of June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010
Land	\$ 415.6	414.9	\$ 17.4	17.4	\$ 433.0	432.3
Easements	8.3	7.0	0.4	0.3	8.7	7.3
Buildings, improvements, and infrastructure	1,958.8	1,913.8	1,073.7	1,003.5	3,032.5	2,917.3
Software	0.4	-	-	-	0.4	-
Equipment and library collections	453.5	443.1	11.3	11.3	464.8	454.4
Construction in progress	87.3	65.5	68.2	83.0	155.5	148.5
Equipment under construction	30.6	14.0	-	-	30.6	14.0
Software in development	43.6	20.3	-	-	43.6	20.3
Purchased capacity	-	-	785.0	750.5	785.0	750.5
Total capital assets	2,998.1	2,878.6	1,956.0	1,866.0	4,954.1	4,744.6
Less: Accumulated depreciation and amortization	(858.8)	(814.5)	(692.7)	(656.5)	(1,551.5)	(1,471.0)
Total capital assets, net	\$ 2,139.3	2,064.1	\$ 1,263.3	1,209.5	\$ 3,402.6	3,273.6

The major capital asset events for fiscal year 2011 included the following:

- The ongoing costs associated with the replacement of County and Schools legacy mainframe systems, also known as the FOCUS project. This project will replace core operating systems in support of the human resources, budgeting, purchasing, and accounting functions. This is a multi-year project with phased implementations, with the first phase scheduled for the financial and some of the logistical functions to go live in November 2011. Additional phases will continue to be deployed over the next several fiscal years. Project expenditures capitalized to date through the end of fiscal year 2011 were \$43.6 million including software and infrastructure purchases, county and schools staff time, and consultant implementation costs.

- The Fairfax County Board of Supervisors in 2007 authorized a local funding agreement with the Metropolitan Washington Airports Authority (MWAA) and Loudoun County and also authorized expenditure of funds from the Dulles Corridor Phase I Special Improvement Tax District for the construction of the Dulles Corridor Metrorail Project. This agreement committed Fairfax County to funding a percentage of the total cost of construction. MWAA, Loudoun and Fairfax Counties will pay 4.1, 4.8, and 16.1 percent respectively of the total project cost; the remaining 75 percent comes from the Dulles Toll Road and state and federal funding. Fairfax County expended \$13 million in fiscal year 2011, bringing the project to date total to \$16.2 million. The current fiscal year County costs were toward the construction of the Wiehle Avenue Metrorail Facility.
- Ongoing dam safety and stormwater projects totaled \$7.4 million including the Lake Barton and Woodglen Lake Federal Stimulus funded projects as well as inspection and monitoring at various other county sites funded through county capital improvement allocations from the general fund and stormwater tax district special revenues.
- Developers' contributions of sewer lines and manholes totaled \$4.4 million.
- The ongoing expansion and renovation costs for the Dolley Madison Community Library totaled \$4.2 million, funded with a public library bond referendum and general revenues, bringing the total project to date costs to \$6 million.
- The purchase of library books and audio/video materials totaled \$3.5 million, funded through general operating revenues.
- The ongoing construction costs associated with various sidewalks, trails, walkways, and other pedestrian improvements, totaled \$3.4 million, funded through general and special revenue funds as well as transportation construction bonds.
- The Sewer System's share of the ongoing expansion costs of the Arlington County's, City of Alexandria's, and the District of Columbia's wastewater treatment facilities, which provide services to certain County residents, was \$3.5 million, \$0.5 million, and \$9.4 million, respectively, funded through Sewer Revenue bonds.

Additional information pertaining to the County's capital assets can be found in Note F to the financial statements on page 68.

Long-term Debt

There is no legal limit on the amount of long-term indebtedness that the County can at any time incur or have outstanding. However, all general obligation bonded indebtedness must be approved by voter referendum prior to issuance. The Board of Supervisors has established the following self-imposed limits with respect to long-term debt:

- A limit of \$1.375 billion of general obligation bond sales over a five-year period, for an average of \$275 million annually, with a maximum of \$300 million in any given year, excluding refunding bonds
- A limitation that total long-term debt (excluding capital leases for equipment and sewer revenue bonds) not exceed 3 percent of the total market value of taxable real and personal property in the County and that annual debt service payments not exceed 10 percent of annual General Fund expenditures and transfers out. For fiscal year 2011, these percentages were 1.23 percent and 8.54 percent, respectively.

In February 2011, the County issued \$190.1 million of Series 2011A General Obligation Public Improvement and Refunding Bonds with a true interest cost of 3.709 percent and a premium of \$13.3 million. Proceeds of \$171.4 million are being used to fund new facilities and improvements, as follows (in millions):

County facilities:

Transportation facilities	\$ 34.7
Park facilities	13.2
Public Schools facilities.....	<u>123.5</u>
Total bonds issued for new projects.....	<u>\$171.4</u>

The remaining Series 2011A Bonds were issued to current refund certain outstanding Series 2002A General Obligations Bonds, thereby taking advantage of lower interest rates to reduce the County's debt service payments by \$1.4 million over the next four years and obtaining an economic gain of \$1.2 million.

The following is a summary of the County's gross outstanding long-term debt as of June 30, 2011 and 2010:

Outstanding Long-term Debt As of June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010
General obligation bonds issued for:

Capital leases and other	48.4	36.0	-	-	48.4	36.0
Total County outstanding debt	\$ 2,602.4	2,354.7	\$ 565.1	546.8	\$ 3,167.5	2,901.5

Additional information related to the County's long-term debt can be found in Note J to the financial statements on page 86.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The following economic factors are reflected in the General Fund budget for fiscal year 2012

- The assessed value of all real property increased by \$6.1 billion, or 3.27 percent, over the fiscal year 2011 value. This is a result from new construction and rising occupancy rates for nonresidential real estate.
- Equalized residential property assessments rose up to 2.34 percent in fiscal year 2012. After falling four consecutive years, existing residential properties increased in fiscal year 2012, reflecting a stabilization of the residential housing market that began in calendar year 2010.

- Non-residential equalization increased 3.73 percent in fiscal year 2012. Much of this increase was the result of multi-family apartment properties, which make up nearly 20 percent of the nonresidential base. Apartment values rose 14.54 percent, reflecting strong rental income and high occupancy rates.
- Personal property tax revenue is anticipated to experience a moderate rise of 4.1 percent in fiscal year 2012. The total vehicle volume is forecast to increase .3 percent in fiscal year 2012. The slight increase is due to an increase in new vehicle purchases.
- Revenue from investments is expected to decrease due to a decline in the anticipated yield earned on the County's investment portfolio.

The Fiscal Year 2012 Adopted Budget includes revenues of \$3.31 billion, or a 1.13 percent increase over the fiscal year 2011 Revised Budget Plan. Real and personal property taxes represent the majority of budgeted revenues, comprising approximately 77.3 percent of the fiscal year 2012 General Fund revenues. Revenue from real property taxes alone makes up 61.6 percent of total revenues, as compared to approximately 62.1 percent in the Fiscal Year 2011 Adopted Budget.

Budgeted disbursements, which include expenditures and transfers out, are \$3.38 billion, a .72 percent decrease from the fiscal year 2011 level. County funding for Public Schools is \$1.77 billion – which approximates 52.5 percent of the County's total General Fund budget. This funding supports operating costs, school construction, and debt service. Total direct expenditures funding decreased by \$20.9 million, or 1.66 percent, from fiscal year 2011. These reductions are being accomplished through various innovative approaches such as service cuts, program reorganizations, and staff reductions to reduce cost while maintaining core County services.

In fiscal year 2012, the following tax rate and fee adjustments were approved:

- Real estate tax rate was decreased from \$1.09 to \$1.07 per \$100 of assessed value
- Commercial real estate tax rate for County transportation remains at \$0.11 per \$100 of assessed value on commercial and industrial properties.
- Special real estate tax rate collected on all properties within Small District 1, Dranesville for the McLean Community Center decreased to \$0.023 per \$100 of assessed value. The rate collected on all properties within Small District 5, Hunter Mill for the Reston Community Center remains to \$0.047 per \$100 of assessed value.
- The sewer availability charge for new single-family homes remains at \$7,750 per unit.
- Sewer service rate increases from \$5.27 to \$6.01 per 1,000 gallons of water consumption.
- Refuse collection rate for County collection sanitation districts remains at \$345 per household, and the refuse disposal rate remains at \$60 per ton.
- The Stormwater Management rate remains at \$0.015 per \$100 of assessed value.

The County has added no new major initiatives for fiscal year 2011. The Board has maintained the dedication of one-half penny of the real estate tax rate for the preservation of Affordable Housing. Funding adjustments and strategies have been incorporated in the Fiscal Year 2012 Adopted Budget Plan to continue to address the County's commitment to achieving the strategic priorities of a strong investment in education; public safety and gang prevention; affordable housing; environmental protection; transportation improvements; and revenue diversification to reduce the burden on the homeowner.

Other potentially significant matters

During fiscal year 2010, the Commonwealth of Virginia initiated certain responsive actions to the economic downturn that will continue to affect Fairfax County Public Schools (FCPS), a discretely presented component unit of Fairfax County. Through changes in certain actuarial assumptions for VRS sponsored retirement plans, which were affected by legislation passed by the General Assembly, the Commonwealth was able to defer rate increases requested by the VRS Trustees, and an increase in the local employer share of these pension contributions was similarly deferred. The impact of these deferrals reduced costs pension related costs of FCPS in fiscal year 2011. The legislation requires that this deferral of costs begin to be replenished starting in fiscal year 2012 and will continue until fully replenished in fiscal year 2021. Ultimately, it is likely that there will be significant increases in the local employer costs to be funded in order to meet the VRS's ability to meet its future payment obligations. Additional information regarding this or other matters that may impact FCPS may be found in the FCPS Comprehensive Annual Financial Report. Information regarding the relationship of FCPS to the County and how to request component unit reports may be found on page 42. Information regarding participation in VRS may be found beginning on page 78.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the County of Fairfax, Virginia, Department of Finance, 12000 Government Center Parkway, Fairfax, Virginia, 22035. This report can also be found on the County's web site at www.fairfaxcounty.gov.

Basic Financial Statements

The Basic Financial Statements subsection includes the government-wide statements, which incorporate governmental and business-type activities of the County of Fairfax and activities of component units in order to provide an overview of the financial position and results of operations for the reporting entity. This subsection also includes the fund financial statements of the County and the accompanying notes to the financial statements.

COUNTY OF FAIRFAX, VIRGINIA
Reconciliation of the Balance Sheet to the Statement of Net Assets
Governmental Funds
June 30, 2011

EXHIBIT A-2
concluded

Fund balances - Total governmental funds \$ 1,153,463,477

Amounts reported for governmental activities in the statement of net assets (Exhibit A) are different because:

Capital assets used in governmental fund activities are not financial resources and, therefore, are not reported in the funds:

Non-depreciable/non-amortizable assets:		
Land	\$ 413,696,754	
Easements	8,293,364	
Construction in progress	87,319,500	
Equipment under construction	30,343,403	
Software in development	42,825,942	
Depreciable/amortizable assets:		
Equipment	251,170,236	
Software	356,043	
Library collections	80,977,972	
Buildings and improvements	1,351,916,218	
Infrastructure	<u>586,676,841</u>	
Total capital assets	2,853,576,273	
Less accumulated depreciation/amortization	<u>(774,721,748)</u>	2,078,854,525

Some of the County's receivables will not be collected soon enough to pay for the current period's expenditures and, therefore, are reported as deferred revenue in the funds:

Delinquent taxes (net of allowances):		
Property	\$ 16,641,806	
Business license	3,684,596	
Sales and use and other taxes	17,569,840	
EMS transport and other charges for services	2,321,441	
Lease to component unit	<u>54,145,000</u>	94,362,683

Certain other receivables are accrued only in the government-wide statements 795,573

Costs incurred from the issuance of long-term debt are recognized as expenditures in the fund statements, but are deferred in the government-wide statements. 16,379,391

OPEB costs are recognized as expenditures in the fund statements, but are deferred in the government-wide statements. (4,679,390)

Internal service funds are used by management to provide certain goods and services to governmental funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.

Assets:		
Current assets	\$ 142,544,853	
Capital assets	144,546,534	
Less accumulated depreciation/amortization	(84,078,523)	
Liabilities	<u>(65,581,767)</u>	137,431,097

Long-term liabilities related to governmental fund activities are not due and payable in the current period and, therefore, are not reported in the funds:

General obligation bonds payable, net	\$ (2,061,093,537)	
Revenue bonds payable, net	(571,210,476)	
Notes payable	(39,937,197)	
Compensated absences payable	(99,245,762)	
Landfill closure and postclosure obligation	(63,800,734)	
Obligations under capital leases and installment purchases	(11,683,563)	
Net pension obligation	(89,006,963)	
Other long-term liabilities	(34,152,516)	
Accrued interest on long-term debt	<u>(27,404,493)</u>	(2,997,535,241)

Net assets of governmental activities \$ 479,072,115

EXHIBIT A-3

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities

concluded

Governmental Funds

For the fiscal year ended June 30, 2011

Net change in fund balances - Total governmental funds \$ 148,054,127

Amounts reported for governmental activities in the statement of activities (Exhibit A-1) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives and reported as depreciation/amortization expense.

Capital outlays	\$ 126,573,819	
Less depreciation/amortization expense	<u>(71,188,651)</u>	55,385,168

In the statement of activities, the gain or loss on the disposition of capital assets is reported. However, in the governmental funds, only the proceeds from sales are reported, which increase fund balance. Thus, the difference is the net book value (i.e., depreciated cost) of the capital asset dispositions. (6,365,702)

Donations of capital assets increase net assets in the statement of activities, but do not appear in the governmental funds because they are not financial resources. 12,523,150

Some revenues will not be collected for several months after the fiscal year ends, hence, they are not considered "available" revenues and are deferred in the governmental funds. Deferred revenues increased (decreased) by this amount this year:

Delinquent property taxes	\$ (1,441,474)	
Delinquent business license taxes	132,661	
Sales and use and other taxes	(1,886,012)	
EMS transport and other charges for services	<u>(215,998)</u>	(3,410,823)

The receipt of principal payments for the lease to the component unit does not result in a revenue in the statement of activities. (1,255,000)

The issuance of long-term debt, including premiums, is reported as other financing sources in the governmental funds and thus, increases fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities in the statement of net assets and does not affect the statement of activities. The following were issued:

Series 2011A General Obligation Public Improvement and Refund	\$ (203,347,504)	
EDA Series 2011 Revenue Bonds	(266,704,702)	
FCRHA Series 2011A Bond Anticipation Notes	(30,584,697)	
HUD Section 108 Loans Payable	<u>(6,535,000)</u>	(507,171,903)

The costs incurred from the issuance of long-term debt are recognized as expenditures in the fund statements, but are deferred and amortized in the government-wide statements, resulting in a net difference. 3,792,929

OPEB costs are recognized as expenditures in the fund statements, but are deferred and amortized in the government-wide statements, resulting in a net difference. (14,185,000)

Certain other long-term liabilities are recognized only in the government-wide statements, resulting in a net difference. 828,814

The repayment of the principal amounts of long-term debt is reported as an expenditure or as an other financing use when debt is refunded in governmental funds and thus, reduces fund balance. However, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities.

Principal repayments of matured bonds, notes, and loans	\$ 191,092,652	
Payment to escrow agent to refund bonds	50,785,617	
Principal payments of capital leases and installment purchases	<u>1,460,712</u>	243,338,981

Interest on long-term debt is reported as an expenditure in the governmental funds when it is due.

In the statement of activities, however, interest expense is affected as this interest accrues and as bond-related items are amortized. This difference in interest reporting is as follows:

Accrued interest on bonds, loans, and capital leases	\$ (3,094,597)	
Amortization of bond premiums and discounts	19,256,189	
Amortization of deferred losses on bond refundings	<u>(6,540,638)</u>	9,620,954

Under the modified accrual basis of accounting used in the governmental funds, expenditures for the following are not recognized until they mature. In the statement of activities, however, they are reported as expenses and liabilities as they accrue. The timing differences are as follows:

Landfill closure and postclosure costs	\$ (3,156,137)	
Compensated absences	2,247,563	
Net pension obligation	(14,383,213)	
Other	<u>(286,616)</u>	(15,578,403)

Internal service funds are used by management to provide certain goods and services to governmental funds. The change in net assets is reported with governmental activities. (3,274,313)

Change in net assets of governmental activities \$ (77,697,021)

COUNTY OF FAIRFAX, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Fairfax, Virginia, (the County) is organized under the Urban County Executive form of government (as defined under Virginia law). The governing body of the County is the Board of Supervisors (the Board), which makes policies for the administration of the County. The Board is comprised of ten members: the Chairman, elected at large for a four-year term, and one member from each of nine supervisor districts, elected for a four-year term by the voters of the district in which the member resides. The Board appoints a County Executive to act as the administrative head of the County. The County Executive serves at the pleasure of the Board, carries out the policies established by the Board, directs business and administrative procedures, and recommends officers and personnel to be appointed by the Board.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted primary standard-setting body for establishing governmental accounting and financial reporting principles. The County's significant accounting policies are described below.

1. Reporting Entity

As required by GAAP, the accompanying financial statements present the financial data of the County (the primary government) and its component units. The financial data of the component units are included in the County's basic financial statements because of the significance of their operational or financial relationships with the County. The County and its component units are together referred to herein as the reporting entity.

Blended Component Units

Blended component units are entities that are legally separate from the County but that are so closely related to the County that they are, in essence, extensions of the County. The blended component units that are reported as part of the primary government are:

Solid Waste Authority of Fairfax County (SWA) - The SWA is considered a blended component unit because the Board of Supervisors comprises the Board of Directors of the SWA and has the ability to impose its will on the SWA. The SWA is authorized under the Virginia Water and Waste Authorities Act and was created by the Board on June 29, 1987. The SWA has financed the construction of a solid waste to energy facility, which is contractually owned and operated by a commercial entity in accordance with agreements between the County, the SWA, and the commercial entity. Certain assets of the commercial entity are reported by the SWA in an agency fund, the Resource Recovery Fund.

The County has assumed the responsibility for the management oversight of the arrangement between the SWA and the commercial entity and for providing sufficient solid waste to result in a financially viable operation; this activity is reported in a special revenue fund of the County, the Energy Resource Recovery Facility Fund. Separate financial statements are not prepared for the SWA.

Small District One - The Board of Supervisors created Small District One, which is located within the Dranesville Magisterial District, in 1970 to provide for the construction of a

community center and the operation of its social, cultural, educational, and recreational facilities. This small district is reported as a separate special revenue fund of the County, the McLean Community Center Fund, because it is governed by the Board, which has the ability to impose its will on the small district. Separate financial statements are not prepared for Small District One.

Small District Five - The Board of Supervisors created Small District Five, which is located within the Dranesville and Hunter Mill Magisterial Districts, in 1975 to provide for the construction of a community center and the operation of its social, cultural, educational, and recreational facilities. This small district is reported as a separate special revenue fund of the County, the Reston Community Center Fund, because it is governed by the Board, which has the ability to impose its will on the small district. Separate financial statements are not prepared for Small District Five.

Dulles Rail Phase I Transportation Improvement District - The Board of Supervisors created the Dulles Rail Phase I Transportation Improvement District in 2004 to provide funds for the construction of certain transportation improvements in the district. This district is reported as a separate special revenue fund of the County because it is governed by certain members of the Board, which has the ability to impose its will on the district. Separate financial statements are not prepared for the Dulles Rail Phase I Transportation Improvement District.

Dulles Rail Phase II Transportation Improvement District - The Board of Supervisors created the Dulles Rail Phase II Transportation Improvement District in 2009 to provide funds for the construction of certain transportation improvements in the district. This district is reported as a separate special revenue fund of the County because it is governed by certain members of the Board, which has the ability to impose its will on the district. Separate financial statements are not prepared for the Dulles Rail Phase II Transportation Improvement District.

Mosaic District Community Development Authority (CDA) - The CDA is an independent authority legally authorized by an act of the Virginia General Assembly and was formally created by the Board of Supervisors in April 2009. The CDA's purpose is to assist in the development of infrastructure improvements within the district. Separate financial statements are not prepared for the CDA.

Discretely Presented Component Units

The columns for the component units in the financial statements include the financial data of the County's other component units. They are presented in separate columns to emphasize that they are legally separate from the County. Separate financial statements of the component units can be obtained by writing to the Financial Reporting Division, Department of Finance, 12000 Government Center Parkway, Suite 214, Fairfax, Virginia 22035. All of the component units have a fiscal year end of June 30. The discretely presented component units are:

Fairfax County Public Schools (Public Schools) - Public Schools is responsible for elementary and secondary education within the County. The School Board is elected by County voters. Public School systems do not have taxing authority under Virginia Code; Public Schools is fiscally dependent on the County. Public Schools operations are funded primarily by the County's General Fund, and the County issues general obligation debt for Public Schools' capital projects.

Fairfax County Redevelopment and Housing Authority (FCRHA) - FCRHA plans, coordinates, and directs the low income housing programs within the County under the Virginia Housing Authorities Law. FCRHA was approved by a voter referendum in November 1965 and was activated by the Board of Supervisors in February 1966. FCRHA is

a political subdivision of and reports to the Commonwealth of Virginia. The Board appoints FCRHA's Board of Commissioners, and the County provides certain managerial and related financial assistance to FCRHA.

Fairfax County Park Authority (Park Authority) - The Park Authority was created by the Board of Supervisors of the County on December 6, 1950, to maintain and operate the public parks and recreational facilities located in the County. The Board appoints the Park Authority's governing board, and the County provides funding for the Park Authority's General Fund and one of its capital projects funds. A memorandum of understanding currently in effect between the County and the Park Authority defines the roles of the County and the Park Authority.

Fairfax County Economic Development Authority (EDA) - The EDA is an independent authority legally authorized by an act of the Virginia General Assembly and was formally created by resolutions of the Board of Supervisors. The EDA's mission is to attract businesses to Fairfax County and to work with the existing businesses to retain them as they expand and create new jobs. The Board appoints the seven members of the EDA's commission which appoints the EDA's executive director. The Board appropriates funds annually to the EDA for operating expenditures incurred in carrying out its mission.

Related Organizations

The Board of Supervisors is also responsible for appointing the members of the boards of Fairfax Water, and the Industrial Development Authority of Fairfax County (IDAFIC). The IDAFIC does not have a significant operational or financial relationship with the County. Fairfax Water bills and collects for the sales of sewer services on behalf of the County's sewer system. During fiscal year 2011, Fairfax Water collected approximately \$113.3 million on behalf of the County, and as of June 30, 2011, the County has receivables of approximately \$27.0 million due from Fairfax Water.

Joint Ventures

The County is a participant in the Upper Occoquan Sewage Authority (UOSA). UOSA is a joint venture created under the provisions of the Virginia Water and Waste Authorities Act to construct, finance, and operate the regional sewage treatment facility in the upper portion of the Occoquan Watershed. UOSA was formed on March 3, 1971, by a concurrent resolution of the governing bodies of Fairfax and Prince William Counties and the Cities of Manassas and Manassas Park. The governing body of UOSA is an eight-member board of directors consisting of two members from each participating jurisdiction appointed to four-year terms. The UOSA Board of Directors adopts an annual operating budget based on projected sewage flows. The County has no explicit and measurable financial interest in UOSA but does have an ongoing financial responsibility for its share of UOSA's operating costs, construction costs and annual debt service. Complete financial statements of UOSA can be obtained by writing to UOSA, 14631 Compton Road, Centreville, Virginia 20121.

The County is a participant in the Northern Virginia Regional Park Authority (NVRPA). NVRPA is a joint venture created under the Virginia Park Authorities Act of 1959 to protect and preserve Northern Virginia's rich heritage of woods, meadows, lakes, and streams. The governing body of NVRPA is comprised of two members from each of the 6 member jurisdictions: Fairfax, Arlington, and Loudoun Counties, and the Cities of Alexandria, Falls Church, and Fairfax. Each member jurisdiction provides contributions in direct proportion to its share of the region's population. The County's contributions are accounted for in the County Construction capital projects fund. The County has no explicit and measurable financial interest in NVRPA. Complete financial statements of NVRPA can be obtained by writing to NVRPA, 5400 Ox Road, Fairfax Station, Virginia 22039.

Jointly Governed Organization

The State Route 28 Highway Transportation Improvement District (District) was created in 1987 under the provisions of the Transportation Improvements District Act by the County and Loudoun County, Virginia, in conjunction with the Commonwealth of Virginia Transportation Board (CVTB), for the purpose of undertaking various improvements to State Route 28. The District is governed by a nine-member Commission comprised of four members from each of the Boards of Supervisors of the County and Loudoun County and the Chairman of the CVTB or his designee. The County has no financial interest in the District. See Note J-8 for additional information related to the District.

2. Basis of Presentation

Government-wide Statements

The statement of net assets and the statement of activities display information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to avoid the double-counting of interfund activities. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed primarily by fees charged to external parties. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each activity of the County. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular activity. Program revenues include: (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and, (b) grants and contributions that are restricted to meet the operations or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The accounts of the reporting entity are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for in a separate set of self-balancing accounts comprised of assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The County reports the following major fund types:

General Fund - The General Fund is the County's primary operating fund, and it is used to account for all revenue sources and expenditures which are not accounted for in other funds.

Enterprise Fund - The Fairfax County Integrated Sewer System (Sewer System) is the only enterprise fund of the County. This fund is used to account for the financing, construction, and operations of the countywide sewer system.

The County reports the following nonmajor governmental fund types:

Special Revenue Funds - The special revenue funds are used to account for the proceeds of specific revenue sources (other than debt service and major capital projects) that are legally restricted or committed to expenditure for specified purposes.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, the general obligation debt service of the County and for the debt service of the lease revenue bonds and special assessment debt. This includes the general obligation debt the County has issued to fund Public Schools capital projects.

Capital Projects Funds - The capital projects funds are used to account for financial resources used for all general construction projects other than enterprise fund construction.

The County reports the following additional fund types:

Internal Service Funds - These funds are proprietary funds used to account for the provision of general liability, malpractice, and workers' compensation insurance, health benefits for employees and retirees, vehicle services, document services, and technology infrastructure support that are provided to County departments on a cost reimbursement basis.

Pension and Other Post-Employment Benefits (OPEB) Trust funds - These are fiduciary funds used to account for the assets held in trust by the County for the employees and beneficiaries of its defined benefit pension and OPEB plans - the Employees' Retirement System, the Police Officers Retirement System, the Uniformed Retirement System, and the Other Post-Employment Benefits (OPEB) Trust Fund.

Agency Funds - These are fiduciary funds used to account for monies received, held, and disbursed on behalf of developers, welfare recipients, the Commonwealth of Virginia, the recipients of certain bond proceeds, and certain other local governments.

3. Measurement Focus and Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Statements

The government-wide, proprietary, and trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds also use the accrual basis of accounting to recognize assets and liabilities. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and entitlements. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. For the trust funds, member and employer contributions as applicable are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. For the Sewer System, principal operating revenues include sales to existing customers for continuing sewer service. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues

and expenses. Also, unbilled Sewer System receivables, net of an allowance for uncollectable accounts, are recorded at year end to the extent they can be estimated.

In preparing the financial statements of the enterprise fund, the County has not elected to apply the option provided in Paragraph 7 of GASB Statement No. 20 titled "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting." Therefore, the reporting entity has applied only those Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, except for those that conflict with or contradict GASB pronouncements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's Sewer System and various other functions of the government; elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenue from the use of money and property and from intergovernmental reimbursement grants is recorded as earned. Other revenues are considered available to be used to pay liabilities of the current period if they are collectible within the current period or within 45 days thereafter. The primary revenues susceptible to accrual include property, business license, and other local taxes and intergovernmental revenues. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the individual programs are used as guidance. Expenditures are recorded when the related fund liability is incurred, except that principal and interest on general long-term debt and certain other general long-term obligations, such as compensated absences and landfill closure and postclosure care costs, are recognized only to the extent they have matured. General capital asset acquisitions are reported as capital outlays in governmental funds. The issuance of general long-term debt and acquisitions under capital leases are reported as other financing sources. The effect of interfund activity has not been eliminated from the governmental fund financial statements.

4. Pooled Cash and Temporary Investments

The County maintains cash and temporary investments for all funds and component units in a single pooled account, except for certain cash and investments required to be maintained with fiscal agents or in separate pools or accounts in order to comply with the provisions of bond indentures. As of June 30, 2011, the pooled cash and temporary investments have been allocated between the County and the respective component units based upon their respective ownership percentages. Temporary investments consist of money market investments that have a remaining maturity at the time of purchase of one year or less and are reported at amortized cost, which approximates fair value. Interest earned, less an administrative charge, is allocated generally to the respective funds and component units based on each fund's or unit's equity in the pooled account. In accordance with the County's legally adopted operating budget, interest earned by certain funds is assigned directly to the General Fund. For the year ended June 30, 2011, interest earned by these funds and assigned directly to the County's General Fund is as shown on the right.

Primary Government	
Nonmajor Governmental Funds	\$ 2,011,303
Internal Service Funds	271,006
Total primary government	2,282,309
Component Units	
Public Schools	2,135,924
FCRHA	34,194
Park Authority	19,236
Total component units	2,189,354
Total reporting entity	\$ 4,471,663

5. Cash and Cash Equivalents

For purposes of the statements of cash flows, the amounts reported as cash and cash equivalents for the proprietary fund types represent amounts maintained in the reporting entity's investment pool, as they are considered to be demand deposits for the purpose of complying with GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting."

6. Investments

Money market investments that have a remaining maturity at the time of purchase of one year or less are reported at amortized cost, which approximates fair value. Other investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Asset-backed securities are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar investments. Investment purchases and sales are recorded as of the trade date. These transactions are finalized on the settlement date, which is usually the trade date, but could be as many as three business days after the trade date. Cash received as collateral on securities lending transactions and investments made with such cash are reported as assets and as related liabilities for collateral received.

7. Investments in Derivatives

The County Retirement Systems (the Systems), which include the Employees' (ERS), Police Officers (PORS), and Uniformed (URS) Retirement Systems, as well as the Educational Retirement System (ERFC) of the Public Schools component unit, invest in derivatives as permitted by the Code of Virginia and in accordance with policies set by their respective Board of Trustees. The Systems may invest in various derivative instruments on a limited basis in order to increase potential earnings and to hedge against potential losses. During fiscal year 2011, the Systems invested directly in various derivatives including asset-backed securities, collateralized mortgage obligations, exchange-traded futures contracts, forward currency contracts, options, swaps, and floating rate securities.

Investment managers are prohibited from purchasing securities on margin or using leverage unless specifically permitted within the investment manager's guidelines. These investments generally contain market risk resulting from fluctuations in interest and currency rates. The credit risk of these investments is associated with the creditworthiness of the related parties to the contracts. The Systems could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. The Board's investment policies seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. In addition, the Systems have indirect exposure to market and credit risk through its ownership interests in certain mutual and commingled funds which may use, hold or write derivative financial instruments.

As permitted by the Board's policies, the Systems hold off-financial statement derivatives. As of June 30, 2011, the ERS held futures with net exposure of \$540,322,742. URS held no derivative financial instruments with off-balance-sheet risk. PORS held S&P futures with a net exposure of \$81.4 million. Gains and losses on derivative securities are determined based upon fair values and recorded in the Statements of Changes in Plan Net Assets.

During the fiscal year, ERFC invested in stock index futures derivatives that were not reported on the financial statements as of June 30, 2011. These index futures are used to equalize temporary and transactional cash balances. The risk associated with these securities is equivalent to equity risk. At June 30, 2011, the market value of these stock index futures was \$0.2 million. However, throughout the fiscal year, exposure from these derivatives ranged from 0.01 percent to 0.05 percent of the total portfolio.

In addition, ERFC had indirect investments in derivatives through its ownership interest in the Better Beta, and Global Asset Allocation portfolios, plus with one of the private real estate managers. These portfolios are commingled funds in which ERFC has a percentage ownership. Derivatives in these portfolios consisted of interest rate swaps, which reduce the effect of interest rate fluctuations of certain real estate investments. Other derivative instruments included futures and forward currency contracts and margin cash balances. These derivatives are used to hedge away foreign currency risks and to equalize risk in other areas. They are also a cost effective means of managing the portfolios since they tend to be liquid and have lower transaction costs. At June 30, 2011, the exposure to interest rate swaps and futures and options was \$737,144 while the exposure to forward currency contracts and reverse purchase agreements was (\$656,939).

8. Inventories

The purchases method of accounting for inventories is used in the governmental funds. Under this method, the cost is recorded as an expenditure at the time individual items are purchased. At year end, a portion of the fund balance is reserved for the ending balances. This reserve is maintained to indicate that a portion of the fund balance is not available for future appropriations. Inventories are valued and carried on an average unit cost basis.

The consumption method of accounting for inventories is used in the proprietary funds. Under this method, inventories are expensed as they are consumed as operating supplies and spare parts in the period to which they apply.

9. Restricted Assets

Restricted assets are liquid assets which have third-party limitations on their use. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Unspent amounts from the issuance of general obligation bonds are reported as restricted assets in the County's capital projects funds. The County also holds certificates of deposit purchased by developers and cash deposits under the terms of performance agreements. The County may require a developer to enter into these agreements in order to ensure that certain structures and improvements are completed according to approved site plans. The certificates, issued by various financial institutions, and cash deposits are released to the developer when the terms of the agreement have been satisfied. If the terms of the agreement are not satisfied, the County uses the cash deposits and proceeds from the certificates to correct or complete the project as necessary. The amount of the certificates and cash deposits held is reported as restricted assets in the General Fund.

In accordance with the provisions of the 1985 General Bond Resolution as modified through July 2009, certain assets of the Sewer System are restricted for specific future uses, such as repayment of debt obligations, payments on construction projects, and extensions and improvements. Certain assets are restricted to fund the construction of nitrogen removal facilities. As of June 30, 2011, the Sewer System has cash and investments that are restricted for the following uses:

Restricted Assets of the Sewer System	
Extensions and improvements	\$ 89,324,333
Nitrogen removal facilities	
Long-term debt service requirements	23,184,972
Current debt service requirements	10,916,846
Total restricted assets	<u>\$ 123,426,151</u>

In accordance with requirements of the U. S. Department of Housing and Urban Development and the Virginia Housing Development Authority, the FCRHA is required to maintain certain restricted deposits and funded reserves for repairs and replacements.

The Park Authority has restricted assets representing the amount of the debt service reserve requirement pertaining to its outstanding revenue bonds and unspent amounts from general obligation bonds issued by the County.

10. Capital Assets

Capital assets, including land, permanent easements, buildings, improvements, equipment, library collections, purchased capacity, and infrastructure, that individually cost \$5,000 or more and software with a cost of \$100,000 or more, with useful lives greater than one year, are reported in the proprietary funds and applicable governmental or business-type activities columns in the government-wide financial statements. The County has capitalized general infrastructure assets, including solid waste disposal facilities, storm water management facilities, public drainage systems, mass transportation facilities, commercial revitalization improvements, and public trails and walkways that were acquired or substantially improved subsequent to July 1, 1980. The County does not capitalize roads and bridges as these belong to the Commonwealth of Virginia.

Purchased capacity consists of payments made by the Sewer System under intermunicipal agreements with the District of Columbia Water and Sewer Authority (Blue Plains), UOSA, Alexandria Sanitation Authority (ASA), Arlington County, Loudoun Water, and Prince William County Service Authority (PWSA) for the Sewer System's allocated share of improvements to certain specified treatment facilities owned and operated by these jurisdictions.

Purchased capital assets are stated at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value as of the date of donation. Capital assets are depreciated/amortized over their estimated useful lives using the straight-line method. The estimated useful lives are shown in the table on the right.

No depreciation is taken in the year of acquisition for infrastructure and library collections; depreciation/amortization on other capital assets commences when the assets are purchased or are substantially complete and ready for use. For constructed assets, all associated costs necessary to bring such assets to the condition and location necessary for their intended use, including interest on related debt with respect to the Sewer System, are initially capitalized as construction in progress and are transferred to buildings, improvements, and equipment when the assets are substantially complete and ready for use.

Capital Assets	Useful Lives
Infrastructure	10 - 100 years
Sewer lines	50 years
Buildings	30 - 50 years
Purchased capacity	30 years
Improvements	10 - 30 years
Equipment	3 - 15 years
Library collections	5 years
Software	3 - 5 years

11. Compensated Absences

All reporting entity employees earn annual leave based on a prescribed formula which allows employees with less than ten years of service to accumulate a maximum of 240 hours and employees with ten years or more of service to accumulate a maximum of 320 hours of annual leave as of the end of each year. In addition, employees, except for Public Schools employees, may accrue compensatory leave for hours worked in excess of their scheduled hours. Compensatory leave in excess of 240 hours at the end of the calendar year is forfeited.

The current pay rate, including certain additional employer-related fringe benefits, is used to calculate compensated absences accruals at June 30. The entire liability for compensated absences is reported

in the government-wide and proprietary fund statements; whereas, only the matured portion resulting from employee resignations and retirements is reported in the governmental fund statements.

12. Net Assets

Net assets are comprised of three categories: Net assets invested in capital assets, net of related debt; Restricted net assets; and Unrestricted net assets. The first category reflects the portion of net assets which is associated with non-liquid, capital assets, less the outstanding debt (net) related to these capital assets. The related debt (net) is the debt less the outstanding liquid assets and any associated unamortized costs. Restricted net assets are restricted assets, net of related debt. As of June 30, 2011, the primary government had \$401.8 million in restricted net assets, of which \$265.6 million was restricted by enabling legislation. Net assets which are neither restricted nor related to capital assets, are reported as unrestricted net assets.

The County issues debt to finance the construction of school facilities for the Public Schools and park facilities for the Park Authority component units because Public Schools does not have borrowing or taxing authority and the Park Authority does not have taxing authority. The County reports this debt, whereas the Public Schools and Park Authority report the related capital assets and unspent bond proceeds. As a result, in the Statement of Net Assets (Exhibit A), the debt reduces *unrestricted net assets* for the primary government, while the capital assets are reported in *net assets invested in capital assets, net of related debt* and the unspent bond proceeds are reported in *restricted net assets* for Public Schools and the Park Authority.

Because this debt is related to capital assets and restricted assets of the reporting entity as a whole, the debt amount of \$1,431.2 million is reclassified as shown below to present the total reporting entity column of Exhibit A.

Net Assets (summarized)	Primary Government	Component Units	Reclassification of Debt Issued for:		Total Reporting Entity
			Public Schools Facilities	Park Authority Facilities	
Invested in capital assets, net of related debt	\$ 2,263,666,295	2,549,784,457	(1,176,610,020)	(167,438,145)	3,469,402,587
Restricted	401,822,334	41,663,372	(83,842,380)	(3,307,876)	356,335,450
Unrestricted	(1,289,105,122)	451,631,144	1,260,452,400	170,746,021	593,724,443
Total net assets	\$ 1,376,383,507	3,043,078,973	-	-	4,419,462,480

13. Fund Balance Classification

The Board of Supervisors, as the highest level of authority within the County, establishes the commitment of fund balance to purposes through the approval of the annual budget plan by resolution, in conjunction with the resolutions associated with the establishment of fee and tax rates, and acceptance or appropriation of funds. All subsequent changes to the budget plan to add, reduce, or redirect resources to other purposes are also accomplished by board resolution. As a result, all unrestricted amounts directed toward a purpose are shown as committed. Balances shown as assigned in the general fund represent encumbrances which would otherwise be unassigned.

The County considers restricted balances to be expended first in cases where both restricted and unrestricted amounts are available. When utilizing unrestricted balances, committed balances are applied first, followed by assigned then unassigned balances.

14. Encumbrances

The County uses encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation. Encumbrances represent the estimated amount of expenditures ultimately to result if unperformed contracts and open purchase orders are completed. Encumbrances for the capital projects funds do not lapse until the completion of the projects and are reported as reservations of fund balance at year end. Funding for all other encumbrances lapses at year end and requires reappropriation by the Board. Funds with significant encumbrance balances are as follows:

	Encumbrance Balances
Primary Government	
General Fund	
Public safety, courts, and judicial	\$ 9,516,763
General public works	3,721,239
Social services, health and welfare	10,670,629
Housing and community development	3,635,528
Parks, recreation, and cultural	1,053,874
Other purposes	12,498,252
Total General Fund	41,096,285
Capital Projects Funds	
Capital Projects	60,996,754

15. Stabilization and Managed Reserve

In 1983, through resolution the Board of Supervisors established a policy to maintain a managed reserve in the general fund at a level sufficient for temporary financing of unforeseen emergency needs or to permit orderly adjustment to changes resulting from the termination of revenue sources through actions of other governmental bodies. The reserve is maintained at a level of not less than 2.0 percent of total general fund disbursements. The balance is adjusted as a part of the quarterly budget review process.

In 1999, the Board of Supervisors passed a resolution establishing the revenue stabilization fund. The revenue stabilization fund is included in the general fund for reporting purposes. The purpose of the revenue stabilization fund is to provide a mechanism for maintaining a balanced budget without resorting to tax increases and expenditure reductions that aggravate the stresses imposed by the cyclical nature of the economy. Three specific criteria must be met to draw from this fund. Projected revenues must reflect a decrease greater than 1.5% from the current year estimate, withdrawals must not exceed one-half of the fund balance in any fiscal year and withdrawals must be used in conjunction with spending cuts or other measures.

16. Recovered Costs

Reimbursements from another government, organization, or private company for utilities, tuition fees, vehicle insurance, and services rendered or provided to citizens are recorded as recovered costs in the fund financial statements.

17. Intermunicipal Agreements

The Sewer System has entered into several intermunicipal agreements for the purpose of sharing sewage flow and treatment facility costs (see Note K). The payments made to reimburse operating costs and debt service requirements are recorded as expenses in the year due. Payments made to fund the Sewer System's portion of facility expansion and upgrade costs are capitalized as purchased capacity (see Note F). The Sewer System amortizes these costs over the period in which benefits are expected to be derived, which is generally 30 years.

The City of Fairfax (the City) makes payments to the County for the City's share of certain governmental services and debt service costs. Payments for governmental services such as court, jail, custody, health, library, and County agent services are recorded as revenue in the General Fund. Debt service payments represent the City's share of principal and interest and are recorded as revenue in the County Debt Service Fund. In addition, the City pays the County a share of the local portion of all public assistance payments and services including related administrative costs, which is recorded as revenue in the General Fund. The City of Falls Church makes payments to the County for the full cost of the local portion of public assistance payments (including allocated administrative costs) and for the use of special County health facilities by Falls Church residents. These payments are recorded as revenue in the General Fund.

The County and the cities of Fairfax and Falls Church comprise the Fairfax-Falls Church Community Services Board (CSB), established under State mandate in 1969, to provide mental health, intellectual disability and drug and alcohol abuse treatment services to residents of the three jurisdictions. The CSB uses the County as its fiscal agent. The operations of the CSB, including payments received from these cities for services performed by the County, are reported in a special revenue fund.

18. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

B. DEPOSITS AND INVESTMENTS**1. Deposit and Investment Policies**

The reporting entity maintains an investment policy, the overall objectives of which are the preservation of capital and the protection of investment principal; maintenance of sufficient liquidity to meet operating requirements; conformance with federal, state, and other legal requirements; diversification to avoid incurring unreasonable risks regarding specific security types or individual financial institutions; and attainment of a market rate of return. Oversight of investment activity is the responsibility of the Investment Committee, which is comprised of the chief financial officer and certain key management and investment staff.

It is the reporting entity's policy to pool for investing purposes all available funds of the County and its component units that aren't otherwise required to be kept separate. The investment policy, therefore, applies to the activities of the reporting entity with regard to investing the financial assets of its pooled investment funds.

The primary government's pension trust funds have adopted investment policies to provide a well-managed investment program to meet the long-term goals of the pension trust funds, provide a high degree of diversification, maintain appropriate asset coverage of fund liabilities, and also optimize investment return without introducing higher volatility to contribution levels. Investment decisions for the funds' assets are made by the Boards of Trustees or investment managers selected by the Boards of Trustees. While the pension trust funds are not subject to the provisions of the Employee Retirement Income Security Act (ERISA), the Boards of Trustees endeavor to adhere to the spirit of ERISA. The Boards of Trustees believe that risks can be managed by establishing constraints on the investment portfolio and by properly monitoring the investment markets, the pension trust funds' asset allocation, and investment managers. Furthermore, investment portfolios have specific benchmarks and investment guidelines.

The component unit's pension trust fund's investment decisions are made by its Board of Trustees or the investment advisors selected by the Board of Trustees. The Board of Trustees manages the fund's investments under the umbrella of an approved set of investment objectives, guidelines, and performance standards. The objectives are formulated in response to the fund's anticipated financial needs, risk tolerance, and the need to document and communicate objectives, guidelines, and standards to the fund's investment managers. The Board of Trustees may grant exceptions to the investment guidelines based on written requests and appropriate justification. All exceptions that are approved are included in an appendix to the written guidelines.

The primary government's OPEB trust fund and its component unit's OPEB trust fund are participants in the Virginia Pooled OPEB Trust. Funds of participating jurisdictions are pooled and are invested in the name of the Virginia Pooled OPEB Trust. The primary government's and component unit's respective shares in this pool are reported on the face the corresponding OPEB trust fund statements as found in the other supplementary information section of the CAFR. The Board of Trustees of the Virginia Pooled OPEB Trust has adopted an investment policy to achieve a compound annualized total rate of return over a market cycle, including current income and capital appreciation, in excess of 5.0 percent after inflation, in a manner consistent with prudent risk-taking. Investment decisions for the funds' assets are made by the Board of Trustees. The Board of Trustees establishes investment objectives, risk tolerance and asset allocation policies in light of the investment policy, market and economic conditions, and generally prevailing prudent investment practices. The Board of Trustees also monitors the investments to ensure adherence to the adopted policies and guidelines. In addition, the Trustees review, monitor, and evaluate the performance of the investments and its investment advisors in light of available investment opportunities, market conditions, and publicly available indices for the generally accepted evaluation and measurement of such performance. Specific investment information for the Virginia Pooled OPEB Trust can be obtained by writing to VML/VACo Finance Program, 1108 East Main Street, Richmond, Virginia 23219.

The Code of Virginia (Code) authorizes the reporting entity to purchase the following types of investments:

- Commercial paper
- U.S. Treasury and agency securities
- U.S. Treasury strips
- Negotiable certificates of deposits and bank notes
- Money market funds
- Bankers acceptances
- Repurchase agreements
- Medium term corporate notes
- Local government investment pool
- Asset-backed securities
- Hedged debt obligations of sovereign governments
- Securities lending programs
- Obligations of the Asian Development Bank
- Obligations of the African Development Bank
- Obligations of the International Bank for Reconstruction and Development
- Obligations of the Commonwealth of Virginia and its instrumentalities
- Obligations of counties, cities, towns, and other public bodies located within the Commonwealth of Virginia
- Obligations of state and local government units located within other states
- Savings accounts or time deposits in any bank or savings institution within the Commonwealth that complies with the Code

However, the investment policy precludes the investment of pooled funds in derivative securities, reverse repurchase agreements, security lending programs, asset-backed securities, hedged debt, obligations of sovereign governments, obligations of the Commonwealth of Virginia and its instrumentalities, obligations of counties, cities, towns, and other public bodies located within the Commonwealth of Virginia and obligations of state and local government units located within other states.

The Code also authorizes the reporting entity to purchase other investments for its pension trust funds and OPEB trust funds, including common and preferred stocks and corporate bonds that meet the standard of judgment and care set forth in the Code. The pension trust funds' Boards of Trustees' investment policies permit these funds to lend their securities to broker-dealers and other entities (borrowers) for collateral that will be returned for the same securities in the future.

2. Interest Rate Risk

The reporting entity's policy is to minimize the risk that the market value of securities in its portfolio will fall due to changes in market interest rates. To achieve this minimization of risk, the reporting entity structures the pooled investment portfolio so that sufficient securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. Pooled investments that are purchased to meet liquidity needs shall have a target weighted average maturity of 90 days. All other pooled funds are invested primarily in shorter-term securities, with a maximum maturity of one year. The reporting entity's pooled investments as of June 30, 2011, are summarized at fair value as shown below:

Investment Type	Fair Value	Weighted Average Maturity (Days)
Primary Government - Pooled Investments:		
Pooled Investments:		
Agency discount notes	\$ 19,803,000	0.76
Commercial paper	515,070,510	33.08
Corporate Notes	68,342,688	4.63
Money market funds	155,455,325	0.11
Negotiable certificates of deposit	<u>538,524,036</u>	57.29
Total fair value	<u>\$ 1,297,195,559</u>	
Portfolio weighted average maturity		95.87
Component Units - Pooled Investments:		
Agency discount notes	\$ 8,897,000	0.76
Commercial paper	231,408,490	33.08
Corporate Notes	30,704,686	4.63
Money market funds	69,842,247	0.11
Negotiable certificates of deposit	<u>241,945,581</u>	57.29
Total fair value	<u>\$ 582,798,004</u>	
Portfolio weighted average maturity		95.87

The primary government's pension trust funds manage interest rate risk for fixed income accounts by limiting the credit quality of the securities held as well as the duration of the portfolio against the duration of the benchmark. The component unit's pension trust fund's fixed income managers utilize the modified duration method to manage interest rate risk. In addition, the fund's investment policy states that the average effective duration of each manager's portfolio should be within 25 percent of the portfolio's benchmark duration.

The investments in debt securities of the pension trust funds of the reporting entity as of June 30, 2011, are summarized at fair value as shown on the following page:

Investment Type	Fair Value	Duration (Years)
Primary Government - Pension Trust Funds:		
U.S. Government securities	\$107,113,659	5.2
	35,581,286	6.4
	10,736,033	15.4
Corporate and other bonds	354,537,528	4.6
	81,112,786	5.3
	101,929,951	5.4
Asset-backed securities *	207,255,048	5.7
	83,393,368	3.7
	87,139,099	6.1
Short-term investments	287,631,300	0.1
	57,866,600	0.1
	84,982,194	0.1
Total fair value	<u>\$1,499,278,852</u>	
Component Unit - Pension Trust Fund:		
U.S. Treasuries	\$ 60,396,231	4.1
Agencies	13,961,848	2.4
Asset-backed securities *	95,217,903	3.0
Cash and Cash equivalents	66,805,467	0.1
Corporate bonds	146,912,229	6.7
Municipal bonds	2,604,124	0.1

Emerging markets	842,020	3.0
Other	17,515	0.1
Total fair value	<u>\$ 465,527,255</u>	

* The underlying assets of the asset-backed securities are predominantly mortgages.

3. Credit Risk

The reporting entity's policy is to minimize the risk of loss due to the failure of an issuer or other counterparty to an investment to fulfill its obligations. The reporting entity pre-qualifies financial institutions, broker-dealers, intermediaries, and advisers with which the County does business. In addition, the reporting entity limits its pooled investments to the safest types of securities and diversifies its pooled investment portfolio so that potential losses on individual securities will be minimized. Also, new investments shall not be made in securities that are listed on Moody's Investors Service, Inc. (Moody's) Watchlist or Standard & Poor's, Inc. (S&P) Credit Watch with a negative short term rating. The policy specifies the following acceptable credit ratings for specific types of investments in the pooled portfolio:

- U.S. government sponsored enterprise instruments shall be rated by both Moody's and S&P with a minimum rating of Prime 1 and A-1, respectively.
- Prime quality commercial paper shall be rated by at least two of the following: Moody's, with a rating of P-1; S&P, A-1; Fitch Investor's Services, Inc. (Fitch), F-1; or by Duff and Phelps, Inc., D-1.

- Mutual funds must have a rating of AAA or better by S&P, Moody's, or another nationally recognized rating agency.
- Bank deposit notes must have a rating of at least A-1 by S&P and P-1 by Moody's.
- Banker's acceptances shall be rated by at least two of the following: Moody's, with a rating of P-1; S&P, A-1; Fitch Investor's Services, Inc. (Fitch), F-1; or by Duff and Phelps, Inc., D-1.
- Corporate notes must have a rating of at least Aa by Moody's and a rating of at least AA by S&P.

While the overall investment guidelines for the primary government's pension trust funds do not specifically address credit risk, investment managers have specific quality limits appropriate for the type of mandate they are managing and that fit within the total risk tolerance of the fund. The component unit's pension trust fund's investment policy states that the average credit quality of a fixed income portfolio must be at least AA. The policy also permits up to 10 percent of the portfolio to be invested in Moody's or S&P's quality rating below Baa or BBB, respectively. If a security is downgraded below the minimum rating, the investment manager must notify the Board of Trustees and an exception to the guidelines must be granted in order for the security to remain in the portfolio.

As of June 30, 2011, the reporting entity had investments in the following issuers with credit quality ratings as a percent of total investments in debt securities as shown below:

Investment Type	Credit Quality Rating *							
	AAA	AA	A	BBB	BB	B	Below B	Unrated
Primary Government								
Pooled Investments:								
Commercial paper	- %	4.3 %	15.8 %	- %	- %	- %	- %	15.4 ** %

Other bonds	-	-	-	0.5	0.5	0.1	-	0.8
Other	-	-	-	-	-	-	-	10.7

* Credit quality ratings are determined using S&P's long-term rating schema, which approximates the greatest degree of risk as of June 30, 2011.

** Insured CD's are not rated by rating agencies. Non-negotiable CD's are rated A-1 by Moody's long-term rating schema. Though not rated on S&P long-term, the 15.5% of Commercial Paper and 10.8% of Money Market Funds held in pooled investments are rated A-1 and AAAM, respectively, on S&P short-term schema.

4. Concentration of Credit Risk

The reporting entity's investment policy sets the following limits for the types of securities held in its pooled investment portfolio:

Repurchase agreements and money market funds	30%	maximum
Bank notes, banker's acceptances and negotiable certificates of deposit	40%	maximum
Commercial paper	35%	maximum
Corporate notes	25%	maximum
US Treasury and agency securities	100%	maximum
Non-negotiable certificates of deposit	40%	maximum

In addition, not more than 5 percent of the total pooled funds available for investment at the time of purchase may be invested in any one issuing or guaranteeing corporation for commercial paper, banker's acceptances, corporate notes, and bank notes. The County shall seek to maintain 5% of the investment portfolio in a combination of mutual funds or open repurchase agreements to meet liquidity requirements.

While the overall investment guidelines for the primary government's pension trust funds do not specifically address concentration of credit risk, investment managers have specific concentration limits appropriate for the type of mandate they are managing and that fit within the total risk tolerance of the fund. The pension trust funds do not have investments (other than U.S. Government and U.S. Government-guaranteed obligations) in any one organization that represents 5 percent or more of net assets available for benefits. The component unit's pension trust fund's policy for equity holdings is to limit securities of any one issuer to the greater of 5 percent or the security's weight in the benchmark index plus 2 percent of each equity portfolio at market value. For fixed income holdings, the securities of any one issuer with the exception of U.S. Government and its agencies are limited to 10 percent at cost and 15 percent at market of each fixed income portfolio. In addition, the combined allocation to non-U.S. bonds, below investment grade securities, emerging market debt, and convertible bonds may not exceed 35 percent of the portfolio. Concerning cash, no more than 10 percent of the cash portfolio shall be invested in certificates of deposit or bankers acceptances issued by any single bank. Up to 35 percent of the cash portfolio may be invested in commercial paper and corporate bonds, with no more than 5 percent invested with any single issuer. Each manager's portfolio should have no more than 5 percent of its assets allocated to cash. These policies were implemented to ensure diversification of the portfolio.

5. Custodial Credit Risk

For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the reporting entity may not recover its deposits. In accordance with the Virginia Security for Public Deposits Act (Act), all of the reporting entity's deposits are covered by federal depository insurance or collateralized in accordance with the Act, which provides for the pooling of collateral pledged by financial institutions with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for one public depositor, and public depositors are prohibited from holding collateral in their name as security for deposits. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral is inadequate to cover a loss, additional amounts are assessed on a pro rata basis to the members of the pool. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for

notifying local governments of compliance by participating financial institutions. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance, therefore, funds deposited in accordance with the requirements of the Act are considered to be fully insured.

For investments, custodial credit risk is the risk that, in the event of the failure of a counterparty, the reporting entity will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Per policy, all of the investments purchased by the reporting entity are insured or registered or are securities held by the reporting entity or its agent in the reporting entity's name.

The Boards of Trustees of the pension trust funds permit the funds to participate in a securities lending program, which is administered by a custodian. Under this program, certain securities are loaned to approved broker/dealers who borrow the securities and provide collateral in the form of cash, U.S. Treasury or government agency securities, letters of credit, and other securities as specified in the securities lending agreement. The value of the collateral for domestic securities must equal 102 percent of the market value of the security and 105 percent of the market value of the foreign security. The custodian monitors the market value of the collateral on a daily basis. Cash collateral is invested in a fund which is maintained by the custodian or its affiliate. The pension trust funds did not impose any restrictions during the period on the amounts of loans security lending agents made on their behalf, and the agents have agreed to indemnify the pension trust funds by purchasing replacement securities, or returning the cash collateral thereof, in the event a borrower fails to return loaned securities or pay distributions thereon. There were no such failures by any borrower during the fiscal year, nor were there any losses during the period resulting from the default of a borrower or lending agent. At year end, the pension trust funds had no custodial credit risk exposure to borrowers because the amounts the pension trust funds owed the borrower exceeded the amounts the borrowers owed the pension trust funds. Information pertaining to the securities lending transactions as of June 30, 2011, is as follows:

	Underlying Securities	Cash Collateral Investment Value	Securities Collateral Investment Value
Securities Lent			
Primary Government - Pension Trust Funds:			
Lent for cash collateral:			
U.S. Government securities	\$ 35,113,879	35,835,364	-

6. Foreign Currency Risk

Per the reporting entity's policy, pooled investments are limited to U.S. dollar denominated instruments.

The pension trust funds are allowed to invest in foreign currency denominated instruments. The component unit's pension trust fund's policy allows investment managers to invest up to 25 percent of the portfolio in securities issued by non-U.S. guarantors with up to 10 percent in emerging markets. As of June 30, 2011, the fair value in U.S. dollars of the pension trust funds' foreign currency investments are as follows on the facing page:

International Securities	Cash and Cash Equivalents	Equity	Convertible and Fixed Income	Total U.S. Dollars
Primary Government - Pension Trust Funds:				
Australian dollar	\$ 1,464,189	38,774,391	23,037,629	63,276,209

C. PROPERTY TAXES

Real estate is assessed on January 1 each year at the estimated fair market value of all land and improvements. Real estate taxes are due in equal installments, on July 28 and December 5. Unpaid taxes automatically constitute liens on real property which must be satisfied prior to sale or transfer, and after three years, foreclosure proceedings can be initiated.

Personal property taxes on vehicles and business property are based on the estimated fair market value at January 1 each year. The tax on a vehicle may be prorated for the length of time the vehicle has situs in the County. A declaration form is required to be filed, and there is a ten percent penalty for late filing. Personal property taxes are due on October 5, with certain exceptions. Delinquency notices are sent before statutory measures, such as the seizure of property and the placing of liens on bank accounts and/or wages, are initiated.

Real estate and personal property taxes not paid by the due dates are assessed a ten percent late payment penalty on the tax amount. Furthermore, interest accrues from the first day following the due date at an annual rate of ten percent for the first year and thereafter at the rate set by the Internal Revenue Service. The net delinquent taxes receivable, including interest and penalties, as of June 30, 2011, after allowances for uncollectible amounts, is \$19,199,990, of which \$2,558,184 has been included in tax revenue for fiscal year 2011 because it was collected within 45 days after June 30.

As required by GAAP, the County reports real estate and personal property taxes (net of allowances) assessed for calendar year 2011 as receivables (net of payments totaling \$13,462,669 received in advance of the due date) and deferred revenue because the County has an enforceable legal claim to these resources at June 30, 2011; however, these resources, which amount to \$2,557,683,588, will not be available to the County until fiscal year 2012.

The 1998 Virginia General Assembly enacted the Personal Property Tax Relief Act to provide property tax relief on the first \$20,000 of value of motor vehicles not used for business purposes. Due to budget constraints, the 2003 Virginia General Assembly froze the tax reduction at 70 percent. The 2005 Virginia General Assembly revised this measure further to limit its tax relief payments to all localities to a total of \$950 million per tax year beginning with 2006 (fiscal year 2007). The County's fixed share of the \$950 million is \$211,313,944, as determined by its share of the total payments made to all localities by the Commonwealth during calendar years 2004 and 2005 for tax year 2004 (fiscal year 2005). The County's fixed share from the Commonwealth is reported as intergovernmental revenue in the General Fund.

D. RECEIVABLES

Receivables and allowances for uncollectible receivables of the primary government, excluding fiduciary funds, at June 30, 2011, consist of the following:

	General Fund	Nonmajor Governmental Funds	Enterprise Fund	Internal Service Funds	Total Primary Government (Exhibit A)
Receivables:

E. INTERFUND BALANCES AND TRANSFERS

Payments for fringe benefits are made through the General Fund on behalf of all funds of the County. As a result, interfund payables primarily represent the portion of fringe benefits to be paid by certain other funds to the General Fund. Interfund receivables and payables are also recorded when funds overdraw their share of pooled cash. All amounts are expected to be paid within one year. The composition of interfund balances as of June 30, 2011, is as shown on the right.

	Interfund Receivables	Interfund Payables
Primary Government		
General Fund	\$ 1,808,129	-
Nonmajor Governmental Funds	1,851,585	3,855,713
Enterprise Fund	-	231,194
Internal Service Funds	715,767	268,085
Fiduciary Funds	-	20,489
Total primary government	\$ 4,375,481	4,375,481
Component Unit		
Public Schools:		
General Fund	\$ 6,267,515	-
Nonmajor Governmental Funds	-	4,800,000
Internal Service Funds	-	1,467,515
Total component units	\$ 6,267,515	6,267,515

Due to/from primary government and component units represent amounts paid by one entity on behalf of the other entity. Due to/from primary government and component units as of June 30, 2011, are as follows:

<u>Receivable Entity</u>	<u>Payable Entity</u>	<u>Amount</u>
<u>Component Units</u>	<u>Primary Government</u>	
Public Schools	General Fund	\$ 274,976
Park Authority	General Fund	1,185,335
Park Authority	Nonmajor Governmental Fund	704,624
EDA	General Fund	212,739
Total		\$ 2,377,674
<u>Primary Government</u>	<u>Component Unit</u>	
General Fund	FCRHA	132,397
General Fund	Park Authority	180,972
Total		\$ 313,369

The primary purpose of interfund transfers is to provide funding for operations, including those of the Fairfax-Falls Church Community Services Board, debt service, and capital projects. Interfund transfers for the year ended June 30, 2011, are as follows:

	<u>Transfers In</u>	<u>Transfers Out</u>
<u>Primary Government</u>		
General Fund	\$ 9,801,238	454,432,831
Nonmajor Governmental Funds	475,694,306	31,275,049

G. RETIREMENT PLANS

The reporting entity administers the following four separate public employee retirement systems that provide pension benefits for various classes of employees. In addition, professional employees of Public Schools participate in a plan sponsored and administered by the Virginia Retirement System (VRS).

1. Fairfax County Employees' Retirement System

Plan Description

The Fairfax County Employees' Retirement System (ERS) is a cost-sharing multiple-employer defined benefit pension plan which covers only employees of the reporting entity. The plan covers full-time and certain part-time employees of the reporting entity who are not covered by other plans of the reporting entity or the VRS. Information regarding membership in the ERS is disclosed in item 6 of this note.

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. To be eligible for normal retirement, an individual must meet the following criteria: (a) attain the age of 65 with five years of creditable service, or (b) attain the age of 50 with age plus years of creditable service being greater than or equal to 80. The normal retirement benefit is calculated using average final compensation (i.e., the highest 78 consecutive two week pay periods or the highest 36 consecutive monthly pay periods) and years (or partial years) of creditable service at date of termination. In addition, if normal retirement occurs before Social Security benefits are scheduled to begin, an additional monthly benefit is paid to retirees. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. The benefit for early retirement is actuarially reduced and payable at early termination.

Effective July 1, 2005, a Deferred Retirement Option Program (DROP) was established for eligible members of the ERS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0 percent per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

The ERS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Employees' Retirement System, 10680 Main Street, Suite 280, Fairfax, VA 22030, or by calling (703) 279-8200.

Funding Policy

The contribution requirements of ERS members are established and may be amended by County ordinances. Members may elect to join Plan A or Plan B. Plan A requires member contributions of 4.0 percent of compensation up to the Social Security wage base and 5.33 percent of compensation in excess of the wage base. Plan B requires member contributions of 5.33 percent of compensation.

The County is required to contribute at an actuarially determined rate; the rate for the year ended June 30, 2011, was 14.22% of annual covered payroll. The decision was made to commit additional funding and a rate of 14.70% was adopted for fiscal year 2011. In the event the ERS's funded ratio (the ratio of the actuarial value of assets to the actuarial accrued liability) exceeds 120 percent or falls below 90 percent, the contribution rate will be adjusted to bring the funded ratio back within these parameters.

Annual Pension Cost

For the years ended June 30, 2011, 2010, and 2009, the County's and Public Schools' annual pension costs and actual contributions were as follows:

	Annual Pension Costs and Actual Contributions for Years Ended June 30		
	2011	2010	2009
County	\$ 69,637,538	\$ 46,058,456	46,013,342
Public Schools	26,969,997	18,010,646	19,097,489
Total	\$ 96,607,535	\$ 64,069,102	65,110,831

For the years ended June 30, 2011, 2010, and 2009, the County's and Public Schools' annual required contributions (ARC) were as follows:

	ARC for Years Ended June 30		
	2011	2010	2009
County	\$ 88,254,921	66,692,265	67,172,762
Public Schools	34,180,344	26,079,267	27,879,546
Total	122,435,265	92,771,532	95,052,308

The ARC for the year ended June 30, 2011 was determined as part of the July 1, 2010, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include:

- a. A rate of return on the investment of present and future assets of 7.5 percent per year compounded annually, including an inflation component of 4.0 percent.
- b. Projected annual salary increases of 4.0 to 6.5 percent, including an inflation component of 4.0 percent.
- c. Post-retirement benefit increases of 3.0 percent compounded annually.

The actuarial value of ERS's assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period. Any excess of these assets over actuarial accrued liability is amortized as a level percentage of projected payroll over an open 15 year period. The remaining amortization period is 15 years.

For fiscal years ended June 30, 2005 through June 30, 2011, the County's Employees' Retirement System funding progress was as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
7/1/2005	2,202,515	2,676,418	473,903	82.29	565,063	83.87
7/1/2006	2,363,844	2,881,780	517,936	82.03	574,294	90.19
7/1/2007	2,596,658	3,139,187	542,529	82.72	579,075	93.69
7/1/2008	2,752,874	3,328,901	576,027	82.70	610,877	94.30
7/1/2009	2,603,284	3,535,874	932,590	73.62	628,481	148.39
7/1/2010	2,636,052	3,771,060	1,135,008	69.90	629,249	180.38

Concentrations

The ERS does not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net assets held in trust for pension benefits.

2. Fairfax County Police Officers Retirement System

Plan Description

The Fairfax County Police Officers Retirement System (PORS) is a legally separate single-employer defined benefit pension plan established under the Code of Virginia. The plan covers County police officers who are not covered by other plans of the reporting entity or the VRS and former Park Police officers who elected to transfer to the PORS from the Uniformed Retirement System effective January 22, 1983. Information regarding membership in the PORS is disclosed in item 6 of this note.

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. To be eligible for normal retirement, an individual must meet the following criteria: (a) if employed before July 1, 1981; attain the age of 55 or have completed 20

years of creditable service, or (b) if employed on or after July 1, 1981; attain the age of 55 or have completed 25 years of creditable service. The normal retirement benefit is calculated using average final compensation and years (or partial years) of creditable service at date of termination. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. To be eligible for early retirement, the employee must have 20 years of creditable service (does not apply if hired before July 1, 1981). The benefit for early retirement is actuarially reduced and payable at early termination.

Effective October 1, 2003, a Deferred Retirement Option Program (DROP) was established for eligible members of the PORS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0 percent per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

The PORS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Police Officers Retirement System, 10680 Main Street, Suite 280, Fairfax, VA 22030, or by calling (703) 279-8200.

Funding Policy

The contribution requirements of PORS members are established and may be amended by County ordinances. Member contributions are based on 10.0 percent of compensation.

The County contributes at a fixed rate as determined by an annual actuarial valuation, unless the PORS's funding ratio falls outside of a pre-determined range. Once outside the range, the rate is either increased or decreased to accelerate or decelerate the funding until the ratio falls back within the range. The range for the PORS is a minimum funding ratio of 90 percent and a maximum funding ratio of 120 percent. The actuarial rate for the year ended June 30, 2011, was 27.40% of annual covered payroll. The decision was made to commit additional funding and a rate of 28.31% was adopted for fiscal year 2011.

Annual Pension Cost

Information related to the County's annual pension cost, ARC, actual contributions, and net pension obligation (NPO) for fiscal years 2011, 2010, and 2009 are as follows:

	2011	2010	2009
ARC, for the year ended June 30	\$ 36,872,751	\$30,759,259	27,625,460
Interest on NPO from prior year	3,033,289	2,532,811	2,245,280
Actuarial adjustment	(3,416,039)	(2,852,409)	(2,528,597)
Annual pension cost	36,490,001	30,439,661	27,342,143
Actual contributions	(29,174,611)	(23,766,626)	(23,508,402)
Increase in the NPO, for the year ended June 30	7,315,390	6,673,035	3,833,741
NPO, beginning of year	40,443,849	33,770,814	29,937,073
NPO, end of year	\$ 47,759,239	\$40,443,849	33,770,814
Percentage of annual pension cost contributed	79.95%	78.08%	85.98%

The ARC for the year ended June 30, 2011, was determined as part of the July 1, 2010, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include:

- a. A rate of return on the investment of present and future assets of 7.5 percent per year compounded annually, including an inflation component of 4.0 percent.
- b. Projected annual salary increases of 5.0 to 12.0 percent, including an inflation component of 4.0 percent.
- c. Post-retirement benefit increases of 3.0 percent compounded annually.

The actuarial value of the PORS's assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period. Any excess of these assets over the actuarial accrued liability is amortized as a level percentage of projected payroll over an open 15 year period. The remaining amortization period is 15 years.

For fiscal years ended June 30, 2005 through June 30, 2011, the County's Police Officers Retirement System funding progress is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
7/1/2005	732,582	828,702	96,120	88.40	83,939	114.51
7/1/2006	788,766	897,478	108,712	87.89	89,062	122.06
7/1/2007	870,975	968,735	97,760	89.91	95,904	101.94
7/1/2008	908,077	1,031,333	123,256	88.05	99,714	123.61
7/1/2009	879,543	1,076,039	196,496	81.74	99,647	197.19
7/1/2010	899,543	1,135,015	235,472	79.25	100,500	234.30

Concentrations

The PORS does not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net assets held in trust for pension benefits.

3. Fairfax County Uniformed Retirement System

Plan Description

The Fairfax County Uniformed Retirement System (URS) is a single-employer defined benefit pension plan. The plan covers uniformed employees including non-clerical employees of the Fire and Rescue Department and Office of Sheriff, Park Police, Helicopter Pilots, Animal Wardens and Game Wardens who are not covered by other plans of the reporting entity or the VRS. Information regarding membership in the URS is disclosed in item 6 of this note.

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. To be eligible for normal retirement an individual must meet

the following criteria: (a) attain the age of 55 with six years of creditable service, or (b) complete 25 years of creditable service. The normal retirement benefit is calculated using average final compensation and years (or partial years) of creditable service at date of termination. Annual cost-of-living adjustments are provided to retirees and beneficiaries equal to the lesser of 4.0 percent or the percentage increase in the Consumer Price Index for the Washington-Baltimore Metropolitan Statistical Area. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. To be eligible for early retirement, employees must have 20 years of creditable service. The benefit for early retirement is actuarially reduced and payable at early termination.

Effective October 1, 2003, a Deferred Retirement Option Program (DROP) was established for eligible members of the URS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0 percent per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

The URS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Uniformed Retirement System, 10680 Main Street, Suite 280, Fairfax, VA 22030, or by calling (703) 279-8200.

Funding Policy

The contribution requirements of URS members are established and may be amended by County ordinances. Plan A members were given the opportunity to enroll in Plan B as of July 1, 1981 and to enroll in Plan C as of April 1, 1997. From July 1, 1981 through March 31, 1997, all new hires were enrolled in Plan B. Plan B members were given the opportunity to enroll in Plan D as of April 1, 1997. From April 1, 1997 forward all new hires are enrolled in Plan D. Plan A requires member contributions of 4.0 percent of compensation up to the Social Security wage base and 5.75 percent of compensation in excess of the wage base. Plan B requires member contributions of 7.08 percent of compensation up to the Social Security wage base and 8.83 percent of compensation in excess of the wage base. Plan C requires member contributions of 4.0 percent of compensation. Plan D requires contributions of 7.08 percent of compensation.

The County contributes at a fixed rate as determined by an annual actuarial valuation, unless the URS's funding ratio falls outside of a pre-determined range. Once outside the range, the rate is either increased or decreased to accelerate or decelerate the funding until the ratio falls back within the range. The range for the URS is a minimum funding ratio of 90 percent and a maximum funding ratio of 120 percent. The County is required to contribute at an actuarially determined rate; the rate for the year ended June 30, 2011, was determined actuarially to be 29.78% of annual covered payroll. The decision was made to commit additional funding and a rate of 30.56% was adopted for fiscal year 2011.

Annual Pension Cost

Information related to the County's annual pension cost, ARC, actual contributions, and NPO for fiscal years 2011, 2010, and 2009 is presented on the following page:

	2011	2010	2009
ARC, for the year ended June 30	\$ 53,208,307	\$47,289,026	47,247,396
Interest on NPO from prior year	2,563,493	2,094,476	1,630,484
Actuarial adjustment	(2,886,962)	(2,358,764)	(1,836,224)
Annual pension cost	52,884,838	47,024,738	47,041,656
Actual contributions	(45,817,015)	(40,771,184)	(40,855,101)
Increase in the NPO, for the year ended June 30	7,067,823	6,253,554	6,186,555
NPO, beginning of year	34,179,901	27,926,347	21,739,792
NPO, end of year	\$41,247,724	\$34,179,901	27,926,347
Percentage of annual pension cost contributed	86.64%	86.70%	86.85%

The ARC for the year ended June 30, 2011, was determined as part of the July 1, 2010, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include:

- A rate of return on the investment of present and future assets of 7.5 percent per year compounded annually, including an inflation component of 4.0 percent.
- Projected annual salary increases of 5.0 to 12.0 percent, including an inflation component of 4.0 percent.
- Post-retirement benefit increases of 3.0 percent compounded annually.

The actuarial value of URS's assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period. URS's unfunded actuarial accrued liability is amortized as a level percentage of projected payroll over an open 15 year period. The remaining amortization period is 15 years.

For fiscal years ended June 30, 2005 through June 30, 2011, the County's Uniformed Retirement System funding progress is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
7/1/2005	830,702	974,106	143,404	85.28	109,067	131.48
7/1/2006	921,414	1,102,667	181,253	83.56	127,469	142.19
7/1/2007	1,028,385	1,206,624	178,239	85.23	136,487	130.59
7/1/2008	1,097,994	1,285,694	187,700	85.40	142,724	131.51
7/1/2009	1,074,230	1,351,204	276,974	79.50	147,083	188.31
7/1/2010	1,095,080	1,427,617	332,537	76.71	146,777	226.56

Concentrations

The URS does not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net assets held in trust for pension benefits.

4. Educational Employees' Supplementary Retirement System of Fairfax County

Plan Descriptions

The Educational Employees' Supplementary Retirement System of Fairfax County (ERFC) is a legally separate single-employer retirement system established under the Code of Virginia. The ERFC covers all full-time educational and civil service employees who are employed by the Public Schools and who are not covered by other plans of the reporting entity. The ERFC contains two plans, ERFC and ERFC 2001. ERFC is the original defined benefit plan effective July 1, 1973, and remains in effect. It is, however, closed to new members. Effective July 1, 2001, all new-hire full-time educational and civil service employees are enrolled in the ERFC 2001 plan. This new defined benefit plan incorporates a streamlined stand-alone retirement benefit structure.

The ERFC and ERFC 2001 plans provide retirement, disability, and death benefits to plan members and their beneficiaries. Annual post-retirement increases of 3.0 percent are effective each March 31. All benefits vest after five years of creditable service. Benefit provisions are established and may be amended by the Fairfax County Public School Board. The ERFC plan supplements the Virginia Retirement System plan. The benefit structure is designed to provide a level retirement benefit through a combined ERFC/VRS benefit structure. The ERFC 2001 plan has a stand-alone structure. Member contributions for the ERFC and ERFC 2001 plans are made through an arrangement which results in a deferral of taxes on the contributions. Further analysis of member contributions may be found in Article III of the ERFC and ERFC 2001 Plan Documents.

The ERFC and ERFC 2001 plans provide for a variety of benefit payment types. Minimum eligibility conditions for receipt of full benefits for ERFC members are either attaining the age of 55 with 25 years of creditable service or completing five years of creditable service at age 65. Minimum eligibility conditions for receipt of full benefits for ERFC 2001 members are either completing five years of creditable service prior to age 60 or any age with 30 years of creditable service. A description of each of the types of benefits payments is contained in the actuarial valuation and the Plan Documents. Total plan membership for the plans is disclosed in item 6 of this note.

The ERFC issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Educational Employees' Supplementary Retirement System, 8001 Forbes Place, Springfield, VA 22151.

Funding Policy

The contribution requirements for ERFC and ERFC 2001 members are established and may be amended by the ERFC Board of Trustees with the approval of the School Board. All members are required to contribute 4.0 percent of their covered salaries. The employer is required to contribute at an actuarially determined rate. For fiscal year 2011, Public Schools is required to contribute 4.04 percent of annual covered payroll for educational employees and civil service employees.

Annual Pension Cost

For each of the years ended June 30, 2011, 2010, and 2009, the Public Schools' annual pension cost of \$47,118,111, \$37,868,623, and \$40,012,480, respectively, was equal to its ARC and actual contributions.

The ARC for the year ended June 30, 2011, was determined as part of the December 31, 2010, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include:

- a. A rate of return on the investment of present and future assets of 7.5 percent per year compounded annually, including an inflation component of 3.75 percent.
- b. Projected annual salary increases of 4.0 to 8.2 percent, including an inflation component of 3.75 percent.
- c. Post-retirement benefit increases of 3.0 percent compounded annually.

The actuarial value of the ERFC's assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. Any excess of assets over the actuarial accrued liability is amortized as a level percentage of projected payroll over a period of future years, which has never exceeded 30 years. The remaining amortization period, which is closed at December 31, 2010, was 28 years.

For the fiscal years 2005 through 2011, the County's Educational Employees' Supplementary Retirement System funding progress was as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
12/31/2005	1,718,399	2,022,962	304,563	84.94	1,050,217	29.00
12/31/2006	1,818,930	2,105,552	286,622	86.39	1,111,828	25.78
12/31/2007	1,924,886	2,186,801	261,915	88.02	1,161,432	22.55
12/31/2008	1,733,946	2,255,298	521,352	76.88	1,211,140	43.05
12/31/2009	1,769,540	2,314,282	544,742	76.46	1,208,093	45.09
12/31/2010	1,822,603	2,384,061	561,458	76.45	1,191,290	47.13

Concentrations

The ERFC plans do not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net assets available for benefits.

5. Virginia Retirement System

Plan Description

Public Schools contributes to the Virginia Retirement System (VRS) on behalf of covered professional Public Schools employees. VRS is a cost-sharing multiple-employer public employee defined benefit pension plan administered by the Commonwealth of Virginia for its political subdivisions. All full-time, salaried, permanent employees of participating employers must participate in the VRS.

In accordance with the requirements established by State statute, the VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The VRS issues a publicly available annual report that includes financial statements

and required supplementary information for the VRS. This report can be obtained by writing to the Virginia Retirement System, P.O. Box 2500, Richmond, VA 23218-2500.

Funding Policy

Plan members are required by State statute to contribute 5.0 percent of their annual covered salary to the VRS. If a plan member leaves covered employment, the accumulated contributions plus interest earned may be refunded. In accordance with State statute, Public Schools is required to contribute at an actuarially determined rate or a rate approved by the General Assembly. The approved rate for fiscal year 2011 was 3.9 percent of annual creditable compensation. This rate was less than the actuarial rate of 12.9 percent. The difference is a deferred amount which will be paid beginning in FY 2013. The FCPS Board committed \$44.9 million of June 30, 2011 fund balance toward this purpose. State statute may be amended only by the Commonwealth of Virginia Legislature. Public Schools' contributions to the VRS for the years ended June 30, 2011, 2010, and 2009, were \$112,157,560, \$144,109,311, and \$179,716,060, respectively, equal to the required contributions for each year.

6. Current Plan Membership

At July 1, 2010 (December 31, 2010, for ERFC), the date of the latest actuarial valuations, membership in the reporting entity's plans consisted of the following:

	Primary Government			Component Unit - Public Schools
	ERS	PORS	URS	ERFC
Retirees and beneficiaries receiving benefits	6,568	850	1,075	9,081
Terminated employees entitled to, but not yet receiving, benefits	1,427	34	43	2,719
DROP participants	519	59	106	n/a
Active employees	13,858	1,293	1,865	20,141
Total number of plan members	22,372	2,236	3,089	31,941

7. Required Supplementary Information

Pension trend data, including the schedule of funding progress and the schedule of employer contributions, can be found in the required supplementary information section immediately following the notes to the financial statements.

H. OTHER POST-EMPLOYMENT BENEFITS

The reporting entity administers two separate other post-employment benefits (OPEB) plans and has established trust funds to account for the cost of OPEB.

1. Fairfax County OPEB Plan

Plan Description

The Fairfax County OPEB Trust Fund is a single-employer defined benefit plan administered by Fairfax County. The County provides medical/dental, vision, and life insurance benefits to eligible retirees and their spouses. In order to participate, retirees must have reached the age of 55 or be on disability retirement and must have health benefit coverage in a plan provided by the County. Retirees must have five years of service in order to participate in this program. Beginning in fiscal year 2004, the amount of monthly subsidy provided by the County is based on years of service and

ranges from \$30 per month to \$220 per month. Retirees receiving the subsidy prior to fiscal year 2004 are grandfathered at \$100 per month unless their years of service entitle them to receive a higher monthly subsidy.

In addition, the Board of Supervisors has established a program to subsidize the continuation of term life insurance, at reduced coverage amounts, for retirees. Retirees generally pay for fifty percent of their coverage amounts at age-banded premium rates, with the County incurring the balance of the cost. Benefit provisions are established and may be amended by the Board of Supervisors.

Funding Policy

The contributions to the OPEB Trust Fund are established and may be amended by the Board of Supervisors. The contributions are typically based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits. GASB Statement No. 45 requires recognition of the current expense of OPEB based on each governing body's annual required contribution, but does not require funding of the related liability.

Fairfax County is one of the founding participants in the Virginia Pooled OPEB Trust Fund sponsored by the Virginia Municipal League and the Virginia Association of Counties (VML/VACo). The Virginia Pooled OPEB Trust Fund is established as an investment vehicle for participating employers to accumulate assets to fund OPEB. Plan assets for purposes of GASB Statement No. 45 are usually in the form of stocks, bonds, and other classes of investments, that have been segregated and restricted in a trust, in which (a) contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employer or plan administrator, for the payment of benefits in accordance with the terms of the plan. Further information, including financial statements, can be obtained by writing to VML/VACo Finance Program, 1108 East Main Street, Richmond, Virginia 23219.

Annual OPEB Cost

The County's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB asset for 2011, 2010 and 2009 are as follows:

	2011	2010	2009
ARC, for the year ended June 30	\$ 35,373,000	\$ 32,553,000	\$ 25,393,000
Interest on net OPEB asset from prior year	(713,000)	(1,787,000)	(2,027,000)
Actuarial adjustment	529,000	1,325,000	1,398,000
Annual OPEB cost	35,189,000	32,091,000	24,764,000
Actual contributions	(21,004,000)	(17,771,000)	(21,557,000)
(Increase) decrease in net OPEB asset, for the year ended June 30	14,185,000	14,320,000	3,207,000
Net OPEB asset, beginning of year	(9,505,610)	(23,825,610)	(27,032,610)
Net OPEB (asset) obligation, end of year	\$ 4,679,390	\$ (9,505,610)	\$ (23,825,610)
Percentage of annual OPEB cost contributed	59.69%	55.38%	87.05%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, also presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

For the year ended June 30, 2011, the County's OPEB funding progress is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
7/1/2007	\$ -	\$ 379,856	\$ 379,856	- %	\$ 650,106	58.43 %
7/1/2008	48,207	350,709	302,502	13.75	697,253	43.39
7/1/2009	50,233	441,286	391,053	11.38	761,303	51.37
7/1/2010	60,473	489,203	428,730	12.36	777,040	55.17

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The ARC for fiscal year 2011 was determined as part of the July 1, 2010, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include:

- a. A rate of return on the investment of present and future assets of 7.5 percent per year compounded annually, including an inflation component of 4.0 percent.
- b. An annual healthcare cost trend rate of 9.0 percent initially, reduced by decrements to an ultimate rate of 5.0 percent, including an inflation component of 4.0 percent. The current rate is 6.0 percent.

The actuarial value of the OPEB assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. Any excess of these assets over actuarial accrued liability is amortized as a level percentage of projected payroll over an open 30 year period. The remaining amortization period is 30 years.

The Fairfax County OPEB Trust Fund does not issue a stand-alone financial report and is not included in the report of a public employee retirement system or of another entity.

Concentrations

The Fairfax County OPEB Trust Fund does not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net assets held in trust for OPEB benefits.

2. Public Schools OPEB Plan

Plan Description

The Fairfax County Public Schools OPEB Trust Fund is a single-employer defined benefit plan administered by the Fairfax County Public Schools (Public Schools). Public Schools provides health benefits to eligible retirees and their spouses. In order to participate, retirees must have reached the age of 55 or be on disability retirement and must have health benefit coverage in a plan provided by Public Schools. There is no minimum number of years of service required to participate in this plan. Plan participants may continue medical coverage by paying the appropriate subsidized premiums. The amount of monthly subsidy is based on years of service and ranges from \$15 per month to \$175 per month. Benefit provisions may be amended by the School Board.

Funding Policy

The contributions to the Public Schools OPEB Trust Fund are established and may be amended by the School Board. The contributions are typically based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits. The costs of administering the plan are paid for by the Public Schools OPEB Trust Fund through the use of investment income and employer contributions. GASB Statement No. 45 requires recognition of the current expense of the plan based on each annual required contribution, but it does not require funding of the related liability.

Public Schools is a participant in the Virginia Pooled OPEB Trust Fund sponsored by the Virginia Municipal League and the Virginia Association of Counties (VML/VACo). The Virginia Pooled OPEB Trust Fund is established as an investment vehicle for participating employers to accumulate assets to fund OPEB. Plan assets for purposes of GASB Statement No. 45 are usually in the form of stocks, bonds, and other classes of investments, that have been segregated and restricted in a trust, in which (a) contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employer or plan administrator, for the payment of benefits in accordance with the terms of the plan. Further information, including financial statements, can be obtained by writing to VML/VACo Finance Program, 1108 East Main Street, Richmond, Virginia 23219.

Annual OPEB Cost

Public Schools' annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over an open period not to exceed thirty years.

For the year ended June 30, 2011, 2010 and 2009, Public Schools' OPEB funding progress is presented on the following page:

	2011	2010	2009
ARC, for the year ended June 30	\$ 38,163,000	\$ 35,954,000	\$ 37,522,000
Interest on net OPEB asset from prior year	-	-	(61,002)
Actuarial adjustment	172,000	1,000	42,056
Annual OPEB cost	38,335,000	35,955,000	37,503,054
Actual contributions	(45,492,399)	(27,137,145)	(36,641,152)
(Increase) decrease in net OPEB asset, for the year ended June 30	(7,157,399)	8,817,855	861,902
Net OPEB obligation (asset), beginning of year	8,866,393	48,538	(813,364)
Net OPEB obligation (asset), end of year	\$ 1,708,994	\$ 8,866,393	\$ 48,538
Percentage of annual OPEB cost contributed	118.67%	75.48%	97.70%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, also presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

For the year ended June 30, 2011, Public Schools' OPEB funding progress was as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
7/1/2007	\$ -	\$ 299,668	\$ 299,668	- %	\$ 1,302,665	23.00 %
7/1/2008	7,996	458,067	450,071	1.75	1,352,321	33.28
7/1/2009	17,520	466,324	448,804	3.76	1,182,922	37.94
7/1/2010	19,563	471,617	452,054	4.15	1,432,000	31.57

Projections of benefits for financial reporting purposes are based on Public Schools' substantive plan (the plan as understood by Public Schools and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between Public Schools and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The ARC for fiscal year 2011 was determined as part of the July 1, 2010, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include:

- A rate of return on the investment of present and future assets of 7.5 percent per year compounded annually, including an inflation component of 4.0 percent.
- An annual healthcare cost trend rate of 10.0 percent initially, reduced by decrements to an ultimate rate of 5.0 percent, including an inflation component of 4.0 percent. The current rate is 8.0 percent and will reduce by 1.0 percent annually for the next three years.

The actuarial value of OPEB assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. Any excess of these assets over actuarial accrued liability is amortized as a level percentage of projected payroll over an open 30 year period. The remaining amortization period is 30 years.

The Public Schools OPEB Trust Fund does not issue a stand-alone financial report and is not included in the report of a public employee retirement system or of another entity.

Concentrations

The Fairfax County Public Schools OPEB Trust Fund does not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net assets held in trust for OPEB benefits.

3. Current Plan Membership

At July 1, 2010, the date of the latest actuarial valuations, membership in the reporting entity's plans consisted of the following:

	Primary Government	Component Unit - Public Schools
	OPEB	OPEB
Retirees and beneficiaries receiving benefits	4,107	8,040
Active employees	12,059	18,590
Total number of plan members	<u>16,166</u>	<u>26,630</u>

I. RISK MANAGEMENT

The reporting entity is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The County and Public Schools maintain self-insurance internal service funds for workers' compensation claims and certain property and casualty risks and for health insurance benefits. The County and Public Schools believe that it is more cost effective to manage certain risks internally rather than purchase commercial insurance. The FCRHA, Park Authority, and EDA participate in the County's self-insurance program. Participating funds and agencies are charged "premiums" which are computed based on relevant data coupled with actual loss experience applied on a retrospective basis.

Liabilities are reported in the self-insurance funds when it is probable that losses have occurred and the amounts of the losses can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported to date. Because actual claims liabilities depend on such complex factors as inflation, changes in governing laws and standards, and court awards, the process used in computing claims liabilities is reevaluated periodically, to include an annual actuarial study, to take into consideration the history, frequency and severity of recent claims and other economic and social factors. These liabilities are computed using a combination of actual claims experience and actuarially determined amounts and include any specific, incremental claim adjustment expenses and estimated recoveries. The liabilities do not include nonincremental claim adjustment expenses.

The claims liabilities in the self-insurance funds are discounted at 0.75 percent and 1.00 percent at June 30, 2011 and 2010, respectively, to reflect anticipated investment income. Changes in the balances of claims liabilities during fiscal years 2011 and 2010 are as follows:

	Internal Service Funds			
	Primary Government		Component Unit - Public Schools	
	Self-Insurance	Health Benefits	Insurance	Health Benefits Trust
Liability balances, June 30, 2009	\$ 33,084,626	11,420,191	20,827,171	16,030,000
Claims incurred	-			
Claims and changes in estimates	13,965,561	106,428,293	9,753,799	253,043,324
Claims payments	(12,670,578)	(105,022,478)	(7,831,121)	(251,748,324)
Liability balances, June 30, 2010	34,379,609	12,826,006	22,749,849	17,325,000
Claims incurred				
Claims and changes in estimates	28,276,128	118,161,357	14,675,042	264,685,432
Claims payments	(22,239,079)	(119,289,863)	(7,530,151)	(263,632,432)
Liability balances, June 30, 2011	\$ 40,416,658	\$ 11,697,500	29,894,740	18,378,000

In addition to the self-insurance program, commercial property insurance is carried for buildings and contents plus certain large and costly items, such as fire apparatus and helicopters. Excess liability and workers' compensation insurance policies are maintained for exposures above a \$1,000,000 self-insured retention. Settled claims have not exceeded any of these commercial coverages in any of the past three fiscal years.

J. LONG-TERM OBLIGATIONS

The following is a summary of changes in the government-wide long-term obligations of the primary government and component units for the year ended June 30, 2011 (in thousands):

	Balance June 30, 2010	Additions	Reductions	Balance June 30, 2011	Due Within One Year
Primary Government					
Governmental activities:					
General obligation bonds payable:					
Principal amount of bonds payable	\$ 1,997,045	190,090	(190,925)	1,996,210	170,150
Premium on bonds payable	104,654	13,258	(19,239)	98,673	16,615
Deferred amount on refundings	(39,968)	-	6,179	(33,789)	(4,848)
Revenue bonds payable:					
Principal amount of bonds payable	321,654	252,685	(16,498)	557,841	23,186
Premium on bonds payable	8,405	14,296	(1,195)	21,506	2,059
Discount on bonds payable	(675)	(277)	35	(917)	(46)
Deferred amount on refundings	(8,093)	(27)	900	(7,220)	(913)
Notes payable	9,998	-	(645)	9,353	645
Bond anticipation note:					
Principal amount of bonds anticipation note	32,815	28,905	(32,815)	28,905	2,180
Premium on bond anticipation note	541	1,680	(542)	1,679	762
Compensated absences payable	104,633	62,170	(64,592)	102,211	62,704
Landfill closure and postclosure obligation	60,645	63,801	(60,645)	63,801	500
Obligations under capital leases and installment purchases	8,064	9,439	(2,478)	15,025	3,791
Insurance and benefit claims payable	47,206	146,437	(141,528)	52,114	28,599
Net pension obligation	74,624	89,007	(74,624)	89,007	-
Net OPEB obligation	(9,506)	14,185	-	4,679	-
Other:					
HUD Section 108 loans	6,236	6,535	(305)	12,466	311

Compensated absences payable, obligations under capital leases, obligation to component unit, and obligations for claims and judgments for the primary government are liquidated by the General Fund and other governmental funds. The landfill closure and postclosure obligation will be liquidated by the I-95 Refuse Disposal Fund, a special revenue fund. In addition, the County, FCRHA, Park Authority, and EDA are required to adhere to and are in compliance with the rebate and reporting requirements of the federal regulations pertaining to arbitrage investment earnings on certain bond proceeds.

1. General Obligation Bonds

General obligation bonds are issued to provide funding for long-term capital improvements. In addition, they are issued to refund outstanding general obligation bonds when market conditions enable the County to achieve significant reductions in its debt service payments. Such bonds are direct obligations of the County, and the full faith and credit of the County are pledged as security. The County is required to submit to public referendum for authority to issue general obligation bonds.

At June 30, 2011, the amount of general obligation bonds authorized and unissued is summarized to the right (in thousands).

The Commonwealth of Virginia does not impose a legal limit on the amount of general obligation indebtedness that the County can incur or have outstanding. The Board of Supervisors, however, has self-imposed bond limits to provide that the County's net debt may not exceed three percent of the total market value of taxable real and personal property in the County.

In addition, the annual debt service may not exceed ten percent of the annual General Fund disbursements. As a financial guideline, the Board of Supervisors also follows a self-imposed limitation in total general obligation bond sales of \$1.375 billion over a five-year period or an average of \$275 million annually, with a maximum of \$300 million in any given year. All self-imposed bond limits have been complied with at June 30, 2011.

In February 2011, the County issued \$190,090,000 of Series 2011A General Obligation Public Improvement and Refunding Bonds with average interest rates of 4.58 percent and 4.67 percent, respectively. The Refunding Bonds, totaling \$18,695,000, were issued to current refund \$19,880,000 of outstanding Series 2002A bonds. Proceeds of \$20,314,016 were used to purchase U.S. Government securities which were deposited in an irrevocable escrow account to provide for the resources for refunded bonds redeemed on March 12, 2011. The County refunded these bonds to reduce its total debt service payments over the next four years by approximately \$1.4 million and to obtain an economic gain of approximately \$1.2 million.

Detailed information regarding the general obligation bonds outstanding as of June 30, 2011, is contained in Section 5 of this note.

2. Revenue Bonds

In March 1994, the EDA issued \$116,965,000 of lease revenue bonds (Series 1994) to finance the County's acquisition of certain land and office buildings adjacent to its main government center. In October 2003, the EDA issued \$85,650,000 of lease revenue refunding bonds to advance refund \$88,405,000 of outstanding Series 1994 lease revenue bonds. In June 2003, the EDA issued

Bond Purpose	Amount
School improvements	\$ 484,435
Transportation improvements	203,370
Parks and park facilities	47,315
Commercial and redevelopment area improvements	6,630
Human services facilities	7,800
Public safety facilities	102,580
Public library facilities	11,380
Total authorized but unissued bonds	<u>\$ 863,510</u>

\$70,830,000 of revenue bonds to finance the development and construction of a public high school and a public golf course and related structures, facilities, and equipment in the Laurel Hill area of the southern part of the County. In January 2005, the EDA issued \$60,690,000 of facilities revenue bonds to finance the acquisition of land and a building and for renovations to that building; this building will be used to consolidate numerous Public Schools administrative offices. In March 2010, the EDA issued \$43,390,000 of lease revenue bonds to current refund the FCRHA \$3,365,000 of outstanding Series 1996 lease revenue bonds, \$2,960,000 of outstanding Series 1998 lease revenue bonds, \$835,000 of outstanding Series 1999 lease revenue bonds, and to advance refund the FCRHA \$7,245,000 of outstanding Series 2004 lease revenue bonds, and the County's \$25,580,000 of outstanding Series 2000 certificate of participation bonds. In May 2011, the EDA issued \$205,705,000 of transportation district improvement revenue bonds (Silver Line Phase 1 Project) Series 2011 to finance a portion of the costs of the construction of the first phase of an extension of the Washington Metropolitan Area Transit Authority's mass transit system in Fairfax County. The bonds bear an average interest rate of 4.94 percent and mature on April 1, 2036. As the County is responsible, under the related documents and subject to annual appropriation, to make payments to a trustee sufficient to pay principal and interest on these bonds, the related transactions, including the liability for the bonds, have been recorded in the County's financial statements and not in those of EDA.

In August 2006, the FCRHA issued \$8,065,000 of lease revenue bonds to finance the Braddock Glen Adult Day Care Center and the Southgate Neighborhood Community Center.

In November 2007, the FCRHA issued a \$105,485,000 bond anticipation note (Series 2007B) to finance a portion of the purchase price of a multi-family rental housing property as part of the County's affordable housing initiative. In October 2008, the FCRHA issued a \$104,105,000 bond anticipation note (Series 2008B) to repay the outstanding \$105,485,000 bond anticipation note (Series 2007B). In August 2009, the FCRHA issued a \$94,950,000 of revenue bonds to provide funds, together with other funds, sufficient to pay the outstanding \$104,105,000 short-term bond anticipation note (Series 2008B) that matured on October 1, 2009. The bonds bear an average interest rate of 4.53 percent and mature on October 1, 2039. As the County is responsible, under the related documents and subject to annual appropriation, to make payments to a trustee sufficient to pay principal and interest on these bonds, the related transactions, including the liability for these bonds, have been recorded in the County's financial statements and not in those of the FCRHA.

In June 2011, Community Development Authority (CDA) issued \$46,980,000 Revenue Bonds (Mosaic District Project) Series 2011A with an average interest rate of 6.83 percent. The bonds were issued to finance certain public infrastructure improvements within or serving the Authority district. The 2011 Bonds are limited obligations of the Authority, payable solely from and secured by a pledge of certain County Advanced Revenues and certain Special Assessment Revenues.

None of these revenue bonds nor the related payment responsibilities of the County are general obligation debt of the County, and the full faith and credit of the County is not pledged to these bonds for such payment responsibility.

Detailed information regarding the revenue bonds outstanding as of June 30, 2011, is contained in Section 5 of this note.

3. Sewer Revenue Bonds

In July 1996, the Sewer System issued \$104,000,000 of Series 1996 Sewer Revenue Bonds with an average interest rate of 5.8 percent to fund the plant expansion of the wastewater treatment facilities at the County's Noman M. Cole, Jr. Pollution Control Plant and other system improvements. In October 2004, the Sewer System issued \$94,005,000 of Series 2004 Sewer Revenue Refunding Bonds with an average interest rate of 4.61 percent to advance refund \$91,430,000 of the outstanding

Series 1996 Sewer Revenue Bonds with an average interest rate of 5.82 percent. Net proceeds of the Refunding Bond were used mostly to redeem the Series 1996 Bonds on July 15, 2006. The lower interest rate of the Refunding Bond would reduce total debt service payment over future years by approximately \$16.8 million. In June 2009, the Sewer System issued \$152,255,000 of Series 2009 Sewer Revenue Bonds with an average interest rate of 4.88 percent to fund the System's portion of upgrade costs at certain wastewater treatment facilities that are owned by, or that provide service to, the County, the purchase of additional capacity, and the costs for other system improvements. As of June 30, 2011, the outstanding bonds consist of \$149,875,000 of Series 2009 Revenue Bonds and \$82,215,000 of Series 2004 Refunding Bonds.

The aforementioned sewer revenue bonds were issued in accordance with the General Bond Resolution adopted by the Board of Supervisors on July 29, 1985, and are payable from and secured by the net revenue generated through the Sewer System's operations. Accordingly, the Master Bond Resolution includes a rate covenant under which the Sewer System agreed that it will charge reasonable rates for the use of and services rendered by the Sewer System. Furthermore, the Sewer System will adjust the rates from time to time to generate net revenues sufficient to provide an amount equal to 100 percent of its annual principal and interest requirements and the Sewer System's annual commitments to fund its proportionate share of other jurisdictions' debt service requirements. In addition, payment of the principal and interest on all bonds is insured by municipal bond insurance policies.

In January 1995, UOSA, a joint venture, issued \$288,600,000 of Regional Sewer System Revenue Bonds to finance the cost of expanding the capacity of its wastewater treatment facilities and \$42,260,000 of Regional Sewer System Revenue Refunding Bonds to refund certain outstanding bonds that had been issued to finance a prior expansion. In December 2003, UOSA issued \$58,150,000 of Regional Sewer System Revenue Refunding Bonds to advance refund its outstanding Series 1993 bonds. In November 2004, UOSA issued \$49,395,000 of Regional Sewer System Revenue Refunding Bonds to advance refund a portion of the outstanding Series 1995 bonds. On July 1, 2005, UOSA issued \$82,465,000 of Regional Sewer System Revenue Refunding Bonds, of which the Sewer System's share is \$53,201,198, to advance refund another portion of the outstanding Series 1995 bonds, resulting in a \$1,909,604 accounting gain, which is being amortized over the life of the Series 2005 Bonds. In February 2007, UOSA issued \$90,315,000 of Regional Sewer System Revenue Refunding bonds, of which the Sewer System's share is \$58,265,521, to advance refund another portion of the outstanding Series 1995 Bonds, resulting in an \$83,868 accounting loss, which is amortized over the life of the Series 2007 Bonds. In December 2007, UOSA issued \$119,715,000 of Regional Sewer System Revenue Bonds, of which the System's share is \$53,925,458, to finance the cost of expanding its wastewater treatment and conveyance facilities. In December 2010, UOSA issued \$85,180,000 of Regional Sewer System Revenue Bonds, of which the System's share is \$34,113,615, to finance the cost of certain capital improvements.

The Sewer System's share of UOSA's total outstanding debt at June 30, 2011, is \$276,062,972, and it is subordinate to the sewer revenue bonds issued by the Sewer System.

In June 2001 and June 2002, the Sewer System issued 20-year subordinated sewer revenue bonds in the amounts of \$40,000,000 and \$50,000,000, respectively, to the Virginia Water Facilities Revolving Fund, acting by and through the Virginia Resources Authority. The proceeds have been used to finance a portion of the Sewer System's share of incurred expansion and upgrade costs of the Alexandria Sanitation Authority's wastewater treatment facilities, which provide service to certain County residents. The bonds bear interest rates of 4.1 percent per annum and 3.75 percent per annum, respectively, and collectively require semi-annual debt service payments of \$3,318,536. The bonds are subordinated to all outstanding prior bond issues of the Sewer System and payments for operation and maintenance expenses. As of June 30, 2011, the outstanding principal for the 2001 and 2002 subordinated revenue bonds is \$24,403,389 and \$32,543,507, respectively.

Detailed information regarding the sewer revenue bonds outstanding as of June 30, 2011, is contained in Section 5 of this note.

4. Bond Anticipation Notes

In February 2008, the FCRHA issued a \$37,615,000 refunding bond anticipation note to repay a portion of a 2007 short-term note that matured on February 12, 2008. The original short-term note was issued to partially finance the purchase of a multi-family rental housing complex as part of the County's affordable housing initiative. The long-term note matures on March 1, 2013, and may be redeemed prior to maturity. In May 2011, the FCRHA issued \$28,905,000 of bond anticipation note to current refund \$30,215,000 of outstanding Series 2008A bond anticipation note with average interest rate of 3.97 percent. Proceeds of \$30,473,938 were used to defease the Series 2008A bond anticipation note on May 19, 2011. The County refunded these bonds to reduce its total debt service payments over the next two years by approximately \$1.6 million and to obtain an economic gain of approximately \$1.6 million. As the County is responsible, under the related documents and subject to appropriation, to pay timely the principal of and interest on the note, the related transactions, including the liability for the note, have been recorded in the County's financial statements and not in those of the FCRHA. The note is not a general obligation debt of the County, and the full faith and credit of the County is not pledged to the note.

Detailed information regarding the bond anticipation note outstanding as of June 30, 2011, is contained in Section 5 of this note.

5. County Debt and Related Interest to Maturity

The County's outstanding general obligation bonds, revenue bonds, notes payable, HUD Section 108 loans, Sewer System revenue bonds, and the related interest to maturity as of June 30, 2011, are comprised of the issues presented on the facing page:

Series		Interest Rate (%)	Issue Date	Final Maturity Date	Annual Principal Payments (000)	Original Issue (000)	Principal Outstanding (000)	Interest Payable to Maturity (000)	Total Principal Outstanding & Interest Payable to Maturity (000)

6. FCRHA Bonds, Notes, and Loans Payable

The FCRHA issues various debt instruments, including bonds, notes and mortgages, to finance the cost of acquisition, construction, and equipping of its workforce, senior, disabled, low income, transient, and homeless affordable housing projects. These debt instruments are usually secured by the properties being financed. Sources of permanent financing include the Federal Department of Housing and Urban Development (HUD), the Virginia Housing Development Authority (VHDA), commercial lenders, and the County. Principal and interest on the HUD debt are funded by HUD under the Annual Contributions Contract, a federal government grant program. In addition, the FCRHA maintains unsecured \$10 million tax-exempt and \$5 million taxable lines of credit with a commercial bank to provide interim (bridge) financing.

The table on the facing page, details all FCRHA bonds, notes (including a loan from the County), and loans payable as of June 30, 2011, excluding FCRHA's component units:

Series	Secured By	Interest Rate (%)	Issue Date	Final Maturity Date	Annual Principal Payments (000)	Original Issue (000)	Total Principal Outstanding (000)

7. Park Authority Bonds, Loans, and Notes Payable

In February 1995, the Park Authority issued \$13,870,000 of Park Facilities Revenue Bonds, Series 1995, to fund the construction of additional golf facilities for County residents and patrons. In September 2001, the Park Authority issued \$13,015,000 of Park Facilities Revenue Refunding Bonds, Series 2001 to advance refund \$11,670,000 of the outstanding Series 1995 bonds. The bonds are solely the obligation of the Park Authority and are payable from the Park Revenue Fund's revenues from operations, earnings on investments, and certain fund balance reserves.

In June 2003, the Park Authority received a \$15,530,000 loan from the County to fund the development and construction of a public golf course and related structures, facilities, and equipment to be located in the Laurel Hill area of the southern part of the County. The loan is solely the obligation of the Park Authority and is payable from the Park Revenue Fund's revenues from operations, earnings on investments, and certain fund balance reserves.

The debt service requirements to maturity for the outstanding bonds and loan at June 30, 2011, are as follows:

Fiscal Year	Revenue Bonds			Loan from Primary Government			Total	
	Int. Rate	Principal	Interest	Int. Rate	Principal	Interest	Principal	Interest

8. Conduit Debt Obligations

The FCRHA is empowered by the Commonwealth of Virginia to issue tax-exempt bonds on behalf of qualified businesses to develop or rehabilitate low income housing within the County. Principal and interest on the tax-exempt bonds are paid entirely by the owners of the properties, who have entered into binding contracts to develop or rehabilitate the subject properties. The terms of the tax-exempt bonds stipulate that neither the FCRHA nor the County guarantees the repayment of principal and interest to the bondholders. A bondholder's sole recourse in the event of default on the tax-exempt bonds is to the subject property and third-party beneficiaries. Accordingly, these bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2011, approximately \$47.6 million of such tax-exempt bonds that are still outstanding.

The EDA is empowered by the Commonwealth of Virginia to issue Industrial Revenue Bonds (IRBs) on behalf of businesses relocating and/or expanding their operations within the County. Principal and interest on the IRBs are paid entirely by the businesses. The terms of the IRBs stipulate that neither the EDA nor the County guarantees the repayment of principal and interest to the bondholders. Accordingly, these bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2011, the cumulative amount of all IRBs outstanding was \$1,208.8 million.

In October 2003, August 2004, March 2007, and July 2008, the EDA issued \$33,375,000, \$57,410,000, \$41,505,000 and \$51,505,000, respectively, of transportation contract revenue bonds on behalf of the State Route 28 Transportation Improvement District for the purpose of financing a portion of the costs of the construction of certain improvements to State Route 28 in the County. The bonds are payable from the collection of special improvements assessments levied by the County and by Loudoun County, Virginia, on property owners in the District. As the County and EDA are not responsible to make payments to pay principal and interest on the bonds, the related transactions, including the liability for the bonds, are not recorded in the County's or EDA's financial statements. As of June 30, 2011, the principal amount of transportation contract revenue bonds outstanding was \$179.3 million.

In December 2005, the Park Authority issued two notes totaling \$12,900,000 to finance the acquisition of a permanent conservation easement. As the County is responsible, under the related documents and subject to appropriation, to pay the principal and interest on the notes, the related transactions, including the liability for the notes, have been recorded in the County's financial statements and not in those of the Park Authority. The notes are not general obligation debt of the County, and the full faith and credit of the County is not pledged to the notes. As of June 30, 2011, \$9.4 million of these notes are outstanding.

9. Defeasance of Debt

During the fiscal year, the County has defeased certain outstanding bonds by placing the proceeds of newly issued bonds in an irrevocable escrow funds to provide for all future debt service payments on the old bonds. Accordingly, the escrow fund assets and the liabilities for the defeased bonds are not included in the financial statements. As of June 30, 2011, the outstanding bonds but considered defeased are \$136.3 million in general obligation bonds, and \$24.7 million in certificate of participation bonds.

10. Sanitary Landfill Closure and Postclosure Obligation

State and federal laws require the County to place a final cover on its I-95 Sanitary Landfill when it stops accepting solid waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. The existing Municipal Solid Waste unit was closed on December 31, 1995 and capping was completed during 2008. The ash disposal unit continues to accept incinerator ash from the waste to energy facilities and the Norman Cole Pollution Prevention Plant. Closure expenditures have been incurred for approximately 70 percent of the total area involved. The County holds permits that allow it to continue using the landfill until approximately 2042.

The \$63.8 million reported as the landfill closure and post closure obligation at June 30, 2011, represents the total estimated cost remaining to be incurred based on landfill capacity used to date. The actual cost may vary due to inflation, changes in technology, or changes in regulations. It is expected that the landfill closure and post closure care costs will be funded from existing resources in the I-95 Refuse Disposal Fund.

11. Obligations Under Capital Leases and Installment Purchases

The reporting entity has financed the acquisition of certain capital assets, including a satellite government center, buses, computer equipment, copier machines, and trailers, by entering into capital lease and installment purchase agreements. The balance of capital assets, net, and the minimum obligations under these capital lease and installment purchase agreements as of June 30, 2011, are presented on the following page:

Asset Class	Primary Government - Governmental Activities	Component Unit - Public Schools

Portion representing interest	(1,362,313)	(38,016,978)
Present value of minimum obligations	\$ 15,024,935	81,326,518

The County is the lessor in a direct financing lease with Public Schools for an administrative office building and related land. The lease is structured so that Public Schools will make annual lease payments over 30 years equal to the County's required debt service payments on the Series 2005 Facilities Revenue Bonds (see Note J-2). The County will transfer ownership of the building to Public Schools once all the lease obligations are satisfied. The total future minimum lease payments receivable is \$54.1 million and deferred revenue in the amount of \$54.1 million is reported. Minimum lease payments for each of the five succeeding fiscal years are \$1,305,000, \$1,360,000, \$1,415,000, \$1,470,000 and \$1,530,000 respectively.

K. LONG-TERM COMMITMENTS

1. Washington Metropolitan Area Transit Authority (WMATA)

The County's commitments to WMATA are comprised of agreements to make capital contributions for the construction of rail lines and for the acquisition, replacement, and renovation of transit equipment and facilities and to provide operating subsidies for its rail, bus, and paratransit systems. The County's commitments in each of these areas are summarized as follows:

Capital Contributions – Transit Equipment and Facilities

Each fiscal year, the County and other local jurisdictions make contributions for WMATA's acquisition, replacement, and rehabilitation of transit equipment and facilities and for the debt service on federally guaranteed transit revenue bonds issued by WMATA. The County's obligation of approximately \$21.0 million for fiscal year 2011 was funded with \$11.4 million of County general obligation bond proceeds, \$5.0 million of NVTB bond proceeds, and \$4.6 million of state aid provided through the NVTC. It is anticipated that the County's obligation for fiscal year 2012 will amount to \$31.8 million and be funded with \$4.6 million of state aid provided through the NVTC, and \$27.2 million of County general obligation bond proceeds.

Operating Subsidies

The County and other local jurisdictions contribute annually toward WMATA's deficits resulting from the operation of its rail, bus, and paratransit systems. For fiscal year 2011, the County's obligation of approximately \$72.3 million for operating subsidies was funded with \$5.4 million from the County's Metro Operations and Construction Fund, \$66.9 million from state aid and regional gasoline tax receipts provided through the NVTC. It is anticipated that the County's obligation for fiscal year 2012 will amount to \$81.6 million and be funded with \$72.4 million of state aid and regional gasoline tax receipts provided through the NVTC and \$9.2 million of County funds.

2. Virginia Railway Express (VRE)

The County, as a member of the NVTC and in cooperation with the Potomac and Rappahannock Transportation Commission (PRTC), is a participating jurisdiction in the operation of the VRE commuter rail service. The service primarily consists of rush hour trips originating from Manassas, Virginia and from Fredericksburg, Virginia to Union Station in Washington, DC. There are five stations in Fairfax County.

In October 1989, the Board of Supervisors of Fairfax County approved the Commuter Rail Master Agreement and financial plans. These have subsequently been amended to reflect voting criteria for member jurisdictions, new member requirements, and fairness in the subsidy allocation formula which took effect for fiscal year 2008. The Board approved this Amended Master Agreement on September 10, 2007. The Amended Master Agreement requires the County to contribute to capital, operating, and debt service costs of the VRE on a pro rata basis according to its share of ridership. The County's fiscal year 2011 contribution to the VRE was \$4.9 million.

3. Operating Lease Commitments

The County, Public Schools, and the EDA have entered into various long-term lease agreements for real estate and equipment. Certain real estate leases contain provisions which allow for increased rentals based upon increases in real estate taxes and the Consumer Price Index. All lease obligations are contingent upon the Board of Supervisors appropriating funds for each fiscal year's payments. For fiscal year 2011, the County's, Public Schools', and EDA's total expenditures for these operating leases were \$16.5 million, \$4.8 million, and \$0.7 million, respectively. At June 30, 2011, the minimum long-term lease commitments accounted for as operating leases were as shown below:

Fiscal Year	Primary Government	Component Units	
	Governmental Activities	Public Schools	EDA
2012	13,304,045	3,873,020	676,702
2013	8,993,924	2,716,033	695,266
2014	6,816,467	2,369,238	714,493
2015	5,059,048	2,363,744	734,162
2016	4,568,017	1,656,706	754,273
2017-2021	16,167,668	1,298,808	2,669,680
2022-2026	2,541,017	-	-
2027-2031	2,800,800	-	-
2032-2036	1,775,656	-	-
2037-2039	1,092,922	-	-
Total	\$ 63,119,564	14,277,549	6,244,576

4. Intermunicipal Agreements

City of Alexandria, Virginia, Sanitation Authority

The Sewer System is obligated under an agreement with the City of Alexandria, Virginia, Sanitation Authority (ASA) to share the construction and operating costs and debt service requirements for its sewage treatment facility. Currently, the Sewer System has a capacity entitlement of 32.4 MGD, which is 60 percent of the facility's total capacity of 54 MGD. The Sewer System is allowed only one non-voting representative at the meetings of the ASA and has no significant influence in the management of the treatment facility. In addition, the Sewer System has no direct ongoing equity interest in the assets or liabilities of the ASA.

The ASA facility is currently undergoing major improvements to meet new water quality standards. The Sewer System paid ASA \$467,620 in fiscal year 2011, to fund its share of construction costs, and it estimates its share of the remaining construction costs to be \$172.4 million of which \$21.5 million, is expected to be incurred in fiscal year 2012 and the balance over fiscal years 2013 to 2021. In addition, the Sewer System made payments of \$13.2 million to the ASA during fiscal year 2011 for its share of the ASA's operating costs.

District of Columbia Water and Sewer Authority

The Sewer System is obligated under an intermunicipal agreement between the County; the District of Columbia (District); Montgomery County, Maryland; Prince George's County, Maryland; and the Washington Suburban Sanitary Commission to share the construction and operating costs of the Blue Plains Wastewater Treatment Plant, which is operated by the District of Columbia Water and Sewer Authority (WASA). Currently, the Sewer System has a capacity entitlement of 31 MGD, which is approximately 8.4 percent of the Plant's total capacity of 370 MGD. WASA has a Board of Directors comprised of six members from the District, two each from Montgomery and Prince George's Counties, and one from the County. The County has no significant control over plant operations and construction and no ownership interest in the assets of WASA.

The Blue Plains Plant is currently undergoing a major renovation of its chemical additions and sludge disposal systems. The Sewer System paid WASA \$9.3 million during fiscal year 2011 to fund its share of construction costs, and it estimates its share of the remaining construction costs to be \$178.2 million, of which \$33.3 million is expected to be incurred in fiscal year 2012 and the balance over fiscal years 2013 to 2021. In addition, the Sewer System made payments of \$13.3 million to WASA during fiscal year 2011 for its share of the Plant's operating costs.

Upper Occoquan Sewage Authority

As described in Note A, the Upper Occoquan Sewage Authority (UOSA) is a joint venture created under the provisions of the Virginia Water and Waste Authorities Act to be the single regional entity to construct, finance, and operate the regional sewage treatment facility for the upper portion of the Occoquan Watershed. The Sewer System's allocated share of the UOSA plant's total capacity of 54.0 MGD is 22.6 MGD, or approximately 42 percent.

UOSA's current operating expenses, construction costs, and annual debt service payments are funded by each of the participating jurisdictions based on their allocated capacity, with certain modifications. The Sewer System made payments to UOSA in fiscal year 2011 of \$13.2 million to pay its share of UOSA's operating costs.

Summarized UOSA financial information as of and for the years ended June 30, 2010, and 2009 (the most recent audited financial information available), is shown on the following page:

	2010	2009
Total assets	\$ 560,540,258	560,892,614
Total liabilities	(456,253,474)	(456,551,831)
Total net assets	\$ 104,286,784	104,340,783
Operating revenues	\$ 26,184,993	25,736,882
Operating expenses	(45,484,400)	(48,139,820)
Nonoperating revenues, net	9,977,724	11,027,772
Capital contributions	9,267,684	8,815,405
Decrease in net assets	\$ (53,999)	(2,559,761)

Arlington County, Virginia

The Sewer System is obligated under an agreement with Arlington County, Virginia, to share the construction and operating costs of the sewage treatment facility owned and operated by Arlington County. Currently, the Sewer System has a capacity entitlement of 3 MGD, which is 7.5 percent of the facility's total capacity of 40 MGD. The Sewer System has no direct on-going equity interest in the facility's assets and liabilities. Furthermore, the Sewer System has no significant influence over the management of the treatment facility.

The Arlington facility is currently undergoing a major upgrade to meet new water quality standards. The Sewer System paid Arlington County \$3.5 million in fiscal year 2011 to fund its share of the construction costs, and it estimates its share of the remaining construction costs to be \$20.4 million, of which \$2.9 million is expected to be incurred in fiscal year 2012 and the balance over fiscal years 2013 to 2021. In addition, the Sewer System made payments of \$1.7 million to Arlington County during fiscal year 2011 for its share of Arlington's operating costs.

5. Fairfax County Solid Waste Authority (SWA) – Resource Recovery

During fiscal year 1999, as a result of a call option, the EDA issued \$195,505,000 of Series 1998A Resource Recovery Revenue Refunding Bonds, the proceeds of which, together with certain other available funds, were used to refund all remaining outstanding Series 1988 bonds, which were initially issued to finance the construction of a 3,000 tons-per-day mass burn facility at the County's landfill site near Interstate 95. The operation of the facility by an independent contractor commenced in 1990. Solid waste is burned to produce electricity, which is sold to a local utility company.

The bonds are not an obligation of the County; however, the County is obligated to deliver a minimum annual tonnage of solid waste to the facility and to pay tipping fees for the disposal of such waste sufficient to cover the operating costs of the facility and the debt service on the bonds. The final principal and interest payments of \$41.8 million and \$1.3 million, respectively, were paid on February 1, 2011. The debt service reserve of \$19.6 million was applied against the last principal payment.

6. Long-term Contracts

At June 30, 2011, the primary government had contractual commitments of \$63,476,226 in the capital projects funds and \$66,100,000 in the Sewer System for construction of various sewer projects. At June 30, 2011, the component units had contractual commitments of \$84,032,653 and \$5,155,428 in the capital projects funds of the Public Schools and the Park Authority, respectively, for construction of various projects.

L. CONTINGENT LIABILITIES

The County is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operations. Although the outcome of these matters is not presently determinable, in the opinion of County management, the resolution of these matters will not have a material adverse effect on the County's financial condition.

The County receives grant funds, principally from the federal government, for construction and various other programs. Certain expenditures of these funds are subject to audit by the grantor, and the County is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of County management, no material refunds will be required as a result of expenditures disallowed by the grantors.

M. SPECIAL ITEMS

In September 2010, the Board of Supervisors approved a two phase Contract of Sale with Inova Health Systems. The Contract of Sale includes the transfer of approximately 15 acres of land including the Woodburn Mental Health Center and Woodburn Place from the County to Inova. In exchange for this land, Inova will provide the County with an approximate 5 acre parcel/pad site at Willow Oaks II, a \$15 million cash payment, and a 10 year lease of 40,000 square feet within the new Mid County Center building. The FY 2011 payment of \$7,299,699, a special item in the governmental activities, represents the first of two installments on the \$15 million cash payment.

In April 2011, the Sewer System completed a sale of 2.0 MGD purchase capacity of its 17.68 MGD share of UOSA expansion (from 27 to 54 MGD) to Prince William Service Authority for \$39,807,586. As a result, a special item - Gain from sale of purchase capacity - of \$16,787,885 was recognized.

N. SUBSEQUENT EVENTS

In July 2011, Community Development Authority (CDA) issued \$18,670,000 Revenue Bonds (Mosaic District Project) Taxable Series 2011A-T with an average interest rate of 7.25 percent. The bonds were issued to finance certain public infrastructure improvements within or serving the Authority district. The 2011 Bonds are limited obligations of the Authority, payable solely from and secured by a pledge of certain County Advanced Revenues and certain Special Assessment Revenues.

In July 2011, EDA issued \$99,430,000 of Revenue Bonds (Wiehle Avenue Metrorail Station Parking Project) Series 2011 with an average interest rate of 4.25 percent. The bonds were issued to finance the portion of the costs of the construction of the a public parking facility that will provide approximately 2316 public parking spaces, 12 bus bays, and 150 bicycle spaces and ancillary facilities, on public lands within Fairfax County, Virginia.

O. IMPLEMENTATION OF NEW ACCOUNTING PRONOUNCEMENTS

In Fiscal Year 2011, the County implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". The County determined that the Information Technology Fund previously reported as a special revenue fund would be more appropriately reported in the general fund, based on the proportion of specific revenue in relation to total inflows. As a result, when compared to the General Fund and Special Revenue Fund balances of \$349.2 million and \$440.0 million reported in FY 2010, balances have been adjusted to \$386.7 million and \$402.5 million, respectively. The County has opted not to retroactively apply presentation changes to the statistical section of this report.

Required

Supplementary Information

The Required Supplementary Information subsection includes the budgetary comparison schedule for the County of Fairfax's major fund, the General Fund. It also includes trend data, including the schedule of funding progress and the schedule of employer contributions, related to the pension trust funds of the County of Fairfax and the Fairfax County Public Schools component unit. The notes to required supplementary information are also included in this subsection.

COUNTY OF FAIRFAX, VIRGINIA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2011

A. BUDGETARY DATA

The Board of Supervisors adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- a. By March 1, the County Executive submits to the Board of Supervisors a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them. During April, public hearings are conducted to obtain taxpayer comments. By May 1, the budget is legally enacted through passage of an appropriation resolution.
- b. The operating budget includes all County appropriated funds and certain non-appropriated funds. The non-appropriated funds include certain funds of the Park Authority and the FCRHA that are not financed by the County.
- c. Budget reviews are held during the fiscal year. Public hearings are held if the recommended increase in the appropriated budget is greater than \$500,000 or one percent of revenues.
- d. The budget is controlled at certain legal and administrative levels. The Code of Virginia requires that the County annually adopt a balanced budget. The adopted Fiscal Planning Resolution places legal restrictions on expenditures at the agency (e.g., County organizations in the General Fund) or fund level and identifies administrative controls at the character (i.e., personnel services, operating expenses, recovered costs, and capital equipment) or project level. The County's Department of Management and Budget is authorized to transfer budgeted amounts between characters or projects within any agency or fund as a management function. Any revisions that alter the total expenditures of any agency or fund must be approved by the Board of Supervisors.
- e. Annual operating budgets are adopted for all appropriated governmental funds, except for the capital projects funds in which budgetary control is achieved on a project-by-project basis. The budgets are on a basis consistent with GAAP for the General Fund, except that:
 - Revenue from investments is recognized in the governmental funds for budget purposes only if collected within 45 days of year end, instead of as earned.
 - Offsetting revenues and expenditures related to donated food are not budgeted.
 - Capital lease transactions when initiated are not budgeted as offsetting expenditures and other financing sources.
 - Certain capital outlays are budgeted as functional expenditures.
 - Payments from or to component units are budgeted as transfers rather than functional revenues and expenditures.
 - Inventories of supplies are not included in the fund balance for budget purposes.
 - Nondepartmental expenditures are reported for budgeting purposes, but are included in functional expenditures for reporting purposes.

- The Gift Fund, which is included in the County's General Fund for reporting purposes, is treated as an agency fund for budgeting purposes.
- The Information Technology Fund, Consolidated Community Funding Pool Fund and the Contributory Fund, which are included in the County's General Fund for reporting purposes, are treated as special revenue funds for budgeting purposes.

The following schedule reconciles the amounts on the Budgetary Comparison Schedule – General Fund (Budget Basis) to the amounts on the Statement of Revenues, Expenditures, and Changes in Fund Balances (Exhibit A-3):

- f. Original and final budgeted amounts are shown on the Budgetary Comparison Schedule; amendments were not significant in relation to the original budget.

	Primary Government
	General Fund
Net change in fund balance (Budget basis)	\$ (3,225,586)
Basis difference - Revenue from investments	183,187
Perspective differences:	
The Gift Fund and NOVARIS are treated as agency funds for budget purposes	32,554
The Consolidated Community Funding Pool Fund is treated as a special revenue fund for budget purposes	99,065
The Contributory Fund is treated as a special revenue fund for budget purposes	36,373
The Information Technology Fund is treated as a special revenue fund for budget purposes	(7,407,798)
Net change in fund balance (GAAP basis)	<u>\$ (10,282,205)</u>

- g. Appropriations lapse at June 30 unless the Board of Supervisors approves carrying them forward to the next fiscal year.

B. PENSION TREND DATA

Six-year historical trend information of the retirement systems administered by the reporting entity is presented as required supplementary information. This information is intended to help users assess each system's funding status on a going concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employee retirement systems.

Analysis of the dollar amounts of plan net assets, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing plan net assets as a percentage of the actuarial accrued liability provides one indication of each system's funding status on a going concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage is, the stronger the system. Trends in the unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the system's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage is, the stronger the system.

Information pertaining to the retirement systems administered by the reporting entity can be found in Note G to the financial statements.

C. OTHER POST-EMPLOYMENT BENEFITS (OPEB) TREND DATA

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Information pertaining to the OPEB plans administered by the reporting entity can be found in Note H to the financial statements.

Other

Supplementary Information

The Other Supplementary Information subsection includes the combining and individual fund statements and schedules for the following:

- Governmental Funds
- Internal Service Funds
- Fiduciary Funds
- Capital Assets
- Component Units:
 - Fairfax County Public Schools
 - Fairfax County Redevelopment and Housing Authority
 - Fairfax County Park Authority
 - Fairfax County Economic Development Authority

The **General Fund** is used to account for all revenues and expenditures of the County, which are not required to be accounted for in other funds.

Revenues are derived primarily from real estate and personal property taxes, local sales taxes, utility taxes, business, professional and occupational license taxes, the use of money and property, license and permit fees, and state shared taxes.

Expenditures and transfers out include the costs of the general County government and transfers to component units and other funds, principally made to fund the operations of the Public Schools, and the debt service requirements of the County and Public Schools.

COUNTY OF FAIRFAX, VIRGINIA

The **Special Revenue Funds** are used to account for the proceeds of specific revenue sources (other than bond proceeds for major capital projects) that are legally restricted to expenditures for specified purposes.

County Transit Systems Fund is used to account for the operation of a bus service, known as the Fairfax Connector, to transport citizens in certain parts of the County to and from WMATA's rail stations and for the County's contributions to the Virginia Railway Express commuter rail service.

Dulles Rail Phase I Transportation Improvement District Fund is used to account for the charges to property owners within the Phase I District to support the debt service payments for bonds to be issued. These bonds fund the County's share of certain transportation improvements in the District.

Dulles Rail Phase II Transportation Improvement District Fund is used to account for the charges to property owners within the Phase II District to support the debt service payments for bonds to be issued. These bonds fund the County's share of certain transportation improvements in the District.

County and Regional Transportation Projects is used to account for the special tax assessed on commercial and industrial real estate in Fairfax County to support opportunities to improve transportation and pedestrian access. The tax revenues support roadway, pedestrian, and transit projects.

Federal/State Grant Fund is used to account for the utilization of federal and state funds to assist County citizens.

Aging Grants and Programs Fund is used to account for programs for senior citizens that specifically relate to the State Plan of Aging Services and that are administered by the Fairfax Area Agency on Aging. Included are programs for the provision of meals, transportation and medical care.

Information Technology Fund is reported as a special revenue fund for budget purposes only. For GAAP reporting, the activity and fund balance for this fund are accounted for in the General Fund. This fund is used to account for the acquisition of computer hardware and software for information technology projects which are designed to improve the County's management information system, its operational efficiency, and customer service.

Cable Communications Fund is used to account for costs associated with monitoring the County's Cable Communications Ordinance and Franchise Agreement as well as providing programming for the County's Governmental Access Channel. Its primary source of revenue is franchise fees.

Fairfax-Falls Church Community Services Board Fund is used to account for mental health, intellectual disability, and alcohol and drug services to individuals and families in Fairfax County, and the Cities of Fairfax and Falls Church.

Reston Community Center Fund is used to account for the operation of a community center serving the residents of Small District Five, located within the Dranesville and Hunter Mill Magisterial Districts. The district's residents support the fund by payment of a special assessment.

Mosaic Community Development Authority Fund is used to track the financing activities by the Authority for the construction of certain infrastructure assets requested by property owners within the Authority District. The Authority was established as a separate corporate entity and all operational aspects are handled by administrators and trustees outside the County. For GAAP reporting purposes, this is being reported as a special revenue fund due to a tax increment financing agreement. This fund is not an appropriated fund within the operating budget. Thus, there is no budgetary comparison schedule for this fund.

McLean Community Center Fund is used to account for the operation of a community center serving the residents of Small District One, located within the Dranesville Magisterial District. The district's residents support the fund by payment of a special assessment.

Burgundy Village Community Center Fund is used to account for the operation of a community center serving the residents of Service District 1A, located within the Lee Magisterial District. The district's residents support the fund by payment of a special assessment.

E-911 Fund is used to account for the operation of a 911 emergency response service for the citizens of the County, including related information technology projects.

Integrated Pest Management Program Fund is used to account for detection, abatement, and public information programs to suppress gypsy moth and cankerworm insect populations in the County.

Stormwater Services Fund is used to account for the operation of the Stormwater Management Program. The operating requirements and stormwater capital projects are supported by the stormwater service district levy.

Leaf Collection Fund is used to account for the collection and disposal of leaves from residences and businesses located within designated districts. These districts' residents and businesses support the fund by payment of a special assessment.

Refuse Collection and Recycling Operations Fund is used to account for the collection of refuse in designated districts and from all County departments and also accounts for the operation of the County's solid waste reduction and recycling centers.

Refuse Disposal Fund is used to account for the operation of a transfer station to receive refuse collected throughout the County and channel it to either the Energy Resource Recovery Facility (incinerator) or a landfill.

Energy Resource Recovery Facility Fund is used to account for the operation of a mass burn waste to energy facility, by a private contractor, used to burn refuse collected throughout the County and received from certain other local jurisdictions. The sale of electricity generated by the facility is a source of revenue for this fund.

I-95 Refuse Disposal Fund is used to account for the operation of a landfill which is now only used for disposal of ash generated by certain local incinerators.

Community Development Block Grant Fund is used to account for programs to upgrade low and moderate income neighborhoods through the provision of public facilities, home improvements, and public services.

Housing Trust Fund is used to account for the promotion of housing for low and moderate income individuals in the County by providing low cost debt and equity capital in the form of loans, grants, and equity contributions.

HOME Investment Partnership Grant Fund is used to account for affordable housing programs involving acquisition, rehabilitation, new construction, and tenant-based rental assistance.

Consolidated Community Funding Pool Fund is reported as a special revenue fund for budget purposes only. For GAAP reporting, the activity and fund balance for this fund are accounted for in the General Fund. This fund accounts for money awarded to community-based nonprofit organizations on a competitive basis to provide certain services to County citizens.

Contributory Fund is reported as a special revenue fund for budget purposes only. For GAAP reporting, the activity and fund balance for this fund are accounted for in the General Fund. This fund accounts for money awarded to certain contributory organizations to provide human services to County citizens.

Alcohol Safety Action Program Fund is used to account for programs to reduce the incidence of driving under the influence (DUI) of alcohol through rehabilitative alcohol/drug education, case management of DUI defendants, referral to alcohol/drug treatment programs and public information. This fund is solely fee supported and is not an appropriated fund within the operating budget. Thus, there is no budgetary comparison schedule for this fund.

The **Capital Projects Funds** are used to account for financial resources used for all general County construction projects other than enterprise fund construction.

Contributed Roadway Improvement Fund is used to account for contributions received from developers to fund specific projects in various growth areas of the County.

Library Construction Fund is used to account for design and construction of new County libraries, renovations of existing facilities, and capital equipment expenditures authorized by voter referendum. Projects are funded from the sale of bonds.

County Construction Fund is used to account for renovations, maintenance, and on-going initiatives involving County, FCPA, and FCPS properties. Projects are funded from a variety of sources including, but not limited to the General Fund, aid from the State, and the sale of bonds.

Capital Renewal Construction Fund is used to account for the planned replacement of County government building subsystems such as roofs, electrical systems, HVAC systems, and plumbing systems that have reached the end of their useful life cycle. Projects are funded by the General Fund.

Transportation Improvements Fund is used to account for road construction and repair authorized by voter referendum. Projects are funded primarily from the sale of bonds. Other sources of funding are developers' contributions and transfers from other funds.

Pedestrian Walkway Improvements Fund is used to account for the design and construction of sidewalks to provide safe walking conditions for public school students. The program is undertaken in cooperation with the Public School system and generally involves projects which link residential areas and public schools. Projects are funded by the General Fund.

Metro Operations and Construction Fund is used to account for subsidies to the Washington Metropolitan Area Transit Authority for Metrobus/Metrorail operations and Metrorail construction. The cost of the operations and construction is shared by all local jurisdictions in the Washington, D.C. metropolitan area.

Stormwater Management Program Fund is no longer being used. The activities previously accounted for in this fund are now accounted for in the Stormwater Services fund.

County Bond Construction Fund is no longer being used. The activities previously accounted for in this fund are now accounted for in the County Construction fund.

Public Safety Construction Fund is used to account for the funding of public safety projects, including the design and construction of fire stations, police stations, and the Public Safety Academy. Projects are funded by the sale of bonds.

Neighborhood Improvement Program Fund is no longer being used. The activities previously accounted for in this fund are now accounted for in the County Construction fund.

Commercial Revitalization Program Fund is used to account for the development and revitalization of commercial centers. The improvements financed through the program include moving utilities underground, sidewalk construction, street lighting, tree planting, and other pedestrian amenities. Projects are funded by the sale of bonds.

Pro Rata Drainage Construction Fund is used to account for storm drainage projects in accordance with the Pro Rata Share Program approved by the Board of Supervisors on December 16, 1991. Under this program, funding is obtained from land developers who pay a pro rata share of the total estimated cost of necessary storm drainage improvements.

Housing Assistance Program Fund is used to account for the development of low and moderate income housing and the support of public improvement projects in low and moderate income neighborhoods.

The Penny for Affordable Housing Fund is used to account for the planned allocation of funding by the Board of Supervisors to prioritize and monitor affordable housing preservation initiatives. Projects are funded by the dedication of the value of one penny of the real estate tax rate.

Northern Virginia Regional Park Authority Fund is no longer being used. The activities previously accounted for in this fund are now accounted for in the County Construction fund.

The **Internal Service Funds** are used to account for the financing of goods or services provided by a department to another department on a cost reimbursement basis.

Vehicle Services Fund is used to account for the acquisition of certain motor vehicles and the costs associated with the operation thereof by various departments of the reporting entity.

Self-Insurance Fund is used to account for the costs associated with providing coverage to the County for losses related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and citizens, and natural disasters; with managing claims pertaining thereto; and with operating various loss-prevention, safety, and rehabilitation programs.

Document Services Fund is used to account for the costs associated with providing printing, copying, and micrographic services to various departments of the reporting entity.

Technology Infrastructure Services Fund is used to account for the costs associated with providing data center and network services to County departments through the operation and maintenance of a mainframe computer, data communications equipment, and radio networks.

Health Benefits Fund is used to account for the provision of a comprehensive health insurance benefits program to County employees.

The **Fiduciary Funds** are used to account for assets held by the County in a trustee or agency capacity and include the pension trust funds and agency funds. Pension trust funds account for assets held by the County under terms of a formal trust agreement. Agency funds are custodial in nature and are maintained to account for funds received and disbursed by the County on behalf of various organizations.

Pension Trust Funds are used to account for employee retirement systems that provide pension benefits for various classes of County employees. The County maintains three employee retirement funds: the Uniformed Retirement Fund, the Employees' Retirement Fund, and the Police Officers Retirement Fund.

OPEB Trust Fund is used to account for the costs of other post-employment benefits, including health care, life insurance, and other non-pension benefits offered to retirees. The establishment of a trust fund allows the County to capture long-term investment returns, make progress towards reducing the unfunded actuarial liability, and pre-fund the cost of post-employment health care and other non-pension benefits.

Sanitary Reimbursement Fund is an agency fund used to account for the collection of contributions from beneficiary developers toward the construction of major sewer lines and the reimbursement of these funds to the primary developers.

Special Welfare Fund is an agency fund used to account for regular assistance payments to recipients in the Aid to Dependent Children Program. These funds include money from the State, individuals, organizations, and churches.

Resource Recovery Fund is an agency fund used to account for certain assets of the commercial entity that operates the mass burn facility located near Interstate 95. This is the fund of the Fairfax County Solid Waste Authority, a blended component unit.

Vienna/Huntington Metrorail Fund is an agency fund used to account for certain funds related to the construction and operation of parking facilities at WMATA's Vienna and Huntington Metrorail Stations.

State Taxes Fund is an agency fund used to account for the collection of sheriff's fees and the subsequent remittances to the Commonwealth of Virginia.

Route 28 Fund is an agency fund used to account for the collection of assessments on certain industrial and commercial properties for transportation improvements to Route 28 and the subsequent remittances of these funds to the Commonwealth of Virginia.

Lake Barcroft Fund is an agency fund used to account for the collection of special assessments from certain property owners for the maintenance of Lake Barcroft and the subsequent remittances of these funds to the Commonwealth of Virginia.

Toll Road Violations Fund is an agency fund used to account for the collection of toll road violation fees and the subsequent remittances to Metropolitan Washington Airports Authority.

(1) This schedule presents only the capital asset balances related to governmental funds. Accordingly, the capital assets reported in internal service funds are excluded from the above amounts. The capital assets of internal service funds are included as governmental activities in the statement of net assets.

Fairfax County Public Schools (Public Schools) is responsible for elementary and secondary education within the County. The School Board is elected by County voters. Public Schools is fiscally dependent on the County in that its operations are funded primarily by payments from the County's General Fund, and the County issues general obligation debt to fund Public Schools capital projects.

General Fund is used to account for expenditures to operate, maintain, and support Public Schools' programs. Its primary sources of revenues are Federal and State Aid and payments from the County's General Fund.

Food and Nutrition Services Fund is a special revenue fund used to account for the provision of student breakfasts, snacks, and lunches. Primary sources of revenues are Federal and State Aid and receipts from food sales.

Grants and Self-Supporting Programs Fund is a special revenue fund used to account for federal, state, non-profit, and private industry grants that support the Instructional Services, Student Services, Special Education, and Information Technology programs.

Adult and Community Education Fund is a special revenue fund used to account for programs pertaining to basic skills education, high school completion, English as a second language, apprenticeship and occupation skills instruction, family literacy, driver education, SAT preparation, and business contracts.

Capital Projects Fund is used to account for the renovation, expansion, and new construction of school facilities as authorized by voter referendum and for other capital expenditures. Projects are funded primarily by proceeds from the sale of County general obligation bonds.

Central Procurement Fund is an internal service fund used to account for the centrally procured orders of textbooks, supplies, and equipment and their issuance to individual schools and offices.

Health Benefits Trust Fund is an internal service fund used to account for the provision of a comprehensive health insurance benefits program to Public Schools' employees.

Insurance Fund is an internal service fund that is used to account for the Public Schools' casualty liability obligations, including the provision of worker's compensation benefits in the form of medical and disability payments to Public Schools' employees who sustain occupational injuries.

Pension Trust Fund is used to account for the Educational Employees' Supplementary Retirement System, which provides pension benefits for Public Schools' employees.

OPEB Trust Fund is used to account for a single-employer other post-employment defined benefit plan.

Student Activity Fund is an agency fund that is used to account for the funds derived from various extracurricular school activities.

Reconciliation of the Balance Sheet to the Statement of Net Assets

Fund balances - Total governmental funds	\$ 369,458,839
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental fund activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$3,272,751,160 and accumulated depreciation/amortization is \$1,255,660,223.	2,017,213,491
Intangible assets used in governmental fund activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$5,637,657 and accumulated amortization is \$846,324.	4,791,333
Internal service funds are used by management to provide certain goods and services to governmental funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.	63,059,127
Compensated absences and accrued interests on long-term debt related to governmental fund activities are not due and payable in the current period, and therefore, are not reported in the funds.	(30,643,049)
Capital lease are not due and payable in the current period and, therefore, are not reported in the funds.	(81,326,518)
Rent Abatement on Capital Lease is not reported in governmental funds.	(1,722,960)
The net OPEB obligation, resulting from the annual required contribution in excess of the contributions for other post-employment benefits, is not considered a financial liability and, therefore, is not reported in the governmental funds.	(1,708,994)
Net assets of governmental activities	<u>\$ 2,339,121,269</u>

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the fiscal year ended June 30, 2011

EXHIBIT J-1

concluded

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

Net change in fund balances - Total governmental funds	\$ 55,660,558
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which capital outlays exceed depreciation/amortization expense in the current period:	
Capital outlay	\$ 174,358,149
Capital lease expenditures	
Capitalized interest on School Administration Building	
Less depreciation/amortization expense	<u>(109,161,277)</u>
Donations of capital assets increase net assets in the statement of activities, but do not appear in the governmental funds because they are not financial resources.	65,196,872
Loss on the disposition of capital assets is reported in the statement of activities. However, in the governmental funds, only the proceeds from sales are reported, which increase fund balance. Thus, the difference is the depreciated cost of the capital assets disposed.	3,633,822
Principal payments on capital leases and installment purchases are reported as expenditures in governmental funds. However, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities.	(7,726,475)
Under the modified accrual basis of accounting used in the governmental funds, expenditures for compensated absences are not recognized until they mature. In the statement of activities, however, they are reported as expenses and liabilities as they accrue.	22,759,352
Internal service funds are used by management to provide certain goods and services to governmental funds. The change in net assets of these funds is reported within governmental activities in the statement of activities.	1,657,146
Interest on capital leases and installment purchases is reported as expenditures in the governmental funds when it is due. However, in the statement of activities, interest is expensed as it accrues. This amount represents the net change in accrued interest on long-term debt.	4,318,624
Proceeds from the issuance of long-term debt are reported as other financing sources in the governmental funds, increasing fund balance. In the government-wide statements, new debt increases long-term liabilities in the statement of net assets and does not affect the statement of activities. This amount represents principal amounts of new capital leases and installment purchases.	229,815
Rent abatement charges reduce deferred rent in government-wide statements, but do not use current resources so are not reported in governmental funds.	(7,058,523)
Inventory changes impact net assets in government-wide statements, but are recorded as expenditures when purchase in governmental fund statements.	(651,710)
OPEB costs are recognized as expenditures in the fund statements, but are deferred and amortized in the government-wide statements, resulting in a net difference.	(291,776)
	<u>7,157,399</u>
Change in net assets of governmental activities	<u>\$ 144,885,104</u>

The **Fairfax County Redevelopment and Housing Authority** (FCRHA) is responsible for low income housing and community development programs within the County. FCRHA was approved by a voter referendum in November 1965 and was activated by the County Board of Supervisors in February 1966. FCRHA is a political subdivision of and reports to the Commonwealth of Virginia. The County Board of Supervisors appoints the FCRHA Board of Commissioners and the County provides certain managerial and other related assistance to FCRHA.

Primary Government represents FCRHA's use of an enterprise fund to report its activities. FCRHA activities are funded by federal grants from the U.S. Department of Housing and Urban Development (HUD), rents, and other user charges resulting from operations of subsidized housing, development and financing fees, investment income, and loan proceeds. These funds provide rental housing, housing for the elderly/group homes, loans for home ownership and home improvement, tenant assistance, community development, and administration of these programs.

Component Units are real estate limited partnerships of FCRHA. FCRHA is the managing general partner and has certain rights which enable it to impose its will on the limited partnerships. FCRHA is legally obligated to fund operating deficits, making FCRHA financially accountable for the partnerships.

The **Fairfax County Park Authority** (Park Authority) was created by the Board of Supervisors of the County on December 6, 1950, to maintain and operate the public parks and recreational facilities located in the County. The Board appoints the Park Authority's Board members, and a substantial portion of the cost of the Park Authority's operations are funded by the County.

General Fund (Financed from County General Fund) is used to account for the operations of the park facilities that are funded by the County.

Park Revenue Fund is a special revenue fund used to account for the operations of the park facilities that are funded from park operating revenues.

Financed from County Construction Fund is a capital projects fund used to account for specific maintenance projects for park facilities that are funded by the County's Construction Fund.

Park Construction Bond Fund is a capital projects fund used to account for all construction projects and capital improvements of the Park Authority financed by County general obligation bonds.

Park Capital Improvement Fund is a capital projects fund used to account for all Park Authority construction projects and capital improvements financed through interest earned and transfers from the Park Revenue Fund.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the fiscal year ended June 30, 2011

EXHIBIT L-1

concluded

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

Net change in fund balances - Total governmental funds	\$	(12,371,066)
--	----	--------------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceed depreciation expense in the current period:

Capital outlays	\$ 26,572,981	
Less depreciation expense	<u>(10,511,237)</u>	16,061,744

In the statement of activities, the gain or loss on the disposition of capital assets is reported.

However, in the governmental funds, only the proceeds from sales are reported, which increase fund balance. Thus, the difference is the depreciated cost of the capital assets disposed.

(2,171)

Gross sales proceeds are adjusted as they appear as gain on sale on government wide financial statements

(23,108)

Donations of capital assets increase net assets in the statement of activities, but do not appear in the governmental funds because they are not financial resources.

1,509,000

Certain costs in CIP beginning balance were expensed because total costs were under \$5,000

(933,106)

Repayment of the principal amounts of long-term debt is reported as an expenditure or as an other financing use when debt is refunded in the governmental funds and thus, reduces fund balance. However, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities. Principal repayments of matured bonds totaled this amount.

Principal repayments of matured bonds	\$ 670,000	
Principal repayments of revenue notes	<u>150,000</u>	820,000

Under the modified accrual basis of accounting used in the governmental funds, expenditures for the following are not recognized until they mature. In the statement of activities, however, they are reported as expenses and liabilities as they accrue. The timing differences are as follows:

Compensated absences	\$ 332,411	
Interest and other	<u>(77,260)</u>	<u>255,151</u>

Change in net assets of governmental activities	<u>\$</u>	<u>5,316,444</u>

The **Fairfax County Economic Development Authority (EDA)** provides direct assistance to firms which intend to establish their operations within the County. The EDA's mission is to attract businesses to Fairfax County and to work with the existing businesses to retain them as they expand and create new jobs. The EDA is an independent authority, legally authorized by an enactment of the Virginia General Assembly and formally created by resolution of the County Board of Supervisors. The County Board of Supervisors appoints the seven members of EDA's Commission. The Board also appropriates funds annually for operating expenditures incurred in carrying out EDA's mission.

General Fund (Financed from County General Fund)
is used to account for the operations of the EDA, all of which are funded by the County.

Total liabilities	212,739
Fund balance:	
Unreserved	-
Total liabilities and fund balance	\$ 212,739

Reconciliation of the Balance Sheet to the Statement of Net Assets

Fund balance - General Fund \$ -

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$824,195 and the accumulated depreciation and amortization is \$198,165. 626,030

Long-term liabilities, including compensated absences payable, \$234,570, and deferred rent, \$1,134,961, are not due and payable in the current period and, therefore, are not reported in the fund. (1,369,531)

Net deficit of governmental activities \$ (743,501)

Statistical Section

The Statistical Section provides financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, including the accompanying notes, and required supplementary information to understand and assess the County's economic condition. Information is presented in the following five categories:

- 1.0 Financial trends information
- 2.0 Revenue capacity information
- 3.0 Debt capacity information
- 4.0 Demographic and economic information
- 5.0 Operating information

1.0 - Financial trends information is intended to assist users in understanding and assessing how the County's financial position has changed over time. There are four tables presented in this section.

Source: Fairfax County Department of Finance

Notes:

- (1) The County issues debt for the construction of Public Schools and Park Authority facilities. The County reports this debt; whereas, the Public Schools and Park Authority report the related capital assets and unspent bond proceeds. As a result, the debt reduces unrestricted net assets for the primary government. The amount of this debt related to investments in capital assets and unspent bond proceeds for these component units that is outstanding for each fiscal year is as follows:

Fiscal Year				
2011	2010	2009	2008	2007

Source: Fairfax County Department of Finance

Notes:

- (1) The County sold 46.8 acres of land located in the Laurel Hill area of the southern part of the County to a private developer for development as a senior living campus and graduated care facility.
- (2) The County sold 34.0 acres of land located in central Fairfax to provide funding for the Park Authority to satisfy the debt it issued to purchase certain park land in western Fairfax.
- (3) The Sewer System used available resources to redeem certain outstanding bonds, resulting in the recognition of an accounting loss, in order to reduce its total debt service payments by approximately \$20.9 million over 13 years.
- (4) Certain revenue amounts for fiscal year 2002 have been reclassified to conform with the presentations for subsequent years.
- (5) General government administration expenses increased approx 53.6 percent over fiscal year 2004 primarily as a result of the transfer of South County Secondary School valued at \$68.0 million to Public Schools.

(6) In FY2007, Public Schools transferred 12 properties totaling 188.9 acres to the County valued at \$10,874,069. As part of this transfer, Public Schools is able to make an annual request of \$25 million in capital bond funding through fiscal year 2012.

(7) In January 2008, the Sewer System sold purchased capacity to Prince William County Service Authority (2 MPG) and the City of Manassas (1 MPG) for \$50.6 million. As a result, a special item - Gain from sale of Purchased Capacity of \$10,954,572 was recognized.

(8) In September 2010, Inova Health Systems transferred approximately 15 acres of land to the County. In exchange for this land, Inova will provide the County with an approximate 5 acre parcel, a \$15 million cash payment, and a 10 year lease of 40,000 square feet within the new Mid County Center building. The FY 2011 payment of \$7,299,699, a special item in the governmental activities, represents the first of two installments on the \$15 million cash payment.

(9) In April 2011, the Sewer System completed a sale of 2.0 MGD purchase capacity of its 17.68 MGD share of UOSA expansion (from 27 to 54 MGD) to Prince William Service Authority for \$39,807,586. As a result, a special item - Gain from sale of purchase capacity - of \$16,787,885 was recognized.

Source: Fairfax County Department of Tax Administration

Notes:

- (1) Assessed value is the estimated actual value of taxable property and is shown for each period for which taxes are levied. Real property is assessed as of January 1 each year at the estimated fair market value of all land and improvements, with the resulting taxes being payable in the subsequent fiscal year.

COUNTY OF FAIRFAX, VA
TABLE 2.2 - Direct and Overlapping Real Property Tax Rates (1)
Last Ten Fiscal Years

Fiscal Year	County Direct Rate (2)	Overlapping Rates (3)	
		Town of Herndon	Town of Vienna
2011	1.09	0.27	0.245
2010	1.04	0.26	0.228
2009	0.92	0.24	0.209
2008	0.89	0.24	0.197
2007	0.89	0.24	0.186
2006	1.00	0.25	0.220
2005	1.13	0.28	0.265
2004	1.16	0.28	0.275
2003	1.21	0.30	0.285
2002	1.23	0.32	0.300

Sources: Fairfax County Department of Tax Administration; Town of Herndon; Town of Vienna

Notes:

- (1) Rates are per \$100 of assessed value, which is determined as of January 1 of the prior calendar year.
- (2) Virginia law limits the annual tax increase to 2% unless public hearings are held. The County Board of Supervisors holds public hearings annually in conjunction with the budget process.
- (3) These overlapping rates only apply to property owners within these Towns, which lie entirely within the County.

COUNTY OF FAIRFAX, VA
TABLE 2.3 - Principal Real Property Taxpayers

Source: Fairfax County Department of Finance

Notes:

- (1) Amounts for bonds are reported gross, excluding premiums and/or discounts and deferred amounts on refundings. See Note K in Notes to the Financial Statements for additional information regarding the County's outstanding debt.
- (2) The Certificates of Participation relate to the County's acquisition of the South County Government Center, which is reported as a capital lease in the financial statements. The lease was signed on November 1, 2000, and the first payment was due on October 15, 2002. The Certificates of Participation bonds were refunded on March 10, 2010 by EDA Series 2010 Revenue Bonds.
- (3) See Table 4.1 for personal income data. The percentage is calculated using personal income data for the prior calendar year.
- (4) See Table 4.1 for population data. The ratio is calculated using population data for the prior calendar year.

Source: Fairfax County Department of Finance

Notes:

- (1) Amounts for bonds are reported gross, excluding premiums and/or discounts and deferred amounts on refundings. See Note K in Notes to the Financial Statements for additional information regarding the County's outstanding debt.
- (2) Lease revenue bonds have been issued by county component units, using receipt of lease payments as the revenue source. All outstanding lease revenue bonds have been identified as conduit debt of the county and the associated lease payments are made using general government resources.
- (3) See Table 2.1 for actual taxable value of real property data. This percentage is calculated using values for each fiscal year for which levied.
- (4) See Table 4.1 for population data. This ratio is calculated using population for the prior calendar year.

COUNTY OF FAIRFAX, VA

Revenue bonds			557,841
Certificates of participation			-
Notes			38,258
Capital leases			15,025
HUD Section 108 loan			12,466
State Literary Fund loans			<u>-</u>
Total direct debt			<u>2,619,800</u>
Total direct and overlapping debt			<u>\$ 2,647,711</u>

Sources: Fairfax County Department of Finance; Town of Herndon; Town of Vienna

Notes:

- (1) Amounts for bonds are reported gross, excluding premiums and/or discounts and deferred amounts on refundings.
- (2) The percentage of overlapping debt applicable is determined using taxable assessed property values. The Towns of Herndon and Vienna are situated entirely within the geographic boundaries of the County, and their residents and businesses bear the governmental activities debt burdens of both the County and their respective Towns.
- (3) The County's direct debt is also presented in Table 3.1.

COUNTY OF FAIRFAX, VA

**TABLE 3.4 - Self-Imposed Debt Margin Information
Last Ten Fiscal Years**

The Commonwealth of Virginia does not impose a legal limit on the amount of long-term indebtedness that the County can at any time incur or have outstanding. The Board of Supervisors, however, has imposed limits which provide that the County's (a) long-term general bonded debt should not exceed three percent of the total assessed value of taxable real and personal property in the County and (b) the annual debt service should not exceed ten percent of the annual general fund expenditures and transfers out, excluding capital leases and installment purchases in the year initiated. Relevant information pertaining to these self-imposed debt margins is provided below.

	Fiscal Year (000s)				
	2011	2010	2009	2008	2007
(a) Debt limit (2)	\$ 6,108,656	6,680,146	7,354,368	7,334,790	7,057,254

Source: Fairfax County Department of Finance

Notes:

- (1) Amounts for bonds are reported gross, excluding premiums and/or discounts and deferred amounts on refundings.
- (2) See Table 2.1 for assessed taxable value of real property data. The amounts used to determine debt limits include values for each period for which levied and include both real and personal property.
- (3) See Table 3.2 for debt applicable to limit amounts.
- (4) Debt service requirements exclude "bond issuance costs and other" expenditures recorded in the debt service funds.

2001	984,366	51,126,001	51,938	36.4	56.2	158,331	2.5

Notes:

- (1) Population data includes the Cities of Fairfax and Falls Church and is obtained from U.S. Census Bureau's American Fact Finder.
- (2) Personal income data is obtained from the Bureau of Economic Analysis, U.S. Department of Commerce and includes the Cities of Fairfax and Falls Church. Data for only Fairfax County is not available, however, it is believed that the inclusion of these Cities does not significantly affect the County's data. Fairfax County data for 2009 has been updated to reflect actual reported figures, while 2010 has been estimated using percent change in per capita personal income from 2008 to 2009.
- (3) Median age and educational attainment information are obtained from the U.S. Census Bureau's American Community Survey.
- (4) Public school enrollment is obtained from Fairfax County Public Schools.
- (5) Unemployment rates are obtained from the Virginia Employment Commission, Annual Unemployment Statistics for the calendar year, not seasonally adjusted. The previously reported estimated figures for the most recent prior year have been updated to reflect the final reported figures from the Commission.

Source: Fairfax County Economic Development Authority (using Virginia Employment Commission data); Fairfax County Public Schools; Fairfax County Department of Management and Budget

Notes:

- (1) Employment information for fiscal year 2011 excluding data for Fairfax County Government and Fairfax County Public Schools, is from the 1st quarter of calendar year 2011 VEC, which represents the most recent data available. Employment information for fiscal year 2002 is from third quarter 2001 through second quarter 2002, corresponding to the actual County fiscal year, except for Federal Government employment, which uses the VEC's annually reported figure.
- (2) Employment estimates for separate facilities of the same firm have been combined to create company totals. Employment ranges for the private sector are given to ensure confidentiality.
- (3) Percentages are based on the midpoint of the employment range. Average total County employment for fiscal year 2011 is estimated at 576,746, based on VEC's reported monthly employment for July 2010 through June 2011. Average total County employment for fiscal year 2002 was estimated at 536,871 according to the same VEC approach.

5.0 - Operating information is intended to provide contextual information about a government's operations and resources to assist readers in using financial statement information to understand and assess a government's economic condition. There are three tables presented in this section.
